

Directors' responsibility statement

for the year ended 28 February 2023

The directors are responsible for the preparation and fair presentation of the consolidated annual financial statements of Datatec Limited ("Datatec" or the "Company" or the "Group"), comprising the consolidated statement of financial position at 28 February 2023 and the consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, and the notes to the consolidated annual financial statements which include a summary of significant accounting policies and other explanatory notes, in accordance with International Financial Reporting Standards ("IFRS") and the requirements of the South African Companies Act 71 of 2008 ("the Companies Act").

In terms of the Companies Act, the directors are required to prepare consolidated annual financial statements that fairly present the state of affairs and business of the Group at the end of the financial year and of the profit for that year. The consolidated annual financial statements for the year ended 28 February 2023 are prepared in accordance with IFRS of the International Accounting Standards Board, Interpretations issued by the IFRS Interpretations Committee, the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and the Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council, the JSE Listings Requirements and the Companies Act and incorporate transparent and responsible disclosure together with appropriate accounting policies. These consolidated annual financial statements were compiled under the supervision of Ivan Dittrich CA(SA), the Chief Financial Officer ("CFO").

The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and for maintaining adequate accounting records and an effective system of risk management as well as the preparation of the supplementary schedules included in these consolidated annual financial statements.

These consolidated annual financial statements have been audited in compliance with the requirements of the Companies Act. The auditor is responsible for reporting on whether the consolidated annual financial statements are fairly presented in accordance with the applicable financial reporting framework.

The directors have made an assessment of the ability of the Company and its subsidiaries to continue as going concerns and believe that the Group and its subsidiaries have adequate resources to continue in operation for the foreseeable future, and accordingly, these consolidated annual financial statements have been prepared on a going concern basis.

The directors of the Company are responsible for the controls over, and security of the website and, where applicable, for establishing and controlling the process of electronically distributing annual reports and other financial information to shareholders and to the Companies and Intellectual Property Commission.

Approval of the consolidated annual financial statements

The consolidated annual financial statements of Datatec Limited as identified in the first paragraph were approved by the Board of directors on 22 May 2023 and signed by:

JP Montanana
Chief Executive Officer

Authorised director

IP Dittrich
Chief Financial Officer

Authorised director

CEO and CFO responsibility statement

for the year ended 28 February 2023

Each of the directors, whose names are stated below, hereby confirm that:

- (a) the annual financial statements set out on pages 61 to 184, fairly present in all material respects the financial position, financial performance and cash flows of Datatec Group in terms of IFRS;
- (b) to the best of our knowledge and belief, no facts have been omitted or untrue statements made that would make the annual financial statements false or misleading;
- (c) internal financial controls have been put in place to ensure that material information relating to the Datatec Group and its consolidated subsidiaries have been provided to effectively prepare the financial statements of the Datatec Group;
- (d) the internal financial controls are adequate and effective and can be relied upon in compiling the annual financial statements, having fulfilled our role and function as executive directors with primary responsibility for implementation and execution of controls;
- (e) where we are not satisfied, we have disclosed to the audit committee and the auditors any deficiencies in design and operational effectiveness of the internal financial controls, and taken steps to remedy the deficiencies; and
- (f) we are not aware of any fraud involving directors.

JP Montanana
Chief Executive Officer

Authorised director

IP Dittrich
Chief Financial Officer

Authorised director

Certificate by Company Secretary

for the year ended 28 February 2023

In terms of section 88(2)(e) of the South African Companies Act 71 of 2008, I certify that for the year ended 28 February 2023 Datatec Limited has filed with the Commissioner of the CIPC all such returns as are required of a public company in terms of the Act. Further, that such returns are true, correct and up to date.

SP Morris
For and on behalf of Datatec Management Services (Pty) Ltd

Company Secretary

Independent auditor's report

To the Shareholders of Datatec Limited

Report on the audit of the consolidated financial statements

Our opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of Datatec Limited (the Company) and its subsidiaries (together the Group) as at 28 February 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa.

What we have audited

Datatec Limited's consolidated financial statements set out on pages 73 to 184 comprise:

- the consolidated statement of financial position as at 28 February 2023;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended;
- a summary of significant accounting policies; and
- the notes to the financial statements.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the consolidated financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the Independent Regulatory Board for Auditors' *Code of Professional Conduct for Registered Auditors* (IRBA Code) and other independence requirements applicable to performing audits of financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)*.

Our audit approach

Overview

Overall Group materiality

- Overall group materiality: US\$26 million, which represents 0.5% of consolidated revenue.

Group audit scope

- We performed full scope audits on the three components that were financially significant, in addition to the full scope audit of the Company. Analytical review procedures were performed over all remaining components not in scope based on the associated risk of the component.

Key audit matters

- Valuation of Westcon International Limited ("Westcon International");
- Recoverability of deferred tax assets recognised on accumulated tax losses; and
- Impairment assessment of goodwill arising from business combinations.

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the consolidated financial statements. In particular, we considered where the directors made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

Independent auditor's report continued

Materiality

The scope of our audit was influenced by our application of materiality. An audit is designed to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement. Misstatements may arise due to fraud or error. They are considered material if individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the consolidated financial statements.

Based on our professional judgement, we determined certain quantitative thresholds for materiality, including the overall Group materiality for the consolidated financial statements as a whole as set out in the table below. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures and to evaluate the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Overall group materiality	US\$26 million.
How we determined it	0.5% of consolidated revenue.
Rationale for the materiality benchmark applied	We selected consolidated revenue as the benchmark for materiality because, in our view, it is the benchmark against which the performance of the Group is most commonly measured by users, as it is an indicator of market share. Consolidated revenue is one of the key drivers of the Group's business and is one of the key performance indicators for stakeholders. The Group's focus is on growth which is attributable to an increase in revenue. Furthermore, consolidated profit before tax is typically volatile, whereas consolidated revenue has remained stable and deemed a more appropriate benchmark. We chose 0.5% as the benchmark threshold, which is lower than the quantitative materiality threshold that we would typically apply when using consolidated revenue to compute materiality. We took into account various factors, including the intended users and distribution of the consolidated financial statements, as well as the financial covenants held over the Group's debt.

How we tailored our group audit scope

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the consolidated financial statements as a whole, taking into account the structure of the Group, the accounting processes and controls, and the industry in which the Group operates.

Our group audit scope included consideration of significant components as well as taking into consideration the sufficiency of work performed over material line items in the consolidated financial statements.

Our scoping assessment included consideration of the financial significance of the Group's components as well as the sufficiency of work planned to be performed over material consolidated financial statement line items. We identified three financially significant components in the Group, namely Westcon International Limited and Logicalis International Limited, both incorporated in the United Kingdom, as well as Logicalis Latin America Holdings S.A., incorporated in Brazil. These components were considered to be financially significant based on their contribution to consolidated revenue, consolidated profit before tax, consolidated EBITDA, consolidated assets and consolidated liabilities. We performed a full scope audit of these three components and the Company. Analytical review procedures were performed over all remaining components not in scope, to assess whether any risks exist that would require additional audit procedures.

In establishing the overall approach to the group audit, we determined the extent of the work that needed to be performed by us, as the group engagement team, and by component auditors, in order to issue our audit opinion on the consolidated financial statements of the Group.

Where the work was performed by component auditors, we determined the level of involvement necessary in the audit work at those components (including their scoping considerations regarding their respective components) to be able to conclude whether sufficient appropriate audit evidence has been obtained as a basis for our opinion on the consolidated financial statements as a whole. Detailed group audit instructions were communicated to all components in scope.

We conducted meetings with all of our significant component teams and management. During these meetings we discussed the strategy and financial performance of the local businesses, the audit plan and execution, significant risks and other relevant audit topics and the clearance of those matters at the conclusion of the component audits.

We assessed the competence, knowledge and experience of the component auditors and evaluated the procedures performed on the significant audit areas to assess the adequacy thereof in pursuit of our audit opinion on the consolidated financial statements.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
Valuation of Westcon International Refer to the following notes to the Group consolidated annual financial statements for detail: - Group accounting policies: - Critical accounting judgements and key sources of estimation: - Key sources of estimation uncertainty; - Note 2: Share-based payments - Subsidiary schemes (cash-settled) - Westcon International - Westcon International Equity Appreciation Plan (EAP); and - Westcon International SAR Scheme; - Note 23: Trade and other payables; - Note 30: Related party transactions - Directors' emoluments - Westcon International Equity Appreciation Plan The Group through its subsidiary, Westcon International, implemented an Equity Appreciation Plan ("EAP") in 2019, to incentivise value generation for senior management. In addition, a Share Appreciation Rights (SAR) Scheme was implemented to incentivise the cadre of senior management who were not awarded units under the EAP. The share based payment liability recognised as at 28 February 2023 in relation to the EAP and SAR Scheme amounted to US\$61 million. EAP In terms of the EAP, ten percent of the value of Westcon International that is above US\$125 million will be paid to the EAP pool on the sale of Westcon Limited. If Westcon Limited is not sold within five years commencing 1 March 2018, the business is to be valued by an independent valuer for purposes of determining the amounts due to participants of the EAP. A valuation of the business as at 28 February 2023 was undertaken by an independent third party. A discounted cash flow approach was applied by the valuer and a sum-of-the-parts methodology was applied where the equity value of each of the operating regions within Westcon International was calculated and combined to arrive at the value of the business. The key assumptions applied in the valuation included consolidated weighted: - revenue compound annual growth rate for the forecast period; - discount rate; - terminal growth rate; - risk free rate; - inflation rate; - country risk premium; and - tax rate. SAR Scheme As the base value for the SARS is the same as that of the EAP (ie. US\$125 million), an adjustment for the recapitalisation of Westcon International is necessary. We considered the valuation of Westcon International to be a matter of most significance to the current year audit due to: - the significant judgements and assumptions applied in determining the value of Westcon International; and - the magnitude of the share based payment liability for the year and liability recognised in the consolidated financial statements as at 28 February 2023.	Our audit addressed this key audit matter as follows: - We obtained the valuation of the Westcon International business as at 28 February 2023 from management and compared the forecasted financial information used in the valuation to forecasts approved by the Westcon board and noted no differences in this regard; - We assessed the reliability of the Group's budgets included in its business plans (which form the basis of the future earnings in the cash flow forecasts), by comparing prior period budgets to actual results. We evaluated the differences noted against underlying documentation and explanations obtained from management. We noted no matters requiring further consideration in this regard; - We assessed the objectivity, competence and capabilities of management's independent valuer, noting no matters requiring further consideration; - With the assistance of our valuations expertise: - We assessed the appropriateness of the valuation methodology applied by the valuer against generally accepted valuation models. Based on our procedures performed, we found this to be consistent; and - We independently recalculated a range of discount rates taking into account independently obtained data such as the long-term risk free rates, equity betas, alpha-, equity market risk-, sovereign risk- and size premiums of the regions in which Westcon International operates. No significant variances were noted between our independently calculated discount rates and those determined by management. - We compared the resultant valuation multiples implied by the valuation with those of comparable industry peers and found these to be in line with industry multiples; - We independently calculated terminal growth rates consistent with publicly available information relating to terminal average growth rates for each of the regions in which the Westcon business operates and compared those to the growth rates as determined by management. We did not note any material exceptions in this regard; - We performed a stress test on the valuation model by applying our independently calculated discount rates to the forecasts of the respective regions and noted that this did not materially alter the outcome of the valuation; - We assessed the reasonableness of the IFRS 2 expense recognised based on the underlying valuation of the business using a Black-Scholes methodology and noted no material variances when compared to the expense calculated by management; and - We inspected the Datatec Limited Remuneration Committee's approval of the amounts to be paid out in respect of the Westcon EAP and SAR Scheme to establish that the amounts to be paid out are final and approved by the relevant governance structures.

Independent auditor's report continued

Key audit matter	How our audit addressed the key audit matter
Recoverability of deferred tax assets recognised on assessed losses Refer to the following notes to the Group consolidated annual financial statements for detail: • Group accounting policies: – Taxation; – Critical accounting judgements and key sources of estimation – Key sources of estimation uncertainty; and • Note 13: Deferred tax assets/(liabilities). A deferred tax asset is recognised on assessed losses to the extent that it is probable that taxable profit will be available against which a deductible temporary difference or unused tax losses or tax credits can be utilised. The carrying value of the deferred tax assets recognised on assessed losses as at 28 February 2023 is US\$38.5 million. The Group has not recognised a potential deferred tax asset of US\$20.8 million on assessed tax losses. Management performed an assessment to determine whether sufficient future taxable profits will be available to utilise the unused tax losses. In assessing whether sufficient future taxable profits will be available, management applies judgement in estimating future taxable profits of the individual subsidiaries in the Group. These judgements are based on the business plans for each individual subsidiary in the Group and the future profits included in the approved budgets of the relevant entities. We considered the recoverability of the deferred tax assets recognised on assessed losses to be a matter of most significance to our current year audit due to: • the significant judgement applied in determining the future taxable profits; and • the magnitude of the deferred tax assets recognised on assessed losses in relation to the consolidated financial statements.	Our audit addressed this key audit matter as follows: • We obtained management's assessment with regards to the forecasted probability of future taxable profits, and the resultant realisation of deferred tax assets and tested this for mathematical accuracy, noting no material exceptions; • We obtained an understanding of the assumptions applied by management in their assessment, through discussions with management. We assessed these for reasonability based on our understanding of the business and found these to be appropriate; • We assessed management's forecasting ability by comparing their previous budgets to the actual results and evaluated the differences noted against underlying documentation and explanations obtained from management. We noted no matters requiring further consideration in this regard; • We compared the budgets included in management's forecast to the budgets approved by the Board and noted no differences; • We critically evaluated the acceptability of management's assessment by considering the completeness thereof with reference to known significant items of income and expenses based on our understanding of the business's performance to date and future business plans. Based on this assessment we accepted management's assessment as reasonable; • With the assistance of our tax expertise we assessed the appropriateness of principles and interpretations of enacted tax legislation and noted no material exceptions in this regard; and • We performed a sensitivity analysis by flexing key assumptions to assess the impact these will have on the estimated future taxable profits. We did not note any aspect which required further consideration.

Key audit matter

Impairment assessment of goodwill arising from business combinations

Refer to the following notes to the Group consolidated annual financial statements for detail:

- Group accounting policies
- Goodwill;
- Critical accounting judgements and key sources of estimation – Key sources of estimation uncertainty; and
- Note 7: Goodwill.

As at 28 February 2023, the Group recognised goodwill with a carrying amount of US\$245 million.

In accordance with the relevant accounting standards the Group is required to conduct an annual impairment test on goodwill, or more frequently if events or changes in circumstances indicate that impairment might be likely at the individual CGU level. For purposes of its impairment testing, the Group has allocated goodwill to each of its segmental cash-generating units (“CGUs”) that is expected to benefit from the synergies of the business combinations.

The Group performed its annual impairment tests and concluded that no impairments were required to be recognised in the current financial year.

The recoverable amounts of each respective segmental CGU is determined based on a fair value less cost to sell model, which is compared to values arising from a comparable company’s market approach and a market transactions method. External valuations are obtained for the Logicalis International and Logicalis Latin America CGUs which are compared to the corresponding net asset value, including goodwill.

Fair value less costs to sell is based on a discounted cash flow calculation. The key assumptions used in the calculation is disclosed in Note 7 to the consolidated financial statements.

We considered the impairment assessment of goodwill arising from business combinations to be a matter of most significance to the current year audit of the consolidated financial statements due to the following:

- the significant judgement and assumptions applied by management in determining the recoverable amounts of the segmental CGUs; and
- the magnitude of the goodwill balance in relation to the consolidated financial statements.

How our audit addressed the key audit matter

Our audit addressed this key audit matter as follows:

- We obtained management’s allocation assessment of goodwill to the segmental CGUs and evaluated the reasonableness of the allocation assessment in line with our understanding of how the Group is currently managed. Based on our procedures performed, we did not identify any matter in this regard requiring further consideration;
- We tested the mathematical accuracy of the valuation models used by management and no material differences were noted.
- We also assessed the reasonableness of the valuation methodology (discounted cash flows model) applied by management to be consistent with industry practice and in line with the requirements of IAS 36 Impairment of Assets;
- We assessed the reliability of the Group’s budgets included in the business plans (which form the basis of the future earnings in the cash flow forecasts), by comparing prior period budgets to actual results. Where variances were noted we applied historically achieved rates to our independent assessment of future forecasts;
- We further compared the budgets included in the business plans to the budgets approved by the Board and noted no differences;
- With the assistance of our valuations expertise, we performed the following:
 - Independently calculated a range of discount rates for each segmental CGU taking into account independently obtained data such as the cost of debt, risk free rates in the market, market risk premiums adjusted for specific risks relating to the relevant CGUs, debt/equity ratios, sovereign risk premiums as well as the beta of comparable companies;
 - Using our independently calculated discount rates for each CGU, we performed a stress test on the impairment calculations by applying our independently calculated discount rates to the CGUs to assess whether there is an impairment. No material exceptions were noted; and
 - Calculated the terminal value consistent with publicly available information relating to long-term average growth rates for each of the markets in which the respective CGUs operate. No material exceptions were noted.
- We applied the above independently sourced and calculated inputs to management’s forecasts (adjusted for actual achieved rates) and compared management’s recoverable amount of each CGU to the results of our calculations. No material differences were noted; and
- We further assessed the reasonableness of the discount rates, terminal growth rates and forecasted cash flows by independently performing a sensitivity analysis to determine the degree by which certain key assumptions (discount rate, long-term growth rate and budgeted gross margin) would need to change in order to result in an impairment or a material difference between the resultant recoverable amounts of the CGUs. Whilst our independently determined key assumptions were different from those applied by management in certain instances, the impact of these differences was found to have an immaterial impact on the recoverable amounts.

Independent auditor's report continued

Other information

The directors are responsible for the other information. The other information comprises the information included in the document titled "Datatec Audited Group Consolidated Annual Financial Statements 2023" and "Datatec Limited Audited Annual Financial Statements for the year ended 28 February 2023", which includes the Directors' Report, the Audit, Risk and Compliance Committee Report and the Certificate by Company Secretary as required by the Companies Act of South Africa, which we obtained prior to the date of this auditor's report, and the other sections of the document titled "Datatec Integrated Report 2023" and "Datatec Annual Report 2023", which is expected to be made available to us after that date. The other information does not include the consolidated or the separate financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the consolidated financial statements

The directors are responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other legal and regulatory requirements

In terms of the IRBA Rule published in Government Gazette Number 39475 dated 4 December 2015, we report that PricewaterhouseCoopers Inc. has been the auditor of Datatec Limited for 3 years.

PricewaterhouseCoopers Inc.

Director: BW Niebuhr

Registered Auditor

Johannesburg, South Africa

23 May 2023

Audit, Risk and Compliance Committee report

for the year ended 28 February 2023

The information below constitutes the report of the Audit, Risk and Compliance Committee ("ARCC" or "the committee").

The ARCC comprises three independent non-executive directors: Johnson Njeke (Chair), Deepa Sita and Rick Medlock.

The following officers are invited to attend all meetings of the ARCC:

- Chair of the Board, Maya Makanjee
- Chief Executive Officer, Jens Montanana
- Chief Financial Officer, Ivan Dittrich
- Chief Risk Officer, Simon Morris
- Chief Audit Executive, Marcos Bedendo (internal audit)

The external and internal auditors attend the ARCC and have unrestricted access to the ARCC and also meet with the committee members, without management present, at least once a year.

The committee meets at least four times a year. In the year under review and subsequently up to the date of this report, the committee has met six times, with all members in attendance. The Chair of the committee reports on the committee's activities at each Board meeting.

The committee operates within defined terms of reference as set out in its charter and the authority granted to it by the Board. The charter is reviewed annually to confirm compliance with the King IV* Code and the Companies Act and to ensure the incorporation of best practice developments.

The charter is available at www.datatec.com.

The committee is satisfied that it has met and complied with its legal and regulatory responsibilities for the year under review and to the date of this report with respect to its terms of reference as set out in its charter.

Each of Datatec's main operating divisions has an audit, risk and compliance committee, chaired by the Group Chief Financial Officer, Ivan Dittrich in the case of Westcon International and Logicalis International and by Luis Rapparini in the case of Logicalis LATAM. Reports from these committees are submitted to the Datatec ARCC, which retains all the functions of an audit committee in respect of Datatec's subsidiaries.

In terms of the Companies Act and the JSE Listings Requirements, the committee has considered and satisfied itself of the appropriateness of the expertise and experience of Mr Dittrich. Further, the committee considers the appropriateness of the expertise and adequacy of resources of the Group's finance function and the experience of senior management in the finance function and the risk management organisation. For the year under review, the committee is satisfied that the Group has established appropriate financial reporting procedures and controls, and that those procedures and controls are operating effectively.

The committee is responsible for approving the external auditor's fees. It oversees the Company's policy and controls that address the provision of non-audit services by the external auditor, and the nature and extent of such services rendered during the financial year. This contributes to maintaining the external auditor's independence.

The committee reviews the activities and effectiveness of the Group's internal audit function and annually reviews the internal audit charter and recommends it to the Board. The ARCC receives reports from the Chief Audit Executive at each of its meetings and reviews the progress of the internal audit programme, results and findings from internal audit work, and actions taken by management to resolve issues in a timely manner.

The ARCC assists the Board in reviewing the risk management process and significant risks facing the Group. The committee reviews the Group's risk strategy with the executive directors and senior management and oversees the Group's use of recognised risk management and internal control models and frameworks to maintain a sound system of risk management and internal control. Combined assurance processes are in place throughout the Group to provide the committee with internal management assurance and external assurance from a range of assurance providers, including the internal auditor. The ARCC is satisfied that the appropriate processes are in place, including effective combined assurance, to enable the Board to make an objective assessment of the Group's system of internal controls and risk management.

The committee is closely involved in the JSE's proactive monitoring of annual financial statements. It reviews the annual report issued by the JSE on this subject and related information and ensures that all the comments by the JSE are taken into consideration in its review of the Group's financial information.

The committee is tasked with reviewing the interim and consolidated annual financial statements and Integrated and Annual Reports. The ARCC recommended the annual financial statements for the year ended 28 February 2023 for approval to the Board. The Board has subsequently approved the consolidated annual financial statements, which will be published on the Company's website and presented at the forthcoming AGM.

Going concern

The Board has satisfied itself that the Group has adequate resources to continue in operation for the foreseeable future.

* Copyright and trademarks are owned by the Institute of Directors South Africa NPC and all of its rights are reserved.

Key sources of estimation uncertainty

The results and statement of financial position presented in the consolidated annual financial statements point to many areas where key assumptions concerning the future, and other key areas of estimation included in the Group's consolidated annual financial statements, pose a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year.

These are outlined in the notes to the consolidated annual financial statements. The committee has considered in particular the qualitative and quantitative aspects of information presented in the statement of financial position and other notes that contain sources of estimation and uncertainty in the following areas:

- estimates made in determining the recoverable amount of goodwill included in the statement of financial position. This is considered to be a key audit matter. Refer to Note 7 for further discussion of the methodology and rationale for selecting these inputs to management's estimations;
- estimates made in determining the probability of future taxable income justifying the recognition of deferred tax assets;
- estimates in determining the expense related to cash-and-equity-settled share-based payments from the various share schemes across the Group;
- estimates made in determining the amount or timing relating to restructuring, legal claims, taxes, pension and dilapidation obligations;
- estimates made when measuring expected credit losses;
- estimates and judgements in determining uncertain tax provisions regarding the amounts that may eventually become payable. Refer to Note 29; and
- estimates made in determining the level of provision required for obsolete inventory.

In making its assessment in each of the above areas, the committee examined the external auditor's report and questioned senior management in arriving at their conclusions.

Based on their review of the underlying issues and assumptions, the committee considers the accounting treatment for the above to be appropriate.

Critical judgements in applying accounting policies

Agent vs principal

In the process of applying the Group's accounting policies, the directors made a judgement in determining whether the Group is acting as a principal or as an agent. When deciding the most appropriate basis for presenting revenue or related costs, both legal form and substance of the agreement between the Group and the counterparty are reviewed to determine each party's respective role in the transaction.

Judgement in determining the starting point of the tax rate reconciliation

The tax rate reconciliation uses the 28% South African statutory rate as a starting point. This is deemed to be a key management judgement, as described in more detail in Note 5.

Judgement in determining the Westcon EAP valuation/IFRS 2 charge

A valuation of Westcon International Limited has been performed for the purposes of deriving the expected expense for the Equity Appreciation Plan ("EAP") and Share Appreciation Rights Scheme ("SARS").

Westcon International, in which the Datatec Group holds an effective interest of 92.1%, implemented the EAP and SARS to incentivise value generation for the Westcon business.

To determine the value of the liability and associated charge to be recognised under the requirements of International Financial Reporting Standard (IFRS 2 Share-based Payment), the Group obtained an external valuation which is based on an income approach (discounted cash flow).

Management used assumptions relating to future earnings, discount rates, terminal growth rates, which have been modelled using forecast periods covering five years.

Subsequent to 28 February 2023, the Remuneration Committee approved the Westcon International Equity Appreciation Plan and Share Appreciation Rights Scheme settlement as accounted for and disclosed in the FY23 consolidated annual financial statements. These amounts will be settled accordingly.

Directors' report

for the year ended 28 February 2023

Profile and Group structure

Datatec is an international ICT solutions and services group operating in more than 50 countries across North America, Latin America, Europe, Africa, the Middle East and Asia-Pacific. The Group's service offering spans the technology distribution and integration sectors of the ICT market.

Datatec operates three divisions:

- Westcon International: Technology distribution of security and networking products
- Logicalis International: ICT infrastructure solutions and services
- Logicalis Latin America: ICT infrastructure solutions and services

Datatec Limited (the "Company"), a South African company with registration number 1994/005004/06, is the parent company of the Group. The Company's shares are listed on the JSE Limited with share code DTC and ISIN ZAE000017745.

Stated share capital

Authorised stated share capital

The authorised stated share capital of the Company as at 28 February 2023 and 28 February 2022 is R4 000 000, made up of 400 000 000 ordinary shares.

Issued stated capital

As at 28 February 2023, the issued share capital, excluding treasury shares and shares held throughout the period for equity-settled share schemes, amounted to R2 196 533.16, divided into 219 653 316 ordinary shares (28 February 2022: R2 169 578.74, divided into 216 957 874 ordinary shares). Of the issued share capital, 3 000 000 shares are held by the Company in treasury (FY22: 549 867).

Dividend policy

The Group's policy is to maintain a three times cover relative to underlying* earnings when declaring ordinary dividends.

Dividends

On 24 May 2022, the Board declared a final dividend for FY22 of 111 ZAR cents per share equivalent to 7 US cents per share or in total US\$15 million as a cash dividend with a scrip distribution alternative.

Effective 27 September 2022, Datatec sold its 71.2% shareholding in Analysys Mason, which had been held by its 100% subsidiary Datatec PLC and received its portion of the initial consideration on completion, comprising approximately GBP128 million in cash and GBP7.1 million in deferred loan notes, payable three years after completion. On 11 October 2022, the Board declared a GBP135.1 million (US\$158.5 million) dividend to shareholders by way of a special cash dividend with scrip alternative of 1 250 ZAR cents (71.5 US cents) per Datatec ordinary share. All transaction-related costs were absorbed by the Company in order to maximise this distribution to shareholders.

On 23 May 2023, the Board declared a final dividend for FY23 of 195 ZAR cents per share equivalent to 10 US cents per share or in total US\$22.5 million with the customary form of a cash dividend with a scrip distribution alternative.

Going concern

The Board has satisfied itself that the Group has adequate resources to continue in operation for the foreseeable future.

The Group currently has no need to undertake a capital restructuring and key executive management is in place. The Board is not aware of any material non-compliance with statutory or regulatory requirements and there are no pending legal proceedings other than in the normal course of business or as disclosed in the consolidated annual financial statements.

Solvency

The Board has determined that the Group is solvent with net assets at 28 February 2023 of US\$472.0 million (FY22: US\$563.4 million) and tangible net assets of US\$178.8 million (FY22: US\$243.3 million). The Group is expected to remain solvent over the next 12 months.

* Underlying earnings exclude the following: impairments of goodwill and intangible assets, profit or loss on sale of investments and assets, amortisation of acquired intangible assets, unrealised foreign exchange movements, acquisition-related adjustments, fair value movements on acquisition-related financial instruments, restructuring costs relating to fundamental reorganisations, one-off tax items impacting EBITDA, costs relating to acquisitions, integration and corporate actions, and the taxation effect on all of the aforementioned.

Liquidity

In December 2022, Logicalis International renewed a four-year US\$135 million banking facility for its subsidiaries, this includes a US\$10.0 million acquisitions facility. This senior facility covers Logicalis International's operations throughout the world. It is used to fund working capital requirements and also includes an acquisition credit line. In addition, Logicalis International utilises other third-party finance linked to local overdrafts, lease financing and vendor partner loans as appropriate with typical borrowing periods of six months to three years.

The Latin America division is supported separately via a number of uncommitted overdraft facilities and short-term lending arrangements and is predominantly sourced via Tier 1 banks in Brazil as it is the largest territory in the region.

Westcon International has an invoice assignment facility of EUR390.6 million for its European subsidiaries, as well as an extended payables facility of US\$105.0 million. Westcon International has a securitisation facility of US\$120.0 million for its Asia-Pacific facilities. In addition, Westcon International utilises accounts receivable facilities in the Middle East (US\$15.0 million) and Indonesia (US\$11.0 million) as well as overdraft facilities in Europe (EUR4.0 million) and Africa (US\$1.0 million), a securitisation facility in South Africa (ZAR250.0 million) and a line of credit in Singapore (US\$1.2 million) to finance the business.

The Group performed covenant projections to confirm that banking covenants are unlikely to be breached for the next 12 months.

The Group ended FY23 with net debt of US\$106.6 million compared to FY22 (US\$130.0 million), refer Note 31.2.

Trade receivables are of a sound quality and adequate expected credit losses have been recorded.

The Group's forecasts and projections of its current and expected financial performance show that the Group is expected to operate within the levels of its banking facilities for at least 12 months from the authorisation date of these consolidated annual financial statements.

Conclusion

The Group's projections show that the Group has sufficient capital and liquidity to continue to meet its short-term obligations, and as a result, it is appropriate to prepare these annual financial statements on a going concern basis.

Investments and subsidiaries

Financial information relating to the Group's investments are disclosed in Note 12 and interests in subsidiaries is contained in Note 44 to the consolidated annual financial statements.

Acquisitions

The Group made the following acquisitions during the financial year ended 28 February 2023:

Logicalis International

Effective 1 March 2022, Logicalis International Limited a wholly owned subsidiary of Logicalis Group Limited increased its shareholding in Logicalis Portugal S.A. by 30%, resulting in Logicalis Portugal S.A. being a wholly owned subsidiary. The acquisition was for a deferred consideration payment of US\$4.4 million based on the EBITDA for the two financial years ended 28 February 2021 and 28 February 2022 respectively. The purchase price was paid on 1 September 2022.

On 4 August 2022, Logicalis UK Limited acquired 100% of the shareholding of Q Associates Ltd for a consideration of US\$6.7 million, a leading provider of IT consultancy and advisory services around data management, data protection, compliance and information security.

On 27 October 2022, the Datatec Group increased its stake in Cirrus Participações S.A. ("Kumulus") from 32.56% effective shareholding to 48.87% for BRL17 million (approximately US\$3.4 million). One of the minority shareholders sold his 2% shareholding in Kumulus to the Datatec Group in December 2022. The Datatec Group's effective shareholding after these transactions is 51.31%. The Group does not have control over Cirrus Participações S.A. and its subsidiary entities under the IFRS 10 model because it does not have the ability to significantly affect the activities of the other entity nor does it have the right to receive variable returns.

Analysys Mason (subsequently disposed – see below)

On 30 April 2022, Access Markets International ("AMI") Partners Inc., a 100% owned subsidiary of Analysys Mason Limited, acquired 100% of the membership interests in Northern Sky Research, LLC ("NSR") for a consideration of US\$10.9 million. NSR is based in the US and specialises in research and consulting services to the space and satellite sector.

Directors' report continued

for the year ended 28 February 2023

Material disposal

Effective 27 September 2022, Datatec sold its 71.2% shareholding in Analysys Mason which had been held by its 100%-owned subsidiary Datatec PLC. The disposal has been accounted for as a discontinued operation as required per IFRS 5 Non-current assets held for sale and discontinued operations. Datatec PLC received its portion of the consideration on completion, comprising approximately GBP128.0 million (US\$137.1 million equivalent) in cash. A further amount of GBP7.1 million comprising deferred loan notes will be payable three years after the completion of the transaction. A gain on disposal of Analysys Mason of US\$109.9 million is accounted for as part of the profit for the year from discontinued operations.

Share-based payments and long-term incentive schemes

Details of the Group's share-based payment schemes and long-term incentive schemes are set out in Note 2 of the consolidated annual financial statements.

Events occurring subsequent to the year-end

Increased shareholding in subsidiaries

Effective 3 March 2023, Logicalis Spain, S.L., a wholly owned subsidiary of Logicalis International Limited, increased its shareholding in Audea Seguridad de la Informacion, S.L. by 2.3% to 72.3%. Effective 21 April 2023, Logicalis Spain, S.L. increased its shareholding in Audea Seguridad de la Informacion, S.L. by 13.85% to 86.15%.

Management incentive plan – Logicalis International

Logicalis International implemented the Logicalis International Long Term Incentive Plan ("LILTIP") in March 2023 following a corporate restructuring. A fixed return instrument was issued to Datatec PLC in addition to its ordinary equity. The Logicalis International Executive Leadership team, being 18 individuals, invested 5.4% of the ordinary equity in the new structure with the same rights as Datatec's ordinary shares in Logicalis International. A further 0.9% of the ordinary equity is available for purchase by management to allow for changes to the management team up to a total limit of 6.3%.

Dividend declared

On 23 May 2023, the Board declared a final dividend for FY23 of 195 ZAR cents per share equivalent to 10 US cents per share totalling US\$22.5 million with the customary form of a cash dividend with a scrip distribution alternative.

There were no other events that occurred subsequent to the reporting date that require disclosure or adjustment to these consolidated annual financial statements.

Directors

Directors' interests in the shares of the Company, their remuneration and their interests in share-based remuneration schemes are provided in Note 30 to these consolidated annual financial statements.

All directors are subject to election by shareholders at the first AGM after their appointment. Subsequently, the terms of the Company's Memorandum of Incorporation require one-third of all directors to retire annually (ensuring each director retires at least once every three years) when they may offer themselves for re-election by shareholders.

Annual general meeting

The AGM of shareholders of Datatec will be held as a virtual meeting at 14:00 South African time on Thursday, 27 July 2023.

Group accounting policies

for the year ended 28 February 2023

Basis of accounting and reporting

The consolidated annual financial statements as set out on pages 70 to 184 have been prepared on the historical cost basis except for those assets and liabilities referred to that are measured at fair value. Significant details of the Group's accounting policies are set out below and are consistent with those applied in the previous year, with the exception of changes due to implementation of the new standard, as explained in the adoption of the new accounting standard below.

Accounting policies for which no choice is permitted in terms of International Financial Reporting Standards ("IFRS") have been included only if management considers that the disclosure will assist users in understanding the financial statements as a whole, after considering the materiality of the item being discussed. Accounting policies which are not applicable from time to time have been removed, but will be included if the type of transaction occurs in future or becomes material.

The consolidated annual financial statements comply with the IFRS of the International Accounting Standards Board, Interpretations issued by the IFRS Interpretations Committee, the JSE Listings Requirements, the Companies Act as well as the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee, and Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council.

Adoption of amendments to existing standards and interpretations

The Group adopted the following amendments to existing standards and interpretations:

Applicable standard or note	Amendment	Amendment application	Effective reporting period
IAS 16 <i>Property, Plant and Equipment</i>	Proceeds before Intended Use	The amendments prohibit deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the cost of producing those items, in profit or loss.	1 January 2022
IFRS 9 <i>Financial Instruments</i>	Annual Improvements to IFRS Standards 2018–2020	The amendment clarifies which fees an entity includes when it applies the '10 per cent' test in paragraph B3.3.6 of IFRS 9 in assessing whether to derecognise a financial liability.	1 January 2022
IFRS 16 <i>Leases</i>		The amendment to Illustrative Example 13 accompanying IFRS 16 removes from the example the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives are illustrated in that example.	
IAS 37 <i>Provisions</i>	Onerous Contracts – Cost of Fulfilling a Contract	The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract or an allocation of other costs that relate directly to fulfilling contracts.	1 January 2022
IFRS 16 <i>Leases</i>	Covid-19-Related Rent Concessions beyond 30 June 2021	The amendment extends, by one year, the May 2020 amendment that provides lessees with an exemption from assessing whether a Covid-19-related rent concession is a lease modification.	1 April 2021

The application of the amendments to the existing standards and the interpretation had no material impact on the disclosures or amounts recognised in the Group's consolidated annual financial statements.

Group accounting policies continued

for the year ended 28 February 2023

New or revised accounting standards and amendments to existing standards not yet effective

At the date of authorisation of these consolidated annual financial statements, the following new or revised accounting standards and amendments to existing standards applicable to the Group were in issue but not yet effective:

Applicable standard or note	Amendment	Amendment application	Effective reporting period
IAS 1 <i>Presentation of Financial Statement</i>	Classification of Liabilities as Current or Non-current	The amendment defers the effective date of the January 2020 amendments by one year, so that entities would be required to apply the amendment for annual periods beginning on or after 1 January 2023.	1 January 2024
IAS 1 and IFRS <i>Practice Statement 2</i>	Disclosure of Accounting Policies	The amendments require that an entity discloses its material accounting policies, instead of its significant accounting policies. Further amendments explain how an entity can identify a material accounting policy.	1 January 2023
IAS 8 <i>Accounting Policies, Changes in Accounting Estimates and Error</i>	Definition of Accounting Estimates	The amendments replace the definition of a change in accounting estimates with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The amendments clarify that a change in accounting estimate that results from new information or new developments is not the correction of an error.	1 January 2023
IAS 12 <i>Income Taxes</i>	Deferred Tax related to Assets and Liabilities arising from a Single Transaction	The amendments clarify that the initial recognition exemption does not apply to transactions in which equal amounts of deductible and taxable temporary differences arise on initial recognition.	1 January 2023
IFRS 10 <i>Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures</i>	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	The committee recommended that IAS 28 (2011) be amended so that: (a) the current requirements regarding the partial gain or loss recognition for transactions between an investor and its associate or joint venture only apply to the gain or loss resulting from the sale or contribution of assets that do not constitute a business as defined in IFRS 3 Business Combinations (b) the gain or loss resulting from the sale or contribution to an associate or a joint venture of assets that constitute a business as defined in IFRS 3 is recognised in full. It was also recommended to amend IFRS 10 so that the gain or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 to an associate or joint venture is recognised only to the extent of unrelated investors’ interests in the associate or joint venture.	The effective date has been postponed indefinitely.

The Group did not early adopt any new, revised or amended accounting standards or interpretations.

The accounting standards, amendments to issued accounting standards and interpretations, which are relevant to the Group but not yet effective at 28 February 2023, are being evaluated for the impact of these pronouncements. Other than the IAS 12 amendment, the accounting standards, amendments to issued standards and interpretations are not expected to have a material impact.

Critical accounting judgements and key sources of estimation

In the application of the Group’s accounting policies described below, the directors are required to make judgements, estimates and assumptions about the carrying value of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors which are considered to be relevant. Actual results may differ from these estimates.

The estimates and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Certain of the Group’s assets and liabilities are measured at fair value for financial reporting purposes.

In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent that it is available and also engages third parties to perform valuations on its material acquisitions. Specifically, market-observable data is used for derivatives (forward-currency contracts) in the form of the latest foreign currency exchange rates that are available.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities is disclosed in the relevant notes.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key areas of estimation included in the Group's consolidated annual financial statements, that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year:

- Estimates made in determining the recoverable amount of goodwill included in the statement of financial position (refer to Note 7). This requires an estimation of the recoverable amount of the cash-generating unit ("CGU") to which the goodwill is allocated. The Group's CGUs to which goodwill is allocated are consistent with the segments (refer to Note 37) to these consolidated financial statements. The resulting recoverable amount calculations are sensitive to changes in the timing or quantum of future cash flows, the weighted average cost of capital and assumptions in determining the revenue growth rates and terminal growth rates. Changes in one or more of these inputs to management's estimations could result in the recognition of an impairment charge. Refer to Note 7 for further discussion of the methodology and rationale for selecting these inputs to management's estimations.
- Estimates made in determining the underlying forecasts used to determine the valuation of Westcon International for use in the Equity Appreciation Plan ("EAP"). The Group is required to make significant estimates in assessing the valuation of Westcon International to be able to compute the IFRS 2 charge thereof. An income approach is used with discounted cash flows for a five-year period. This involves obtaining a discount rate externally and determining long-term growth rates of revenue and EBITDA in the various countries where Westcon operates. Refer to Note 2.
- Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences (as applicable) to the extent that it is probable that future taxable profits will be available against which the deferred tax assets can be used. The Group is required to make significant estimates in assessing whether future taxable profits will be available.
- Future taxable profits are determined based on business plans for individual subsidiaries in the Group and the probable reversal of taxable temporary differences in future. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Such reductions are reversed when the probability of future taxable profits improves. The Group's recognised and unrecognised deferred tax assets for the current year are disclosed in Note 13.
- The Group operates in numerous tax jurisdictions and the Group's interpretations and application of the various tax rules applied in direct and indirect tax filings may result in disputes between the Group and the relevant tax authorities. Uncertain tax positions are based on the most likely outcome of the tax liability based on information that is available. Due to the level of estimation and judgements required in determining tax provisions, amounts that may eventually become payable may differ from provisions recognised. Refer to Note 29.
- Estimates made in determining the level of provision required for obsolete inventory. Inventory obsolescence is determined by reference to the risk profile of a vendor which considers the age of the inventory, the ability to rotate stock, the turnover of the stock and any other extenuating circumstances that management is aware of (refer to Note 15).
- Estimates are made in determining the amount or timing relating to restructuring, legal claims, pension and dilapidation obligations. Refer to Note 26 for uncertainties disclosed for each of the categories listed.
- The Group recognises cash – and equity-settled share-based payment expenses from its various share incentive schemes and exercises judgements when calculating these expenses. Expenses are generally based on the fair values of awards granted to employees. Fair value is measured using appropriate valuation and option pricing models, where applicable. The values assigned to the key assumptions used in the valuation models for the Group's share incentive schemes are disclosed in Note 2. Estimates are utilised when measuring the expected credit losses ("ECLs") which are applied to determine the provision recorded against the gross value of trade receivables (refer to Note 16). The Group applies the simplified approach as permitted by IFRS 9 when providing for expected credit losses on trade receivables and contract assets. Factors which are considered for each of the operating segments are as follows:
 - **For Logicalis International and Logicalis Latin America**
 - A loss allowance is recognised for all trade receivables, and is monitored at the end of each reporting period. To measure the expected credit losses, the trade receivables have been grouped based on shared credit risk characteristics into common ageing buckets. The historic loss rates are calculated for each ageing category from current to two years. The calculated historic loss rates are adjusted for identified forward-looking factors per ageing bucket for each risk category.
 - Management may make further adjustments to the ECL to consider specific event risk where there is uncertainty in respect of the model's ability to capture conditions due to inherent limitations of modelling; for example, when a trade receivable has been placed under liquidation and proceedings are at a stage that a reliable estimate of non-recoverability can be made. These specifically identified debtors are removed from the ECL buckets when modelling the remainder of the trade receivables.

Group accounting policies continued

for the year ended 28 February 2023

– For Westcon International

- In measuring lifetime ECLs, past experience is considered to be the most significant predictor to determine historic write-off rates for trade receivables that reach different ageing categories that fall past due. A provision is then created based on this experience being the estimated likelihood of a debt being written off once it reaches the ageing bucket.
- For higher value receivables which are lower volume, the receivable is reviewed independently for recoverability. In making this assessment, management considers the age past due, the geography in which the customer resides, and the knowledge of the customer's situation based on the Group's discussions and dealings with particular customers. Further to the above assessments, the Group considers forward-looking information such as known changes in the macroeconomic environment of customers located in a certain geography, or the deterioration in the Group's relationship, or discussions with a particular customer.
- For lower-value receivables which are higher volume, Westcon International applies a percentage to the ageing buckets of these receivables. These percentages are derived by comparing the amounts ultimately written off in each ageing category to the total amount of customer receivables in each ageing category. Forward-looking information is assessed and included where material.

Critical judgements in applying accounting policies

Agent vs principal (net vs gross revenue)

When deciding on the most appropriate basis for presenting revenue or related costs, both the legal form and the substance of the agreement between the Group and the counterparty are reviewed to determine each party's respective role in the transaction. The Group evaluates the following control indicators, among others, when determining whether it is acting as a principal or agent in transactions with customers, and therefore whether the recording of revenue is on a gross or a net basis:

- the Group is primarily responsible for fulfilling the promise to provide the specified goods or service;
- the Group has inventory risk before the specified good or service has been transferred to a customer or after transfer of control to the customer;
- the Group has discretion in establishing the price for the specified good or service;
- the Group is involved in determining product or service specifications; and
- the Group has discretion in supplier selection.

Revenue from sales arrangements where the Group acts as agent is recognised on a net basis, and the commission or gross profit earned on these contracts is recognised as revenue.

In the process of applying the Group's accounting policies, the directors have made a judgement in determining that the Group is acting as an agent in the provision of both vendor resold maintenance sales and certain sales of software, as well as of cloud and software services.

For vendor resold maintenance sales, a customer purchases a maintenance or service package from the Group that is delivered over time directly by the vendor. These service contracts are sold alongside but separately from the associated products, and the Group serves as the agent for the contract on behalf of the vendor. The Group's responsibility is to arrange for the provision of the specified service by the vendor, and the Group does not control the specified service before it is transferred to the customer. The Group therefore has no obligation to the customer in terms of the service or maintenance once the sale has been made.

The Group sells cloud computing solutions, which include Infrastructure as a Service ("IaaS") and Software as a Service ("SaaS"). These solutions utilise third-party vendors to offer the Group's customers access to cloud technology and software in the cloud that provides flexible computing and storage resources, enhances office productivity, provides security or assists in collaboration.

While most of the Group's software licence sales are recognised on a gross basis, as the Group is acting as a principal in these transactions at the point the software licence is delivered to the customer, some software licences are sold with the ability to access that vendor's latest technology via product updates. The Group evaluates each of these arrangements to determine its performance obligation and appropriate recognition of revenue. The assessment of whether the Group acts as a principal or an agent is judgemental and requires a weighting of the individual factors in reaching a conclusion. The Group deems the defining characteristic of each arrangement to be whether its material performance obligation is to deliver the solution or to arrange access to the solution.

In those arrangements where the software service is delivered entirely by the vendor, or where the updates and cloud access are critical to the effectiveness of the solution and there is no material on-premise component to the solution, the Group will recognise revenue at the time of delivery on a net basis as the Group is acting as an agent in the transaction. In all other cases, the Group is deemed to be acting as principal and revenue is recognised on a gross basis.

IFRS 16 – Leases

The Group applies judgement in determining the lease term by considering all facts and circumstances that create an economic incentive to exercise an extension option, or not exercise a termination option and whether it is reasonably certain that options will be exercised by considering factors such as how far in the future an option occurs, the Group's business planning cycle and past history of terminating/not renewing leases. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not terminated).

Multi-year contract revenue recognition

The Group enters into multi-year contract arrangements, predominantly for the sale of software licences, software-as-a-service and maintenance products which allow for periodic billing to the customer over the term of the arrangement. The terms offered to customers on these deferred billing plans include back-to-back arrangements where the Group benefits from a similar billing profile from its vendors, as well as asynchronous arrangements. The contracts are non-cancellable by the Group or the customer other than in specific circumstances. The assessment of when revenue should be recognised in these arrangements requires considerable judgement of the individual factors.

Amounts receivable for multi-year contracts and the associated accrued costs of the contract from the vendor are recorded on the statement of financial position in line with IFRS 15. The current portion of amounts receivable is included in Note 16 and the non-current portion is included in Note 19.1; while the current portion of accrued costs is included in Note 23 and the non-current portion is included in other non-current liabilities. The amounts are recorded gross on the statement of financial position (discounted to present value where material), since the Group is contractually entitled to, and obligated for, the gross cash flows and no contractual right of set-off exists.

Judgements in determining if financial assets should be derecognised

The Group applies judgements in the determination of whether its financial assets should be derecognised. The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire or have been transferred and the Group has transferred substantially all the risks and rewards of ownership of the asset to another entity. Refer to the policy on Financial Instruments, c) Derecognition of financial assets for further information.

Judgement in determining the starting point of the tax rate reconciliation

The tax rate reconciliation uses the 28% South African statutory rate as a starting point. The Group operates in over 50 countries and the head office is based in South Africa. Datatec Limited is listed on the JSE and the majority of the Group's shareholders are based in South Africa. If a weighted average tax rate were to be used, the starting point would change every year, making comparability difficult. The South African statutory rate is therefore deemed to be the most appropriate starting point.

During the budget speech presented on 23 February 2022, the finance minister announced that the corporate tax rate will be reduced from 28% to 27%. Based on the assessment of the impact, the Group concluded the tax rate change to have an insignificant impact on the tax balances reported as at 28 February 2023.

Basis of consolidation

The Group reports in US Dollar as the US Dollar is the functional currency in which the major part of the Group's trading is conducted, and it is consistent with the economic substance of most of the Group's transaction flows worldwide. Reporting in US Dollar also simplifies financial analysis and is more meaningful to global investors and shareholders, and for international benchmarking.

The translation for the Group components where the functional currency is not US Dollar, including the holding company, is performed as follows:

- Assets and liabilities are translated at the closing rate ruling at the date of each statement of financial position.
- Income and expense items for all periods presented are translated at a weighted average rate that approximates the ruling exchange rates at the dates of the transactions.
Exchange differences arising from the translations in (a) and (b) are recognised in other comprehensive income and accumulated in the foreign currency translation reserve.
- The functional currency of the parent company is South African Rand. The share capital and share premium of the parent company are translated into US Dollar at the closing exchange rates.

The exchange differences arising on this translation (c) are recognised directly in equity and accumulated in non-distributable reserves.

The weighted average and closing exchange rates of the Group's material currencies are listed below:

	Average US\$ exchange rates FY23	Closing US\$ exchange rates FY23	Average US\$ exchange rates FY22	Closing US\$ exchange rates FY22
British Pound/US\$	1.21	1.21	1.37	1.33

The consolidated financial statements incorporate the financial statements of the Company and all enterprises controlled by the Company during the reporting period. The assessment of whether the Group has control over the investee is carried out at acquisition or inception.

Group accounting policies continued

for the year ended 28 February 2023

Control is achieved when the Group:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there may have been changes to one or more of the elements of control. Total comprehensive income of subsidiaries is attributable to the owners of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

Accounting policies of subsidiaries are consistent with the policies adopted by the Group. Subsidiaries may only have a different statutory reporting year-end if required by local regulations.

Business combinations

The acquisition of subsidiaries is accounted for using the acquisition method.

Acquisition method

The consideration for each acquisition is measured at the aggregate of the fair values at the date of exchange of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions of recognition under IFRS 3 are recognised at their fair values at the acquisition date. Costs associated with the acquisition are expensed, and may include such costs as advisory, legal, accounting, valuation and other professional costs associated with the transaction.

Goodwill arising on acquisition is recognised as an asset and initially measured at cost, being the excess of the cost of the business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised.

If, after reassessment, the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities exceeds the cost of the business combination, the excess is recognised immediately in the consolidated statement of comprehensive income.

Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost). Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

Non-controlling interests in the acquiree are initially measured at the non-controlling shareholders' proportion of the net identifiable assets acquired and liabilities and contingent liabilities assumed.

Non-controlling shareholders are treated as equity participants; therefore, all acquisitions of non-controlling interests or disposals by the Group of its interests in subsidiaries, where control is maintained subsequent to the disposal, are accounted for as equity transactions. Consequently, the difference between the fair value of the consideration transferred and the carrying amount of a non-controlling interest purchased or disposed of, is recorded in equity. Non-controlling interests in the net assets of consolidated subsidiaries are identified separately from the Group's equity.

Changes in the Group's ownership interests in subsidiaries that do not result in variations in the Group's control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the parent. Additionally, the proportionate share of the cumulative amount of the exchange differences recognised in other comprehensive income is transferred within equity between foreign currency translation reserve and non-controlling interest.

Foreign currency transactions

The Group operates in various countries with various functional currencies. Transactions in currencies other than the functional currency are initially recorded at the rates of exchange ruling on the dates of the transactions. At each reporting date, assets and liabilities denominated in currencies other than the functional currency are translated at the rates prevailing at the reporting date. Profits and losses arising on such translations are recognised in profit or loss, except for unrealised profits or losses on exchange arising from equity loans, which are accumulated in the foreign currency translation reserve until the loan is derecognised, at which time it is reclassified to profit or loss. The equity loans are included in the net investments of foreign operations. Foreign exchange differences on taxes are accounted for in other comprehensive income in the statement of comprehensive income and included in foreign gains/losses.

Goodwill and fair value adjustments to identifiable assets acquired and liabilities assumed through acquisition of a foreign operation are treated as assets and liabilities of the foreign operation, and translated at the rate of exchange prevailing at the end of each reporting period. Exchange differences arising are recognised in other comprehensive income.

Property, plant and equipment

Owned assets

All property, plant and equipment have been measured at cost less accumulated depreciation and any recognised impairment loss except land, which is shown at cost less any recognised impairment loss. Depreciation is calculated based on cost using the straight-line method over the estimated useful lives of the assets less their residual value. Estimation of the useful economic life includes an assessment of the expected rate of technological developments and the intensity at which assets are expected to be used based on historic usage of similar property, plant and equipment. Revision of the useful life is considered annually and if there are significant changes to the initial usage assumptions.

The basis of depreciation provided on property, plant and equipment is as follows:

	Useful lives (years)
Office furniture and equipment	2 – 6
Motor vehicles	2 – 4
Computer equipment	2 – 6
Buildings	20
Leasehold improvements	Shorter of useful life/period of the lease

Land and buildings comprise mainly warehouses and offices. Software purchased to support the Group's back office, accounting and customer relationship functions that are an integral part of the hardware, is included in computer equipment and is depreciated over its expected useful life.

All assets' residual values and useful lives are reviewed at each reporting date and any changes to these estimates are accounted for on a prospective basis.

Leasing

Leases as a lessee

Right-of-use assets

The Group leases various property, plant and equipment. Rental contracts are typically entered into for fixed periods but may have extension options. The Group assesses whether it is reasonably certain to exercise an extension option, or not to exercise a termination option and accordingly determine the lease term. Lease terms are negotiated on an individual basis and contain a range of terms and conditions.

The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease agreements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low-value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Items of low value have been determined based on the nature of the assets. Similar items are categorised and assessed to determine whether such items are considered to be low value. Low-value items include assets such as laptops and phones. The assessment of 'low value' for a leased asset is to be made on the basis of the value of an asset when it is (or was) new, regardless of whether the actual asset being leased is new. Additionally, the assessment is made regardless of whether the leased asset is material to the lessee.

The right-of-use asset is measured initially at cost, and subsequently at cost less any accumulated depreciation and impairment losses. Impairment losses are determined in accordance with IAS 36 (refer to impairment policy below). Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset, or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

Lease liabilities

The lease liability is measured initially at the present value of the future lease payments, discounted at the Group's incremental borrowing rate, unless the rate implicit in the lease is readily determinable. The lease liability is subsequently increased by lease finance charges and decreased by lease payments made. Lease finance charges are amortised over the duration of the underlying leases, using the effective interest method. Incremental borrowing rates have been determined based on country-specific factors, and vary across the Group.

Lease as a lessor

Amounts due from lessees under finance leases are recognised as receivables at the amount of the net investment in the lease, which is determined by discounting the gross investment in the lease at the interest rate implicit in the lease or the entities' cost of borrowing. The gross investment in the lease is the aggregate of the minimum lease payments accruing to the lessor. Finance lease income is allocated to accounting periods using the effective interest rate method.

Group accounting policies continued

for the year ended 28 February 2023

Capitalised development expenditure

An intangible asset arising from internal development (or from the development phase of an internal project) is recognised only if the Group can demonstrate all of the conditions as described in IAS 38.

Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Group intends and has sufficient resources to complete the development and to use the asset. The expenditure that is capitalised includes the cost of internal and external labour charges. Expenditure that enhances or extends the performance of intangible assets beyond their original specifications is recognised as a capital improvement and is capitalised to the original cost of the assets.

Capitalised development assets are amortised using the straight-line method over their useful lives, which generally do not exceed seven years. The estimation of useful lives of capitalised development assets is based on the term of the initial software licences or expectations about the future use after considering technological developments.

All other expenditure on research activities is recognised as an expense in the period in which it is incurred.

The Group assesses whether cloud computing arrangements including software licences should be capitalised on a case-by-case basis. In circumstances where the Group does not have control over the software and therefore does not have the power to obtain the future economic benefit from the resource, the costs related to the cloud computing arrangement are expensed rather than capitalised. However, if the Group has control over the software and can obtain future economic benefits from it, then it will be capitalised, in accordance with IAS 38.

Other intangible assets

Other intangible assets include those intangible assets acquired and identified as part of a business combination, and software acquired separately. An intangible asset acquired in a business combination is recognised separately when it meets the recognition criteria in terms of IAS 38. Intangible assets acquired as part of a business combination are capitalised at fair value on the acquisition date, whereas purchased intangible assets are capitalised at cost.

Other intangible assets are amortised using the straight-line method over their useful lives. Factors considered in estimating the useful life of an intangible asset include:

- legal, regulatory or contractual provisions that may limit or extend the useful life;
- the effects of obsolescence, demand, competition, and other economic factors;
- the expected useful lives of related assets;
- the expected use of the intangible asset by the Company;
- the level of maintenance expenditures expected;
- the expected retention period of customers; and
- the expected completion date of the backlog projects.

The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

	Useful lives (years)
Trademarks, marketing, customer and vendor relationships	Maximum of 10
Software	2 – 6

Intangible assets which do not meet the criteria listed above are recognised as expenses in the period in which they are incurred.

An intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These are included in profit or loss.

Goodwill

Goodwill represents the excess consideration transferred for an acquisition over the fair value of the Group's share of the net identifiable assets of the acquiree at the date of acquisition. For the purpose of impairment testing, goodwill is allocated to each of the Group's CGUs expected to benefit from the synergies of the business combination and is measured and managed at an operating segment level. Goodwill is carried at cost less accumulated impairment losses.

The Group annually reviews the carrying amounts of goodwill for impairments. The recoverable amounts of the goodwill are estimated in order to determine the extent, if any, of the impairment loss. Impairment tests are conducted annually or more frequently when an indication of impairment exists on goodwill attributed to the CGUs. An impairment loss is recognised in profit or loss if the carrying amount of an asset or CGU exceeds its recoverable amount. The recoverable amount of a CGU is the higher of its value-in-use and its fair value less costs of disposal. In assessing value-in-use and fair value less costs of disposal, the estimated future cash flows associated with budgeted and forecast results are discounted to their present value using an appropriate discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining the recoverable amount of goodwill, the Group obtains external valuations to support the impairment test of the CGU. Determining whether goodwill is impaired requires an estimate of the recoverable amount of the CGUs to which goodwill has been allocated. The recoverable amount calculation requires the entity to estimate the future cash flows expected to arise from the CGU and a suitable discount rate in order to calculate present value. The impairment review is therefore conducted by reference to a discounted cash flow model applied to the underlying CGU, including the carrying value of goodwill, to ensure that the business remains profitable and cash-generative, and that it supports the ongoing recognition of the goodwill.

If the recoverable amount of the CGU is less than the CGU's carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata, based on the carrying amount of each asset in the unit.

Investments in associates and joint ventures

The results and assets and liabilities of associates and joint ventures are incorporated in the Group's financial statements using the equity method of accounting, and are recognised initially at cost.

The Group's investment in associates and joint ventures includes goodwill identified on acquisition, net of any accumulated impairment losses. The consolidated financial statements include the Group's share of post-acquisition accumulated profits or losses of associated companies and joint ventures in the carrying amount of the investments.

Impairment

At each reporting date, or more frequently when an indication of impairment exists, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. The recoverable amount is the higher of fair value less costs to sell and value-in-use.

If the recoverable amount of an asset or CGU is estimated to be less than its carrying amount, its carrying amount is reduced to its recoverable amount. Impairment losses are recognised as an expense immediately in profit or loss.

Inventories

Inventories, comprising spares/maintenance inventory, finished goods and merchandise for resale, are measured at the lower of cost and net realisable value and are valued mainly on the weighted average cost basis.

Contract work-in-progress is recognised over time according to the percentage of work completed, which aligns to the percentage of the performance obligation performed over time as tracked by reference to the milestones for each contract.

Financial instruments

Financial instruments are valued at either:

- at fair value through profit and loss ("FVTPL"); or
- at amortised cost.

The Group determines the classification of financial assets at initial recognition. The classification of debt instruments is driven by the Group's business model for managing financial assets and their contractual cash flow characteristics. Financial liabilities are measured at amortised cost unless they are required to be measured at FVTPL (such as derivatives).

a) Classification and measurement

Financial assets and financial liabilities are recognised when a Group entity becomes a party to the contractual provisions of the instruments, and are initially measured at fair value. In addition, for financial reporting purposes, fair value measurements are categorised into level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, the inputs are described as follows:

- level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- level 2 are inputs other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- level 3 are inputs for the asset or liability that are not based on observable market data (unobservable inputs).

In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent that it is available for its level 2 financial instruments.

Foreign exchange gains and losses

- For financial assets measured at amortised cost that are not part of a designated hedging relationship, exchange differences are recognised in profit or loss in the operating costs line item; and
- For financial assets measured at FVTPL that are not part of a designated hedging relationship, exchange differences are recognised in profit or loss in the operating costs line item.

Group accounting policies continued

for the year ended 28 February 2023

Derivative instruments

The Group enters into derivative financial instruments to manage its exposure to foreign exchange rate risk and interest rate risk, including forward exchange contracts, interest rate swap agreements and foreign currency collars. Further details of derivative financial instruments are disclosed in Note 31.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognised in profit or loss immediately, unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

A derivative with a positive fair value is recognised as a financial asset, whereas a derivative with a negative fair value is recognised as a financial liability. Derivatives are not offset in the financial statements unless the Group has both legal right and intention to offset. A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months.

Other derivatives are presented as current assets or current liabilities.

Bonds

Bonds with a fixed maturity date are classified as financial assets at amortised cost and are measured using the effective interest method.

Trade receivables

Trade receivables are recognised initially at the amount of consideration that is unconditional, unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective of collecting the contractual cash flows, and therefore measures them subsequently at amortised cost using the effective interest method. Details about the Group's impairment policies and the calculation of the loss allowance are provided below.

Cash resources

Cash resources are initially measured at amortised cost. Cash resources include cash on hand, deposits held on call with banks, and other short-term highly liquid investments with original maturities of three months or less, and are measured at amortised cost using the effective interest method. Cash resources are included in cash and cash equivalents in the statement of cash flows (refer to Note 36).

Borrowings

Borrowings are initially recorded at fair value, net of direct issue costs, and are subsequently measured at amortised cost using the effective interest method. Finance charges, including premiums payable on settlement or redemption, are accounted for on an accrual basis and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

Bank overdrafts

Bank overdrafts are initially recorded at fair value, net of direct issue costs, and are subsequently measured at amortised cost using the effective interest method and are accounted for as financial liabilities. All bank overdrafts are presented in current liabilities on the statement of financial position (refer to Note 28).

Cash flows on bank overdrafts repayable on demand under certain conditions are classified as financing activities in the statement of cash flows (refer to Note 36). Cash flows on bank overdrafts are reported on a net basis in the statement of cash flows as the receipts and payments are large amounts with quick turnover and short maturities.

Bank overdrafts that are unconditionally repayable on demand are classified as cash and cash equivalents in the statement of cash flows (refer to Note 36).

Trade and other payables

Trade and other payables (excluding the short-term portion of share-based payments), are recognised initially at fair value and are subsequently measured at amortised cost using the effective interest method.

Other receivables

Financial assets, other than those that are disclosed above, are measured at amortised cost using the effective interest method.

Acquisition-related liabilities

Acquisition-related liabilities represent purchase considerations owing in respect of acquisitions. The purchase considerations are to be settled with the vendors in cash or shares on achievement of agreed performance criteria. The amounts owing are interest-free.

Acquisition-related liabilities are classified as financial liabilities designated at fair value through profit or loss except where the option portion is fixed, in which case they are classified as financial liabilities at amortised cost.

They are classified as level 3 financial instruments, whose fair value measurements are derived from inputs that are unobservable for the liabilities. Movements are presented in the statement of comprehensive income as acquisition-related fair value adjustments. Refer to Note 25.

Equity instruments

Equity instruments issued by the Company are recorded as the proceeds are received, net of the direct issue costs. Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments. Income tax relating to transaction costs of an equity transaction is accounted for in accordance with IAS 12.

Interest income

Interest income mainly arises from bank and other deposits. Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost. For financial assets other than purchased or originated credit assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset.

b) Impairment of financial assets

The Group recognises an allowance for expected credit losses ("ECLs") for all debt instruments not held at fair value through profit or loss.

The simplified approach has been applied to trade receivables and contract assets as permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of trade receivables and contract assets. The Group assesses, on a forward-looking basis, the ECL, defined as the contractual cash flows and the cash flows that are expected to be received associated with its assets at amortised cost.

Trade receivable and contract assets

To measure the expected credit losses, trade receivables and contract assets have been grouped based on shared credit risk characteristics and the days past due for Logicalis International and Logicalis Latin America. The contract assets relate to unbilled work in progress and have substantially the same risk characteristics as the trade receivables for the same types of contracts.

The Group has therefore concluded that the expected loss rates for trade receivables are a reasonable approximation of the loss rates for the contract assets.

During this process, the probability of the non-payment of the trade receivables and contract assets is assessed.

- This probability is then multiplied by the amount of the expected loss arising from default to determine the lifetime expected credit loss for the trade receivables and contract assets.
- The expected credit loss model applies a percentage based on an assessment of historical default rates and certain forward-looking information, against receivables and contract assets that are grouped into certain age brackets.
- In assessing the expected credit loss, the location of customers as well as their global presence is considered in the calculation. Typically, when these customers are in default it is due to disputes over the provision of a good or service, or billing technicalities, and not due to a credit risk due to an inability to settle their accounts.
- The forward-looking information that is incorporated includes:
 - emerging or anticipated changes in the macroeconomic environment where a customer is located; for example, geographies where there are sensitive fluctuations to foreign currency rates and/or where the customer debt is in a volatile currency; and
 - anticipated changes in the ownership or management of a customer which is in default, or where long-term relationships with customer management are likely to be compromised.

This method for calculating a provision is further supplemented by a specific review against higher value and aged trade receivables where there are other more specific risk factors identified from publicly available information such as insolvency proceedings. Other specific risk factors considered in this assessment are the age past due of the receivable, the probability of default by reference to past experience, the extent to which the customer is engaging in discussions to settle the debt, or conversely, whether there is an ongoing dispute as well as the macroeconomic environment of the geography/market in which the customer is located.

For trade receivables, which are reported net, such ECLs are recorded in a separate ECL account, with the profit or loss being recognised within profit from operating activities in the consolidated statement of comprehensive income. On confirmation that the trade receivable will not be collectable, the gross carrying value of the asset is written off against the associated ECL.

Factors which are considered for each of the operating segments are as follows:

• For Logicalis International

- A loss allowance is recognised for all trade receivables, in accordance with IFRS 9, and is monitored at the end of each reporting period. To measure the ECLs, the trade receivables have been grouped based on shared credit risk characteristics and into common ageing buckets. The historic loss rates are calculated for each ageing category from current to two years. The calculated historic loss rates are adjusted for identified forward-looking factors per ageing bucket for each risk category.
- Management may make further adjustments to the ECL to consider specific event risk where there is uncertainty in respect of the model's ability to capture conditions due to inherent limitations of modelling; for example, when a trade receivable has been placed under liquidation and proceedings are at a stage that a reliable estimate of non-recoverability can be made. These specifically identified debtors are removed from the ECL buckets when modelling the remainder of the trade receivables.

Group accounting policies continued

for the year ended 28 February 2023

• For Logicalis Latin America

- A loss allowance is recognised for all trade receivables, in accordance with IFRS 9, and is monitored monthly and at the end of each reporting period. To measure the ECLs, the trade receivables are analysed on an individual basis, specific allowance is used when there is an objective evidence.
- The customer credit data is analysed on a monthly basis in order to use this information for the estimation of ECL on a monthly and annual basis, or whenever relevant events or situations related to credit risk so warrant.

• For Westcon International

- In measuring ECLs, past experience is considered to be the most significant predictor to determine historic write-off rates for trade receivables that reach different ageing categories that fall past due. For higher value receivables which are lower volume, the receivable is reviewed independently for recoverability. In making this assessment, management considers age past due, the geography in which the customer resides, and the knowledge of the customer's situation based on the Group's discussions and dealings with particular customers. Further to the above assessments, the Group considers forward-looking information, such as known changes in the macroeconomic environment of customers located in a certain geography or the deterioration in the Group's relationship or discussions with a particular customer.

Write-off policy

When the debtor is in severe financial difficulty and there is no prospect of recovering the debt, and every effort to collect a customer receivable balance has been exhausted, the balance is written off with approval required through the matrix of authorities defined by each operating segment. A write-off will only be approved if there is no realistic prospect of recovery; for example, when a customer is in liquidation or subject to bankruptcy proceedings.

c) Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire or have been transferred, and the Group has transferred substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group continues to recognise the financial asset to the extent of its continuing involvement in the financial asset, and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Logicalis Group Limited enters into various invoice factoring arrangements with third-party finance houses. Where the arrangement signed with the third party is without recourse, the account receivable and related debt are derecognised.

Westcon International has a significant invoice assignment with recourse facility with a funder that provides working capital secured against the assignment of certain trade receivables to the funder. In these arrangements, the trade receivables are not derecognised because the substantial risks and rewards of ownership are retained by Westcon International. In particular, Westcon International continues to incur the risk of default and any credit losses by a customer, including the withdrawal of funding where a customer invoice falls more than 60 days past the due date. Westcon International retains the control of the customer relationship and all credit collection activity. The funder is unable to sell the receivable unilaterally. Refer to Note 24. Westcon recognises a separate financial liability on the statement of financial position for the amounts advanced by the funder, less any amounts already repaid. In the statement of cash flows, the cash receipts from customers are accounted for in operating activities and the cash flows relating to the facility are reflected in cash flows from financing activities.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Other receivables

Other receivables include prepayments, accrued income and claims/refunds due for other tax as well as rebates due (from vendors according to vendor rebate programmes). Prepayments mainly represent prepaid vendor costs on services that are recognised over time where the cost of providing the service is deferred over the same time period. Accrued income arises on certain contracts where a deferred timetable for billing a customer has been agreed. These items are all measured at amortised cost.

Provisions

A restructuring provision is recognised when the Group has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring and not associated with the ongoing activities of the entity.

Provisions for dilapidations and asset retirement obligations are recognised when the Group has a present obligation to return modified or utilised assets to a specified standard. Provisions for dilapidations and asset retirement obligations are measured at the directors' best estimate of the expenditure required to settle the obligation at the reporting date, and are discounted to present value using the entities' cost of borrowing where the effect is material. Provisions for legal claims, VAT/sales tax, onerous contracts

and other provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated. Provisions are not recognised for future operating losses. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

Taxation

The tax expense in the statement of comprehensive income represents the sum of the current tax and deferred tax. Current taxation comprises tax payable calculated on the basis of the expected taxable income for the year, using the tax rates enacted or substantially enacted at the statement of financial position date, and any adjustment of tax payable for previous years.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Group's consolidated annual financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable income will be available against which deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition, other than in a business combination, of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In certain jurisdictions, goodwill relating to business combinations is tax deductible. Deferred tax liabilities for taxable temporary differences relating to goodwill are recognised to the extent they do not arise from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying value of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised, or the liability is settled, or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the reporting date. Deferred tax is charged or credited in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly in equity, in which case the deferred tax is also dealt with in other comprehensive income or equity, respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for a business combination.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities, and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

The entity considers its leases to be a single transaction in which the asset and liability are integrally linked. Thus, in applying the requirements of IAS 12 – Income taxes to assets and liabilities arising from finance leases, the entity nets the deferred tax impact of the lease asset and liability. The net deferred tax impact is shown as a movement in deferred tax assets.

Revenue

The Group's revenues result primarily from the sale of various technology products and services.

Recognition

Revenue is recognised based on the completion of performance obligations and an assessment of when control, over the specified good or service being provided, is transferred to the customer in accordance with IFRS 15 – *Revenue from contracts with customers*. The following indicators are used by the Group in determining when control has passed to the customer:

- the Group has a right to payment for the product or service;
- the customer has legal title to the product;
- the Group has transferred physical possession of the product to the customer;
- the customer has the significant risk and rewards of ownership of the product; and
- the customer has accepted the product or service.

The Group has standard terms and conditions for customer sales that are tailored to suit individual contracts. A contract is therefore deemed to be in place upon submission of a purchase order (or evidence of buying request) from the customer. Alternatively, fulfilment of an order by the Group is deemed to represent a contract per the standard terms and conditions. The contract in place with the customer per the above will include a sales price that is fixed or readily determinable.

Group accounting policies continued

for the year ended 28 February 2023

Products sold by the Group are delivered via shipment from the Group's facilities, drop shipment directly from the vendor, or by electronic delivery of keys for software products. In the case of drop shipments from the vendor to its customers, the Group is generally responsible for negotiating the price both with the vendor and customer, payment to the vendor, establishing payment terms with the customer, product returns, and has risk of loss if the customer does not make payment. As the principal with the customer, the Group recognises revenue upon product shipment.

Measurement

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Group provides volume rebates and other discounts to certain customers which are considered variable consideration. Sales are recorded net of such discounts, rebates and returns, which historically have not been material. Tariffs are included in sales as the Group has enforceable rights to additional consideration to cover the cost of tariffs. Other taxes imposed by governmental authorities on the Group's revenue-producing activities with customers, such as sales taxes and value added taxes, are excluded from net sales.

Contracts are assessed individually to determine whether the products and services are distinct; i.e. the product or service is separately identifiable from the other promises in the contract with the customer and whether the customer can benefit from the goods or services either on its own or together with other resources that are readily available. The consideration is allocated between the goods and services in a contract based on management's best estimate of the standalone selling prices of the goods and services.

A receivable is recognised by the Group when the goods are delivered as this represents the point in time at which the right to consideration becomes unconditional, and only the passage of time is required before payment is due. Payment terms are on a customer-by-customer basis, but there are no financing components or, where there are, these are accounted for separately based on the financing component, which can be separately established. Discounts are agreed with suppliers and passed on to a client; this is treated as a reduction in both the cost of the item and, consequently, to the standalone selling price of that item.

When a contract results in payments received from customers in advance of fulfilling the performance obligation, a contract liability is recognised. Similarly, when the performance obligation has been fulfilled and the customers have not been invoiced, a contract asset is recognised.

Types of revenue

The Group principally generates revenue from providing the following goods and services:

Revenue from product sales:

- Revenue from sales of hardware
- Revenue from sales of software
- Revenue from vendor resold services and product maintenance sales

Revenue from services:

- Revenue from professional services
- Revenue from other services

Revenue from annuity services:

- Revenue from cloud services
- Revenue from software services
- Revenue from other services

In recognising revenue, the practical expedient in IFRS 15, paragraph 63 is applied as at inception in contracts with customers the period between the recognition of revenue and expected payment date is always less than one year.

Revenue from product sales

Revenue from sales of hardware

Revenue is recognised at a point in time when control passes to the customer, being when the goods are delivered to the customer per the chosen shipment method.

Included in revenue from product sales is Westcon International, Logicalis International and Logicalis Latin America's vendor maintenance revenue. A customer purchases a maintenance or service package from Westcon International, Logicalis International and Logicalis Latin America that is delivered over time directly by the vendor. Westcon International, Logicalis International and Logicalis Latin America have no obligation to the customer in terms of the service or maintenance once the sale has been made. These revenues are recognised at a point in time, and on a net basis, as Westcon International, Logicalis International and Logicalis Latin America act as agents and have no further obligations to the customer once the sale has been made. The commission or gross profit earned on these sales is recognised as revenue. The maintenance package is sold alongside the hardware/software purchased by the vendor and is therefore considered as an integral part of the product.

Revenue from sales of software

Revenue from sales of software represents the resale of software licensing and SaaS related to Logicalis International and Logicalis Latin America. The Group's performance obligation is met as the software licence(s) is passed over to the client (this may be, for instance, when licence keys are handed to the client or when a contract representing the licence is assigned dependent on the applicable deal), and as such, revenue is recognised at a point in time where the right to access the licensing product has transferred to the customer.

Revenue from vendor resold services and product maintenance sales

The Group sells maintenance contracts on behalf of its vendors which are accounted for on a net basis because the Group is acting as an agent. The commission or gross profit earned on these sales is recognised as revenue.

A maintenance package is sold alongside hardware or software products. The Group's responsibility is to arrange for the provision of the specified service by the original equipment manufacturer/vendor, and the Group does not control the specified service before it is transferred to the customer. Westcon International, Logicalis International and Logicalis Latin America therefore has no obligation to the customer in terms of the service or maintenance once the sale has been made and revenue is recognised at a point in time once the maintenance contract start date is initiated.

Revenue from services

Revenue from professional and other services

The Group earns revenue from professional service contracts with customers. These include supply chain management, professional, education and other support services. These services are levied on a fixed fee or time and materials basis.

Support and embedded support services provide remote or on-site support to customers over a contract term which may include sparing or advanced hardware replacement. In most cases, revenue is recognised over time on a straight-line basis to represent the fulfilment of the service over the contractual period. In some cases, revenue is recognised on a milestone basis if the support contract is incident/ticket/pay-as-you-go based.

For professional services, revenue is recognised at a point in time when the service is complete, or at multiple points in time where the service is milestone based. In these contracts, customers gain immediate use of the output of the service once the professional service has been rendered.

Where recorded revenue exceeds amounts invoiced to clients, the excess is classified as contract assets and where recorded revenue is less than the amounts invoiced to clients, the difference is classified as contract liabilities.

Revenue from annuity services

Revenue from cloud services

Cloud services are recognised over time when acting as principal in a manner reflecting the delivery of the service and at a point in time when acting as an agent, depending on the nature and scope of the contract.

Revenue from software services

The Group sells cloud computing solutions which include IaaS and SaaS related to Westcon International. The Group recognises revenue for cloud computing solutions at the time of delivery, being the point in time when control passes, and on a net basis as the Group is acting as an agent in the transaction.

Software application and development

The Group sells software application and development to its customers based on requirements set by the customers in each respective contract. The Group recognises the revenue on a principal basis over time using the input method, i.e., costs incurred as a percentage of the total estimated costs. When a contract results in payment received from customers in advance of fulfilling the performance obligation, a contract liability is recognised, similarly, when the performance obligation has been fulfilled and the customers have not been invoiced, a contract asset is recognised.

Revenue from other annuity services

The Group provides annuity services to perform the specified service over a specified period of time. The specified service would comprise a single series of services that are transferred to the client over the agreed period. Annuity services performed by the Group relate primarily to the provision of managed IT and cloud and in-house maintenance services, and are recognised as the customer simultaneously receives and consumes the benefit of the services provided. Annuity services are recognised over time and equally over the life of the annuity service.

Included in revenue from annuity services is Logicalis International and Logicalis Latin America's vendor resold services as the revenue stream is directly related to the generation of recurring revenue.

Group accounting policies continued

for the year ended 28 February 2023

Net revenue vs gross revenue recognition

Revenue from sales arrangements where the Group acts as agent (primarily vendor-provided services and maintenance agreements) is recognised on a net basis and the commission or gross profit earned on these contracts is recognised as revenue.

When deciding on the most appropriate basis for presenting revenue or related costs, both the legal form and the substance of the agreement between the Group and the counterparty are reviewed to determine each party's respective role in the transaction. Refer to critical judgements for the judgements applied in deciding whether the Group is acting as an agent or a principal.

Capitalisation of costs incurred to fulfil contracts

The Group incurs certain costs to fulfil contracts with customers. These costs are directly attributable to the completion of a contract, generate or enhance resources of the entity that will be used in satisfying performance obligations in the future and are expected to be recovered, however the performance obligation to recognise the revenue has not yet been met. The capitalised costs are recognised in profit or loss when the Group has satisfied the related performance obligation in the contract with the customer, which is usually within 12 months after the end of the reporting period.

Dividend income

Dividend income is recognised when the right to receive payment is established and is included as part of revenue in the statement of comprehensive income.

Upon receipt of dividend income, the Group has elected to present the cash flow as part of its investing activities.

Finance costs

Finance costs include the borrowing costs on bank overdrafts and trade finance, finance leases and debt issuance costs which are recognised in profit or loss using the effective interest method.

Share-based payments

The Group issues equity-settled and cash-settled share-based incentives to certain employees.

Equity-settled share-based payments are measured at fair value (excluding the effect of non-market-based vesting conditions) at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest, and adjusted for the effect of non-market-based vesting conditions. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share-based payments reserve.

For cash-settled share-based payments, the liability for the fair value of all unexercised share rights which are expected to vest is determined initially at grant date and then revalued at each reporting date and amortised over the applicable vesting period.

Fair value is measured by independent experts using appropriate pricing models. The expected life used in the models has been adjusted, based on the directors' best estimate, for the effects of non-transferability, exercise restrictions and exercise behavioural considerations.

Deferred bonus warrants ("DBW")

The Deferred Bonus Warrant ("DBW") has replaced the previous Deferred Bonus Plan ("DBP") and the co-investment by the Company now takes the form of share appreciation right ("SARs").

The deferred STI is in the form of shares which will be held in escrow for the benefit of participants. The Company co-investment is awarded as SARs. The SARs will be awarded at market value using the same price applicable to purchase the deferred shares.

Executive directors (CEO and CFO) and two senior Group executives, provided the minimum STI levels are achieved as indicated above. The mandatory deferral percentage in the DBW (if the bonus exceeds 50% of target) is 20%. The maximum deferral percentage is 50%. The number of SARs to be awarded is based on an actuarial calculation of their value relative to the current share price.

Four years vesting period

A holding period of two additional years will follow the vesting period of three years for the share element. The SARs are subject to a four-year exercise period commencing on the vesting date and will be subject to a two-year holding period post vesting.

One year, aligned with the STI performance.

No prospective performance conditions apply, but performance is an entry qualification requirement. Further performance alignment via share price appreciation before the SARs will be exercisable.

Dividends will accrue on the shares purchased by participants using their STI and these dividends must be taken in the form of shares (provided the Company offers a scrip alternative) while the shares are held in escrow to the end of the holding period. No dividends will accrue on the SARs during the exercise period.

The new DBW will be non-dilutive to shareholders as it will be settled by purchasing shares in the market.

The executive will retain all the shares which he had deferred into the DBW and will retain a portion of the SARs which have been granted but not yet vested. The proportion will be determined pro rata, relative to the time of the vesting period which has elapsed up to the termination date. The terminated executive will continue to hold the reduced number of awards until the vesting date when they will vest along with the other grants in accordance with the rules of the scheme and be exercised within one year. SARs which have vested but not been exercised at the termination date must be exercised within one year thereof.

All unvested (deferred shares and SARs) and vested but unexercised SARs are forfeited. In addition, such executives will be required to repay all dividends (pre-tax value) earned from the award date on the shares.

Pension scheme arrangements

Certain subsidiaries of the Group make contributions to various defined contribution retirement plans on behalf of employees, in accordance with the local practice in the country of operation. These contributions are charged against profit or loss as incurred.

The Group has no liability to these defined contribution retirement plans other than the payment of its share of the contribution in terms of the agreement with the funds and employees concerned, which differs from country to country.

Related parties

Related party transactions constitute the transfer of resources, services or obligations between the Group and a party related to the Group, regardless of whether a price is charged. For the purposes of defining related party transactions with key management, key management has been defined as directors and the Group's Executive Committee and includes close members of their families and entities controlled or jointly controlled by these individuals.

Use of non-IFRS financial measures

The Group uses certain measures to assess the financial performance of the business. Certain of these measures are termed "non-IFRS measures" because they exclude amounts that are included in, or include amounts that are excluded from, the most directly comparable measure calculated and presented in accordance with IFRS, or are calculated using financial measures that are not calculated in accordance with IFRS. These non-IFRS measures include EBITDA, underlying earnings* and underlying* earnings per share. An explanation of the relevance of each of the measures, and a reconciliation of these measures to the most directly comparable measures in prior period, is provided below and in the relevant notes.

EBITDA

The Group includes EBITDA and EBITDA margin because they are key measures that the Company's management and Board of directors use to understand and evaluate its core operating performance and trends.

EBITDA is a core metric in the annual budget; and is used to develop short and long-term operational plans.

EBITDA is defined as operating profit before finance interest, tax, depreciation and amortisation. EBITDA further excludes the following: the Group share of equity-accounted investment losses; acquisition-related fair value adjustments; other income and gains or losses on the disposal of investments.

The Group calculates EBITDA margin as EBITDA divided by total revenue. All further references made to EBITDA will be in accordance with the definition stated above.

** Non-distributable reserves relate to the translation of stated capital of the parent company and reserves recognised in the recording of changes in holdings of subsidiaries (changes in the holdings of subsidiaries that do not result in loss of control) amongst other items.

Foreign currency translation reserve includes the translation of subsidiaries and the parent company into presentation currency.

Transactions in FY23

There were 3 000 000 treasury shares held by the Company as 28 February 2023 (FY22: 549 867 treasury shares). Refer to Note 20 for a reconciliation of the number of shares.

*** During FY23, 0.4 million shares (FY22: 1.3 million shares) to the value of US\$0.9 million (FY22: US\$2.8 million) were purchased as treasury shares and issued to the DBW scheme participants (refer to Note 2). During FY23, 0.9 million shares to the value of US\$2.0 million vested (FY22: US\$1.8 million DBP shares vested). DBP and DBW shares are considered to be treasury shares for the Group and are added back to the Group's stated capital until the vesting conditions are met.

In FY23, there were no share repurchases (FY22: no share repurchases).

Share issue expenses for the year amounted to US\$0.1 million in FY23. These were accounted for in equity and are reflected as part of the US\$18.1 million.

* **Dividends paid to shareholders in FY23**

During FY23 the Board declared a final FY22 dividend of 111 ZAR cents to shareholders in the form of a cash dividend with scrip distribution alternative.

The result of the shareholder election was that 4 787 467 fully paid new ordinary shares were issued to shareholders who did not elect to receive the cash dividend. A total cash dividend of US\$3.8 million has been paid to shareholders who retained the default cash dividend. The total distribution to shareholders was US\$14.0 million of which the scrip portion was US\$10.2 million.

During FY23, the Board declared a special dividend of 1 250 ZAR cents to shareholders in the form of a cash dividend with scrip distribution alternative.

The result of the shareholder election was that 3 171 196 fully paid new ordinary shares were issued to shareholders who did not elect to receive the cash dividend. A total cash dividend of US\$150.6 million has been paid to shareholders who retained the default cash dividend. The total distribution to shareholders was US\$158.5 million of which the scrip portion was US\$7.9 million.

The revenue categories above are consistent with the revenue information presented in the segmental report in Note 37.

2. Share-based payments

Long-term incentives comprise share-based remuneration plans with performance targets. Three share-settled Group plans are used, namely:

- Conditional share plan ("CSP") – a performance share plan;
- Deferred bonus plan ("DBP") – a portion of the bonus is deferred and the Company contributes a co-investment. Both of these components are in the form of shares which are forfeitable; and
- Deferred Bonus Warrant scheme ("DBW") – a portion of a participant's bonus is deferred. This component is in the form of bonus shares. The Company then further matches this deferral in the form of share appreciation rights ("SARs"). The bonus shares together with the SARs collectively forms the DBW.

A number of cash-settled share-based remuneration plans are operated in divisions. These are explained below.

Group plans – structural overview

	Deferred Bonus Plan	Conditional Share Plan	Deferred Bonus Warrants
Instrument	The deferred short-term incentive ("STI") (deferred shares) and the Company co-investment shares are awarded as restricted shares with voting and dividend rights.	Conditional rights to shares subject to performance vesting conditions.	The deferred STI is in the form of shares which will be held in escrow for the benefit of participants. The Company co-investment is awarded as share appreciation rights ("SARs"). The SARs will be awarded at market value using the same price applicable to purchase the deferred shares.
Eligibility	Executive directors (CEO and CFO) and two senior Group executives, provided the minimum STI levels are achieved as indicated above.	Executive directors and Group executives and staff.	Executive directors (CEO and CFO) and two senior Group executives, provided the minimum STI levels are achieved as indicated above.

Notes to the Group consolidated annual financial statements

continued

for the year ended 28 February 2023

2. Share-based payments (continued)

	Deferred Bonus Plan	Conditional Share Plan	Deferred Bonus Warrants
Allocation levels	The minimum participation level for executives in the DBP is on a sliding scale with a 20% mandatory investment between 50% of target and on target bonus and 33% for above on-target bonus. The maximum proportion of annual bonus which participants may defer into the DBP is 75%.	The quantum of awards is based on annual base salary and the face value of awards which is the current Datatec share price (using a 30-day volume-weighted average price) as follows: • CEO – 150% x base salary; • CFO – 120% x base salary; and • Datatec Group executives and staff – range from 100% to 50% of base salary. The number of awards granted to participants who also participate in the Westcon International Equity Appreciation Plan (“EAP”) is scaled down to avoid “double dipping”.	The mandatory deferral percentage in the DBW (if the bonus exceeds 50% of target) is 20%. The maximum deferral percentage is 50%. The number of SARs to be awarded is based on an actuarial calculation of their value relative to the current share price.
Vesting period	Three years.	Three years.	Four years.
Additional holding period	For the STI and co-investment share elements, a holding period of two additional years follows the vesting period of three years.		A holding period of two additional years will follow the vesting period of three years for the share element. The SARs are subject to a four-year exercise period commencing on the vesting date and will be subject to a two-year holding period post vesting.
Performance period	One year, aligned with the STI performance as explained above.	Three years.	One year.
Performance conditions	No prospective performance conditions apply, but performance is an entry qualification requirement.	Performance conditions apply to the grants and the conditional awards are held for a performance period of three years. At the end of the three-year performance period the performance conditions are tested and if met, awards vest on a sliding scale between 50% at threshold and 100% at the upper target.	No prospective performance conditions apply, but performance is an entry qualification requirement.

2. Share-based payments (continued)

	Deferred Bonus Plan	Conditional Share Plan	Deferred Bonus Warrants
Plan and individual limits	The maximum number of co-investment shares which can be delivered to any individual participant in the DBP is 1.6 million shares. The maximum number of new shares which can be issued to participants to settle obligations under the DBP is 3.2 million shares.	The maximum number of shares which can be delivered to any individual participant in the CSP is 3.7 million shares. The maximum number of new shares which can be issued to participants to settle obligations under the CSP is 7.4 million shares.	The new DBW will be non-dilutive to shareholders as it will be settled by purchasing shares off the market. No plan or individual limit is therefore in place.
Termination of employment provisions	If an executive director resigns from the Company or is terminated for fault, eg dismissal on grounds of misconduct, proven poor performance, dishonest or fraudulent conduct ("bad leaver"), all unvested and unexercised long-term incentive ("LTI") awards are forfeited. This includes shares in the DBP (both the employee's deferred STI element and the co-investment from the Company) and DBW (both the employee's deferred STI element and the co-investment from the Company awarded in the form of share appreciation rights) within the three-year vesting period for DBP and four-year vesting period for DBW. In addition, such executives will be required to repay all dividends (pre-tax value) earned from the award date under the DBP and DBW (bonus shares, deferred shares and share appreciation rights). If termination is at the Company's instigation and not for fault ("good leaver"), the executive will retain a portion of LTI share incentive awards which have been granted but have not yet vested. The proportion will be determined pro rata, relative to the time of the vesting period which has elapsed up to the termination date, and in the case of the CSP, will be adjusted based on the extent to which performance conditions have been met. The terminated executive will continue to hold the reduced amount of awards until the vesting date, when they will vest along with the other grants, in accordance with the rules of the scheme, if the relevant performance conditions are satisfied.

Modified in respect of Special Dividend	570	(11.43)	–	–
Outstanding at end of year	1 955	27.76	–	–

Participants in the DBW defer a portion of their pre-tax bonus (bonus shares). In addition, the Company allocates to the participants an equal Company co-investment in the form of Share Appreciation Rights. The portion of pre-tax bonus deferred are used to purchase Datatec shares which the participants hold under the terms of the DBW. These shares are all forfeitable if the participant leaves the employment of the Group within the three-year period from date of grant after which the shares vest. At 28 February 2023, the weighted average remaining life of the awards until the end of the vesting period was 2.3 years.

2. Share-based payments (continued)

Datatec Group schemes (equity-settled) (continued)

Modification

During FY23 a modification to the Company's share schemes was required pursuant to the Special Dividend paid on 5 December 2022 in order to maintain the economic rights of participants.

Using a methodology consistent with previous special dividends, a modification factor was calculated as follows: X/Y , where X is the Datatec share price on 29 November 2022 (ZAR42.85) and Y is the adjusted price (Share price as at 20 November 2022 less special dividend of ZAR12.50) Hence for the Special Dividend paid on 5 December 2022 the factor is $42.85/30.35 = 1.412$.

This factor is applied to the share schemes as follows:

CSP – increase the number of awards by a factor of 1.412, there is no exercise price to adjust;

DBP – no modification to the DBP awards is required because the awards are in the form of forfeitable shares held by participants so dividends paid during the vesting period accrue to the participants.

DBW SARs – the modification required was to:

- i) increase the number of awards by a factor of 1.412; and
- ii) decrease the exercise price by a factor of 1.412 in order to retain the same 'moneyness' (i.e. previous strike price divided by 1.412).

Fair value

The CSP awards granted in FY23 are conditional on a market condition as well as the completion of a three-year service period, whereas the CSP awards granted in FY22 are conditional upon both a market (two-thirds of the grant) and non-market (one-third of the grant) performance condition as well as the completion of a three-year service period. The fair value of the CSP grant in FY23 was calculated using the Monte Carlo Simulation pricing model as it best captures the path-dependent nature and specific features of these awards in order to determine the extent that the market vesting condition is achieved, and hence the number of awards that will vest, by assessing the evolution of Datatec's total shareholder return ("TSR") share price.

The DBP awards granted in previous years are conditional upon completion of a three-year service period with no performance conditions because they represent re-investment of STI bonuses already earned. The fair value of the DBP awards, referred to as the "unconditional" fair value, is equal to the underlying share price of Datatec shares at the grant date.

The DBW awards granted in FY23 are conditional upon completion of a three-year service period with no performance conditions because they represent re-investment of STI bonuses already earned. The fair value of the DBW awards, referred to as the "unconditional" fair value, is equal to the underlying share price of Datatec shares at the grant date. The key data used for the valuation of the Datatec CSP, DBP and DBW bonus share awards is shown in the table below:

	2023			2022	
	CSP	DBW (SARs)	DBW (bonus shares)	CSP	DBP
Grant date	11 July 2022	12 August 2022	12 August 2022	01 June 2021	07 June 2021
Vesting date	1 June 2025	30 June 2025	30 June 2025	01 June 2024	07 June 2024
Performance/employment period	24 May 2022 to 24 May 2025	1 March 2021 to 28 February 2025	1 March 2021 to 28 February 2025	28 February 2021 to 29 February 2024	
Share price at grant date (closing price)	ZAR43.60	n/a	ZAR44.66	ZAR31.25	ZAR28.90
Risk-free rate (nominal annual compounded continuously)	7.74%	8.08%	7.18%	4.96%	4.89%
Dividend yield	2.55%	1.98%	1.51%	2.77%	3.00%
Volatility – determined using equally-weighted historical volatility method	54.75%	42.33%	N/A	47.61%	N/A
Fair value (of one unit)	ZAR27.39	ZAR20.90	ZAR44.66	ZAR21.94	ZAR28.90

2. Share-based payments (continued)

Datatec Group schemes (equity-settled) (continued)

Logicalis International and Logicalis Latin America

Logicalis International ("Logicalis") and PromonLogicalis Latin America Limited ("Logicalis LATAM")

Conditional Share Plans ("CSP")

Logicalis International and Logicalis LATAM operate CSPs for the most senior tier of management with similar terms to the Datatec CSP but cash-settled and based on the Logicalis International and Logicalis LATAM share price as determined by annual independent valuations. Awards of conditional shares are granted annually to participants. After a three-year performance period the CSP awards will vest as follows:

- 25% of each participant's award is subject only to an employment condition and will vest, provided the participant remains in the employment of Logicalis International or Logicalis LATAM at the end of the three-year period since grant.
- The remaining 75% of each participant's award is subject to performance conditions:
 - One-third (i.e. 25% of the total award) based on Logicalis International or Logicalis LATAM share price growth;
 - One-third (i.e. 25% of the total award) based on net income per share growth;
 - One-third (i.e. 25% of the total award) based on return on invested capital ("ROIC").

Each performance condition has a threshold level at which 50% vesting will occur and a target level for 100% vesting. Between the threshold and target, vesting will be calculated by linear interpolation.

	2023		2022	
	Number of shares ('000)	Weighted average grant price	Number of shares ('000)	Weighted average grant price

Exercised during the year – share price on exercise US\$5.08 (FY22: US\$4.57)	(74)	4.92	(87)	4.84
Lapsed/forfeited during the year	(419)	4.92	(510)	4.81
Outstanding at the end of the year	1 416	4.56	1 909	4.65
Exercisable at the end of the year	105	4.88	53	4.84
The Logicalis CSP awards outstanding at 28 February 2023 comprised grant prices in the range US\$4.49 to US\$4.92 (FY22: US\$4.49 to US\$4.92). At 28 February 2023, the CSP awards had a weighted average remaining contractual life of 3.7 years (FY22: 4.4 years).				
Logicalis LATAM CSP		US\$		US\$
Outstanding at the beginning of the year	274	7.84	325	8.18
Granted during the year	144	5.67	106	7.18
Exercised during the year – share price on exercise US\$8.87 (FY22: US\$7.18)	(15)	8.87	(27)	8.16
Lapsed/forfeited during the year	(73)	8.87	(130)	8.08
Outstanding at the end of the year	330	6.62	274	7.84

The Logicalis LATAM CSP awards outstanding at 28 February 2023 comprised grant prices in the range US\$5.67 to US\$8.87 (FY22: US\$7.18 to US\$8.87). At 28 February 2023, the CSP awards had a weighted average remaining contractual life of 4.5 years (FY22: 4.4 years).

Logicalis and Logicalis LATAM Share Appreciation Right ("SARs")

Logicalis and Logicalis LATAM also operate SARs schemes for senior managers who do not participate in the CSP.

Half the SARs grant is subject to an earnings growth performance condition and the other half is subject only to an employment condition. All rights lapse if not exercised by the end of the seventh year after grant.

Exercisable at the end of the year	39	5.83	52	5.63

The Logicalis LATAM SARs outstanding at 28 February 2023 comprised grant prices in the range of US\$5.08 to US\$7.41 (FY22: US\$5.08 to US\$8.87) and had a weighted average remaining contractual life of 5.3 years (FY22: 5.0 years).

Westcon International

Westcon International Equity Appreciation Plan ("EAP")

The Westcon International EAP was implemented in FY19 for senior management in order to incentivise value generation. Participants have been awarded a once-off grant of "Units", whose value will be linked to the value of Westcon International; this is a notional base value which was estimated to be US\$125 million (the "Hurdle"). The Units will not have any share rights, in particular they will not have the right to dividends or votes.

Ten percent of the value of Westcon International above the Hurdle will be paid to the EAP Pool on a sale of Westcon International. Each Unit will receive a pro rata share of the EAP Pool when Westcon International is sold. For example, if Westcon International is sold for US\$300 million, the EAP Pool will be US\$17.5 million: ((US\$300 million – US\$125 million) x 10%). If there are 100 000 units in issue, each Unit will be worth US\$175.

During FY21, Datatec recapitalised Westcon International by converting US\$80 million of intercompany loans to equity investment. This capitalisation will be adjusted for in computing the equity appreciation for participants at the end of the EAP.

If Westcon International was not sold within five years of the start of the scheme on 1 March 2018, the business was to be valued by an independent valuer with the EAP set to pay out to participants on the basis of that valuation. A valuation of the business was undertaken to determine its value at 28 February 2023. The external valuation was calculated by an independent third party using the discounted cash flow approach. A sum-of-the-parts methodology was applied where the equity value of each of the operating regions within Westcon International was calculated and combined to arrive at the valuation to be used for the purpose of the scheme. The following consolidated weighted key assumptions were applied:

- Compounded annual growth rate through the forecast period: 5.52%
- Weighted average cost of capital: 13.89%
- Terminal growth rate: 2.21%
- Risk-free rate: 4.19%
- Inflation rate: 2.19%
- Country risk premium: 1.29%
- Tax rate: 24.08%

In addition to the Westcon International management participants, the Datatec executive directors participate in the Westcon EAP as shown in Note 30 to these financial statements with the corresponding cash-settled share-based payment liability included in Note 23.

Notes to the Group consolidated annual financial statements

continued

for the year ended 28 February 2023

2. Share-based payments (continued) Datatec Group schemes (equity-settled) (continued)

	2023		2022	
	Number of shares ('000)	Weighted average grant price	Number of shares ('000)	Weighted average grant price
		US\$		US\$
Outstanding at the beginning of the year	148	125.00	143	125.00
Granted during the year	–	–	8	125.00
Forfeited/lapsed during the year	–	–	(3)	125.00
Outstanding at the end of the year	148	125.00	148	125.00

At 28 February 2023, the EAP awards had a remaining contractual life of 0.1 years (FY22: 1.0 years).

Westcon International SAR Scheme

SARs were granted in FY19 and some further awards were made in FY20 to additional participants. The SARs Scheme is a one-off grant like the EAP and each SAR has an exercise price of US\$1.25 based on a notional share capital for Westcon International of 100 million shares. The base valuation for the SARs was thus the same as the Hurdle for the EAP. The SARs will be adjusted for the recapitalisation of Westcon International noted in the EAP section above. The SARs will vest after two years without performance conditions and thereafter may be exercised over the following three years (a maximum of one-third per year).

	2023		2022	
	Number of shares ('000)	Weighted average grant price	Number of shares ('000)	Weighted average grant price
		US\$		US\$
Outstanding at the beginning of the year	2 384	1.25	2 595	1.25
Granted during the year	–	–	–	–

Forfeited/lapsed during the year	(34)	–	(67)	–
Outstanding at the end of the year	2 350	1.25	2 384	1.25

At 28 February 2023, the SAR awards had a remaining contractual life of 0.3 years (FY22: 1.3 years). Subsequent to 28 February 2023, the Remuneration Committee approved the Westcon International Equity Appreciation Plan and Share Appreciation Rights Scheme settlement as accounted for and disclosed in the FY23 consolidated annual financial statements. These amounts will be settled accordingly.

2. Share-based payments (continued)

Subsidiary schemes (cash-settled and equity-settled)

Analysys Mason Performance Share Scheme

Analysys Mason operates a performance share plan, approved by its board of directors and shareholders, under the terms of which conditional shares are granted to participants. 25% of the conditional shares vest unconditionally after three years, if the participant is still an employee, and are settled with the same number of Analysys Mason ordinary shares. The vesting of the remaining 75% is conditional on an earnings-based performance condition and may be settled in cash or shares.

	2023		2022	
	Number of shares ('000)	Weighted average grant price	Number of shares ('000)	Weighted average grant price
	GBP		GBP	
<i>Note: A proportion of this scheme is settled in Analysys Mason equity</i>				
Outstanding at the beginning of the year	253	19.89	246	16.36
Granted during the year	–	–	86	25.27
Exercised during the year – share price on exercise £80.44 (FY22: £25.27)	(251)	19.89	(77)	14.64
Forfeited/lapsed during the year	(2)	19.89	(2)	20.75
Outstanding at the end of the year	–	–	253	19.89

All outstanding shares vested on the change in control on the disposal of Analysys Mason during the current financial year.

Valuation models

The fair value of CSP and Performance Share awards, referred to as the “unconditional” fair value, is equal to the underlying share price of subsidiary shares at the grant date. Where awards have optionality, as is the case for SARs and the Westcon International EAP, fair value is measured by the use of Black-Scholes-Merton or binomial tree models.

The main inputs into the models used by subsidiaries, in addition to those recorded above, fall into the following ranges:

	2023		2022	
Grant date	01 June 2022	01 July 2022	01 June 2021	01 July 2021
Vesting date	01 June 2025	01 July 2025	01 July 2024	12 July 2024
Risk-free rate	3.72%	5.07%	0.48%	1.59%
Expected life (years)	3.00	7.00	3.00	7.00
Dividend yield	0.00%	1.57%	1.45%	2.24%
Volatility of subsidiary	0.00%	42.06%	37.70%	44.14%

The expected life used in the models has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions and employee attrition. Expected volatility of subsidiaries has been determined by reference to peer group data.

Benefits	214	406
Non-executive directors' emoluments – fees	753	702
Short-term lease payments	3 261	2 797
Low-value assets payments	759	483
Variable lease payments	431	735
Net loss/(profit) on disposal of property, plant and equipment, right-of-use assets and software	422	(82)
Other expenses ⁺	92 271	88 918
Total operating costs	573 986	568 948

[^] The prior year has been re-presented to show comparative results from discontinued operations in accordance with IFRS 5. Refer to Note 40.

⁺ Certain items previously included in other operating expenses have been reclassified to staff costs.

[@] Additional staff costs information included below.

^{*} Long-term incentives for executive directors are included in the share-based payments charge reflected in Note 2. Full details of directors' emoluments are provided in Note 30.

⁽⁺⁾ Unrealised foreign exchange gains and losses for financial instruments (excluding cash resources and bank overdrafts as disclosed on the statement of financial position) that have a different currency than the entity's functional currency, are determined as follows:

- Financial assets and liabilities that have open positions at the end of a period/reporting date are translated to the entity's functional currency at the rates prevailing for that period end/reporting date;
- The unrealised foreign exchange gains and losses are accounted for in the statement of comprehensive income;
- Foreign exchange gains and losses are considered unrealised until maturity or settlement date of the financial instrument, at which point the entire foreign exchange gain or loss is classified as realised;
- Foreign exchange gains and losses on cash and cash equivalents are considered to be realised and accounted for in the statement of comprehensive income.

5. Taxation (continued)

5.2 Reconciliation of taxation rate to profit before taxation (continued)

Notes to the Group tax rate reconciliation:

The tax rate reconciliation uses the 28% South African statutory tax rate as a starting point. The Group operates in over 50 countries and the head office is based in South Africa. Datatec Limited is listed on the JSE and the majority of the Group's shareholders are based in South Africa. If a weighted average tax rate were to be used, the starting point would change every year making comparability difficult. The South African statutory tax rate is therefore deemed to be the most appropriate starting point. This is a key judgement applied by management. The negative effective taxation rate arising in the current year reflects the fact that a tax charge has arisen on a loss before taxation.

- (1) Arises as the net profit after taxation from equity-accounted investments is presented as a single line item in the Group's profit before taxation.
- (2) Arises as a result of the imputation of income for tax purposes where certain management fees are not billed to the entities benefiting from the services provided.
- (3) Relates to property, plant and equipment depreciation, inventory and work-in-progress write-offs and other asset impairments not deductible for tax purposes.
- (4) Includes entertaining expenses, donations, gifts, disallowed interest, disallowed legal expenses, disallowed customs duty costs, the impact of foreign exchange movements and controlled foreign company taxation.
- (5) Reflects the differing tax treatments of share-based payments which varies across jurisdictions, and the associated current or deferred tax credits arising which often do not directly correspond to the expenses booked in the accounts.
- (6) Relates to profits arising that are not chargeable to taxation and tax credits or additional tax deductions given in relation to certain types of expenditure.
- (7) Represents tax deducted on cross-border commercial payments that cannot be recovered directly from a tax authority or offset against other income tax liabilities.
- (8) Reflects the net tax benefit obtained as a result of intra-group dividends which have no net impact on the consolidated statement of other comprehensive income.
- (9) Relates to the utilisation or recognition of tax losses and other timing differences that have not previously been recognised as a deferred tax asset.
- (10) The tax reconciliation starts by applying the 28% South African tax rate to the losses arising in the year. The Group has earned profits in jurisdictions with significantly higher statutory tax rates such as Brazil at 34% (FY22: 34%) and has also incurred losses in jurisdictions with significantly lower statutory tax rates such as the UK at 19% (FY22: 19%). This line item reflects the additional taxation of these profits and the reduced tax benefit of these losses.
- (11) Relates to those timing differences that arise in the year for which a deferred tax asset has not been recognised, typically because of the uncertainty that future taxable income will be available against which deductible temporary differences can be utilised.
- (12) Refers to changes in the carrying value of deferred tax assets and liabilities as a result of a change in local statutory rates of taxation. In the year ended 28 February 2022, this related solely to a change in the UK rate of taxation to come into effect on 1 April 2023.
- (13) Reflects changes to the current and deferred tax recorded in relation to prior accounting periods.
- (14) Relates to acquisition costs or aborted acquisition costs that are not deductible for tax purposes.
- (15) Other non-recurring costs includes costs relating to the potential listing of Logicalis Latin America that have been written off in the year.

6. Earnings per share (continued)		
6.2 Earnings per share		
Basic earnings/(loss) per share	36.9	16.7
Continuing operations	(16.1)	14.3
Discontinued operations	53.0	2.4
Headline (loss)/earnings per share	(9.3)	16.2
Continuing operations	(10.8)	13.9
Discontinued operations	1.5	2.3
The earnings metrics above are calculated on the weighted average number of shares in issue during the year of 217 983 895 (FY22: 203 179 153), after the deduction of the weighted average number of treasury shares and shares relating to the DBP and DBW of 2 098 084 (FY22: 2 757 767). As at 28 February 2023, the Group held 3 000 000 (FY22: 549 867) shares as treasury shares (refer to Note 20). There were 372 261 (FY22: 9 123) weighted average treasury shares. As at 28 February 2023, there were 2 263 221 (2 098 084 weighted average) shares relating to the DBP and DBW (FY22: 2 776 908 (2 757 767 weighted average) shares relating to the DBP and DBW).		
6.3 Diluted earnings per share		
Diluted basic earnings/(loss) per share	36.9	16.2
Continuing operations	(16.1)	13.9
Discontinued operations	53.0	2.3
Diluted headline(loss)/earnings per share	(9.3)	15.8
Continuing operations	(10.8)	13.5
Discontinued operations	1.5	2.3

As an anti-dilutive impact is observed on earnings per share, no dilutive impact was recorded.

	Number of shares 2023	Number of shares 2022
6.4 Issued and weighted average number of shares		
Issued shares at the beginning of year	216 957 874	201 450 000
The weighted average number of shares is calculated by weighting the number of outstanding shares for the period in the financial year during which they were in issue:		
Issue of shares for a script distribution final dividend	2 951 178	1 060 535
Issue of shares for a script distribution special dividend	764 562	3 435 504
Treasury shares granted for deferral of bonus in relation to the DBW bonus shares	(191 519)	–
Treasury shares issued to settle deferred DBP shares	–	(992 687)
Treasury shares relating to DBP shares held throughout the period	(1 906 565)	(1 444 809)
Treasury shares relating to DBP shares that have vested in the current financial year	(219 374)	(320 371)
Treasury shares purchased	(372 261)	(9 019)
Weighted average number of shares	217 983 895	203 179 153
6.5 Weighted and diluted weighted average number of shares		
Weighted average number of shares	217 983 895	203 179 153
The diluted earnings metrics above are calculated using the weighted average number of shares in issue during the year, taking into account the dilutive effect of:		
Shares related to share-based payment schemes	8 603 341	6 099 534
Diluted weighted average number of shares	226 587 236	209 278 687

Headline earnings per share is calculated using the weighted average number of ordinary shares in issue during the year and is based on the earnings attributable to ordinary shareholders, after excluding those items as required by Circular 1/2021 Headline Earnings issued by the South African Institute of Chartered Accountants ("SAICA") as amended from time to time and as required by the JSE Limited.

	2023 US\$'000	2022 US\$'000
7. Goodwill		
Net book value	245 375	262 606
At the beginning of the year	262 606	255 536
Arising on acquisition of subsidiaries (Note 38)	18 699	12 199
Disposal of discontinued operations	(25 566)	–
Translation and other movements	(10 364)	(5 129)
Balance at the end of the year	245 375	262 606
Goodwill at cost	245 375	262 606
Per cash-generating unit:	245 375	262 606
Logicalis International [#]	209 707	203 545
Logicalis Latin America [#]	35 668	35 831
Management Consulting	–	23 230

[#] The Logicalis segment previously reported in the prior period is now being reported as two management segments, Logicalis International (representing the Logicalis business outside of Latin America) and Logicalis Latin America. The ultimate Logicalis holding company, Logicalis Group Limited, and its associated costs, is now included in the Corporate segment. Comparative results have been re-presented.

Goodwill impairment assessment

The Group completed its annual impairment tests, which are performed at the segmental cash-generating unit (“CGU”) level. Goodwill has been allocated for impairment testing purposes to the Logicalis International and Logicalis Latin America CGUs.

External valuations are obtained for the Logicalis International and Logicalis Latin America CGUs and compared to the corresponding net asset value, including goodwill. The recoverable amount of each CGU is determined based on a fair value less cost to sell, which is compared to values arising from a comparable company’s market approach and a market transactions method to ensure the reasonableness of the recoverable amount. The fair value less cost to sell is based on discounted cash flow calculations and is a level 3 fair value measurement, and further includes the following key assumptions:

Future earnings: Cash flow forecasts are prepared and derived from the most recent financial budgets for the next three years which are approved by management. EBITDA is considered a reliable indicator of operational performance and is considered a key assumption in the estimation of forecast future financial performance. Cash flows are extrapolated for a further two- to six-year period with estimated annual growth reducing gradually, to a rate which is considered not to exceed the long-term market growth in perpetuity used to calculate the terminal value.

Discount rates: Estimated discount rates used are post-tax rates of return that reflect current market assessments of the time value of money and the risks specific to the CGU to which goodwill is attributable.

Growth rates: Growth rates are based on budgeted figures and management estimates/assumptions in respect of the two- to six-year cash flow projections, a terminal growth rate and a discount rate. The growth rates are based on industry growth forecasts.

The higher revenue growth rate range for Logicalis International during FY22 was as a result of the businesses recovering from the Covid-19 period, FY23 resulted in an alleviation of the global supply chain constraints and decline of extended lead times. The high end of the current year’s rate range remained fairly high at 11.1%, primarily as a result of the unwinding of the backlog from prior years. The higher growth rate range in FY23 for Logicalis Latin America is attributed to a recovery since the decline in FY21 revenues resulting from the global chip supply shortage and Covid-19. The Logicalis Latin America region showed improvement in FY23. The terminal growth rates are mainly driven by the long-term inflation outlook for each country which are weighted based on the earnings contribution for the Logicalis Latin America segment.

Expected changes to selling prices and direct costs: Changes in selling prices and direct costs are based on past practices and reasonable expectations of future changes in the market.

As a result of the impairment analyses, it was concluded that no impairments were required to be recorded in the current year.

Notes to the Group consolidated annual financial statements

continued

for the year ended 28 February 2023

7. Goodwill (continued)

The table below contains the key assumptions that were used in the fair value less cost to sell calculations:

	Logicalis International [#]	Logicalis Latin America [#]	Management Consulting
2023			
Discount rate	13.5%	18.0%	–
Revenue growth rate in discrete period	2.0% – 11.1%	7.5% – 28.9%	–
Terminal growth rate	2.0%	3.2%	–
2022			
Discount rate	12.3%	17.3%	14.5%
Revenue growth rate in discrete period	2.2% – 14.4%	6.7% – 16.3%	10.1% – 12.4%
Terminal growth rate	2.0%	5.3%	1.8%

[#] The Logicalis segment previously reported in the prior period is now being reported as two management segments, Logicalis International (representing the Logicalis business outside of Latin America) and Logicalis Latin America. The ultimate Logicalis holding company, Logicalis Group Limited, and its associated costs, is now included in the Corporate segment. Comparative results have been re-presented.

The directors believe that a possible change in the key assumptions, on which recoverable amounts are based, would not cause the aggregate carrying amount to exceed the aggregate recoverable amount of the CGUs.

for the year ended 28 February 2023

	2023 US\$'000	2022 US\$'000
10. Intangible assets		
10.1 Capitalised development expenditure		
Included in amounts capitalised below, was US\$1.4 million (FY22: US\$1.3 million) of SAP-related capitalised development expenditure for Westcon International. Capitalised expenditures related to SAP are functionality modifications/enhancements made to the existing SAP platform. Non-SAP-related expenditure included modifications/enhancements to Westcon International's digital platforms and to previously built cloud platforms as well as the development of new Application Programming Interfaces ("APIs"). The closing net book value of US\$31.7 million consists of US\$31.6 million (FY22: US\$28.5 million) relating to Westcon International and US\$0.1 million (FY22: US\$0.8 million) relating to Logicalis International.		
Net book value	31 723	29 351
At the beginning of the year	29 351	25 040
Amounts capitalised	15 425	11 701
Disposals	–	(2)
Impairment*	(3 563)	–
Translation and other movements	(432)	44
Amortisation	(9 058)	(7 432)
Balance at the end of the year	31 723	29 351
Capitalised development expenditure at cost	66 227	56 117
Accumulated amortisation and impairment	(34 504)	(26 766)
* This impairment of US\$3.6 million was raised in Logicalis International as a result of the underperformance in sales of four internally generated software products in their Global Operations segment. Together with the subsequent restructure and closure of this business, management has concluded that the assets have been impaired. Capitalised development assets are amortised using the straight-line method over their useful lives, which generally do not exceed seven years.		
10.2 Acquired intangible assets and software		
10.2.1 Trademarks, customer and vendor relationships		
Net book value	10 053	21 483
At the beginning of the year	21 483	25 769
Arising on acquisition of subsidiaries	3 543	6 683
Disposal of discontinued operations	(2 094)	–

Amortisation – continuing operations^	(11 629)	(8 909)
Amortisation – discontinued operations^	(258)	(1 191)
Balance at the end of the year	10 053	21 483
Acquired intangible assets at cost	20 121	48 330
Accumulated amortisation and impairment	(10 068)	(26 847)

^ The prior year has been re-presented to show comparative results from discontinued operations in accordance with IFRS 5. Refer to Note 40.

As at 28 February 2022 there was one significant acquired intangible asset (customer relationship in Logicalis International) with a net book value of US\$8.6 million. During the current, year management reassessed the useful life of this asset resulting in amortisation of US\$8.6 million being recognised during the year. As at 28 February 2023, the asset had a net book value of US\$nil.

Acquired intangible assets are amortised using the straight-line method over their useful lives, which generally do not exceed 10 years (FY22: 10 years).

	2023 US\$'000	2022 US\$'000
10. Intangible assets (continued)		
10.2 Acquired intangible assets and software (continued)		
10.2.2 Software		
Net book value	6 033	6 649
At the beginning of the year	6 649	8 141
Additions	2 918	2 056
Disposals	(34)	(183)
Disposal of discontinued operations	(479)	–
Translation and other movements	(399)	(291)
Amortisation – continuing operations [^]	(2 584)	(2 895)
Amortisation – discontinued operations [^]	(38)	(179)
Balance at the end of the year	6 033	6 649
Software at cost	19 142	18 864
Accumulated amortisation	(13 109)	(12 215)
Total acquired intangible assets and software	16 086	28 132

[^] The prior year has been re-presented to show comparative results from discontinued operations in accordance with IFRS 5. Refer to Note 40.

Software is amortised using the straight-line method over their useful lives, which ranges from two to six years (FY22: two to six years).

There are no intangible assets with indefinite useful lives.

	2023 US\$'000	2022 US\$'000
11. Capital commitments		
Contractual commitments authorised	20 119	14 842
Property, plant and equipment	6 398	3 566
Intangible assets	13 721	11 276
Capital expenditure not contractually committed	17 735	29 135
Total capital commitments	37 854	43 977

This expenditure will be incurred in the ensuing year and will be financed from existing cash resources and available borrowing facilities.

12. Investments

12.1 Equity-accounted investments

The investments comprise associates that are equity-accounted. An assessment of control is performed to determine whether the Group has the practical ability to direct the relevant activities unilaterally. In making the judgement, the relative size and dispersion of other vote holders, potential voting rights held by them or others and rights from other contractual arrangements were considered. After the assessment, the Group concluded that it did not have a controlling interest to direct the relevant activities of the equity-accounted investments.

None of these equity-accounted associates are considered to be material to the Group.

Details of the Group's investments are:

Details of this Group's investments are:

	Country of incorporation and principal place of business	Nature of business	Effective ownership		Carrying value	
			2023 %	2022 %	2023 US\$'000	2022 US\$'000
Equity-accounted:						
Esource Resources, LLC.	USA	ICT Solutions	–	45.0	–	983
Cirrus Participações S.A. (“Kumulus”)*	Brazil	ICT Solutions	51.3	32.6	3 639	852
Fortum Fibre AS	Norway	Management Consulting	–	16.6	–	1 564
Mason Advisory Limited	UK	Management Consulting	42.5	44.7	2 800	2 672
					6 439	6 071

* 37.05% (FY22: 50.10%) is owned by PromonLogicalis Latin America Limited.

During the year, the Group received a dividend from Mason Advisory Limited of US\$1.0 million (FY22: US\$nil) and Esource Resources, LLC of US\$nil (FY22: US\$0.2 million).

During the year, effective 25 May 2022, Analysys Mason Ventures Fund Nordic 1 AS, a wholly owned subsidiary of Analysys Mason AS sold 100% of its shareholding in Fortum Fiber to its co-owners for a consideration of US\$4.4 million.

The Group disposed of its 45% investment in Esource Resources, LLC., at no value on mutual agreement with the remaining shareholders.

Cirrus Participações S.A., an equity-accounted investment in Logicalis, has a 100% (FY22: 100%) shareholding in Kumulus Serviços em CloudComputing e Database Ltda ("Kumulus"). As at 28 February 2023, a subsidiary in the United Kingdom purchased 27.23% and PromonLogicalis Latin America Limited maintained its 50.1%. As the Group owns 65% of PromonLogicalis Latin America Limited, this resulted in an effective shareholding of 51.31% (FY22: 32.57%) in Cirrus Participações S.A. The Group does not have control over Cirrus Participações S.A. and its subsidiary entities under the IFRS 10 model because it does not have the ability to significantly affect the activities of the other entity nor does it have the right to receive variable returns.

During the year, Cirrus Participações S.A.'s year-end changed from 31 December to 28 February, the reporting date when the investment in these associates was made. The year-ends of all the associates are now the same as the Group.

There were no loans granted to any investment companies during the year (FY22: US\$1.0 million). Kumulus repaid a loan of US\$1.0 million that was granted to it by a European subsidiary of the Group in FY22.

12. Investments (continued)**12.2 Bonds (Angola government bonds)**

	2023 US\$'000	2022 US\$'000
ISIN: AOTNX0519L18	–	7 276
Long-term portion	–	7 276
ISIN: AOTNX0519L18	4 677	–
Short-term portion	4 677	–

Westcon International

The Angolan government bonds are indexed to the US Dollar. The amount of US\$4.7 million (FY22: US\$7.3 million) is fixed and the Kwanza equivalent of this will be repaid at maturity. The prevailing National Bank of Angola official US Dollar rate at the maturity date will be used for conversion.

Bonds to the value of US\$7.28 million were purchased in July 2018 and mature in July 2023. The coupon rate on the bonds is 5.0%.

During the year, bonds worth US\$2.6 million (FY22: US\$nil) were discounted and paid. US\$nil (FY23: US\$nil) of Angolan bonds matured during the year.

The weakened economic outlook for Angola, which arose in prior years, mainly as a consequence of the fall in the price of crude oil, has led to a decline in the exchange rate of the Kwanza to the US Dollar. The National Bank of Angola has instituted capital controls that render the timing and quantum of conversion from Kwanza to US Dollar unpredictable. The further decline in the price of crude oil has increased uncertainty in the Angolan market. Management had instituted a series of actions to control the exposure and seek to reduce further losses, including the purchase of the bonds referenced above.

Expected credit losses in respect of the bonds are considered to be negligible. There have been no defaults by the Angolan government on bond maturity in the past and the National Bank of Angola has been settling bonds as they fall due.

The bonds are classified as level 1 financial instruments for the purposes of the IFRS 13 fair value hierarchy disclosure and are valued using quoted market rates.

	(29 366)	(28 096)

* Deferred tax assets recognised in relation to tax losses total US\$38.5 million (FY22: US\$36.3 million). Of this, US\$34.6 million (FY22: US\$29.8 million) have been recognised in respect of entities that were loss making in either the current year or prior year and included within this amount is US\$12.9 million (FY22: US\$10.7 million) relating to entities that were loss making in both the current and prior year. This includes losses relating to Chile, the UK and South Africa which can be carried forward indefinitely against their own future profits. Estimated tax losses carried forward include US\$2.3 million (FY22: US\$5.4 million) relating to Argentina that expire by 28 February 2028 (FY22: 28 February 2027). The deferred tax assets recognised are based on the future taxable profits derived from the budget periods of the relevant entities. The approved budgets of these entities indicate return to profitability in the short term with the budget periods spanning over the medium term which has resulted in some assessed losses not having had deferred tax assets recognised. These budgets are aligned with ongoing management actions to restore profitability in these jurisdictions. These include business restructuring which has resulted in the associated one-off costs being expensed this year.

Potential deferred tax assets of US\$20.8 million (FY22: US\$20.9 million) on assessed/estimated tax losses have not been recognised at 28 February 2023 as management does not believe that it is probable that taxable profit will be available in the foreseeable future against which these losses can be utilised. These tax losses can be carried forward indefinitely.

Current portion		8 300		9 878
Long-term portion		12 681		20 573
Finance lease receivables		20 981		30 451

Leases are provided to customers as part of financing for large product deals. In order to manage the risk associated with rights retained in the underlying assets, penalty clauses are included in contracts whereby customers are required to pay off the remainder of the value of the products should they exit the lease contract.

The carrying value of finance lease receivables approximates fair value, therefore no fair value disclosures are provided.

Logicalis International[#]

Two of Logicalis International's subsidiaries in Europe and Australia have entered into various finance leases, bearing interest between 0.60% and 14.42%. These leases are repayable at various dates between April 2023 and June 2028. At 28 February 2023, US\$19.0 million (FY22: US\$28.9 million) was receivable.

Logicalis Latin America[#]

One of Logicalis' Latin American subsidiaries has entered into various finance leases, bearing interest between 0.30% and 8.70%. These leases are repayable at various dates between April 2023 and October 2026. At 28 February 2023, US\$1.2 million (FY22: US\$1.5 million) was receivable.

Corporate

One of Corporate's European subsidiaries has entered into a finance lease, bearing interest at 2.65%. This lease is repayable at December 2028. At 28 February 2023, US\$0.8 million (FY22: US\$nil) was receivable.

The majority of the exposure, US\$19.0 million (FY22: US\$28.9 million) is in Europe (refer to Note 31.4). Expected credit losses for the year are, however, negligible.

[#] The Logicalis segment previously reported in the prior period is now being reported as two management segments, Logicalis Latin America and Logicalis International (representing the Logicalis business outside of Latin America). The ultimate Logicalis holding company, Logicalis Group Limited, and its associated costs, is now included in the Corporate segment. Comparative results have been re-presented.

Inventory provisions	(21 611)	(19 148)
	411 059	309 227

Obsolete inventory amounting to US\$0.2 million (FY22: US\$nil) was written off during the year.

During the year, inventories of US\$2.7 billion (FY22: US\$2.3 billion) were recognised as part of cost of sales. There was no inventories encumbered as at 28 February 2023 (FY22: US\$0.1 million).

Westcon International has certain inventory return arrangements with its major vendors to reduce the risk of technological obsolescence.

Westcon International's European and Middle Eastern subsidiaries have an inventory purchase financing agreement with a financing company for a specific vendor's purchases for a maximum availability of US\$593.8 million (FY22: US\$271.8 million) which currently extends payment terms to 90 days (FY22: 60 days). The agreement may be cancelled at any time with a 90-day notice by either Westcon International or the vendor. As at 28 February 2023, US\$289.3 million (FY22: US\$192.7 million) was outstanding and is included in trade payables (refer to Note 23). Purchases within 0 to 30 days are described as unfunded and are also included in trade payables (refer to Note 23). The funded availability limit of US\$593.8 million is treated as a group limit which is transferable for usage by the subsidiaries.

Westcon International's Asia-Pacific subsidiaries have an inventory purchase financing agreement for purchases with a vendor for a maximum of US\$100.0 million (FY22: US\$79.0 million) which extends payment terms from 30 days to 90 days. The agreement may be cancelled at any time with a 90-day notice by either Westcon International or the vendor. As at 28 February 2023, US\$68.6 million (FY22: US\$40.2 million) was outstanding and is included in trade payables (refer to Note 23). The facility is based on usage between three subsidiaries, namely Singapore, Indonesia and Philippines. As at 28 February 2023, the amounts in the respective subsidiaries were as follows: Singapore: US\$56.0 million (FY22: US\$33.2 million), Indonesia: US\$8.2 million (FY22: US\$3.1 million) and Philippines: US\$4.4 million (FY22: US\$3.9 million), these amounts are included in trade payables (refer to Note 23).

Westcon International's South African subsidiary has an inventory purchase financing agreement with a financing company for a specific vendor's purchases for a maximum availability of US\$26.5 million (FY22: US\$26.5 million) which extends payment terms from 30 days to 90 days. The agreement may be cancelled at any time with a 60-day notice by either Westcon International or the vendor. As at 28 February 2023, US\$8.3 million (FY22: US\$7.2 million) was outstanding and is included in trade payables (refer to Note 23).

16. Trade receivables		
Trade receivables	1 536 212	1 250 584
Expected credit loss allowance	(27 742)	(26 760)
	1 508 470	1 223 824

All trade receivables represent financial assets of the Group and are measured at amortised cost.

The carrying value of trade receivables balances approximates their fair value, therefore no fair value disclosures are provided.

In determining the recoverability of a trade receivable, the Group considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the reporting date. The Group recognises lifetime expected credit losses for trade receivables, which are estimated using a provision matrix. This matrix takes into consideration the payment profiles of trade receivables over a period of up to two years in preceding financial years, the Group's historical credit loss experience, adjusted for factors that are specific to the receivables including insurance held and other securities in place, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date. The Group considers forward-looking information such as known changes in the macroeconomic environment of customers located in a certain geography, the deterioration in the Group's relationship or discussions with a particular customer. Consideration of these factors enables an estimation of future expected credit losses to be made. Accordingly, the credit risk profile of these assets is presented based on their past due status in terms of the provision matrix. Particular focus is placed on higher value and aged trade receivables where there are other more specific risk factors. The concentration of credit risk in each of the Group's geographic segments is limited due to the customer base being large and geographically diverse. Accordingly, the directors believe that no further credit loss allowance is required.

Before accepting any new customer, use is made of local external credit agencies where necessary, to assess the potential customer's credit quality and to define credit limits by customer. Limits attributed to customers are reviewed regularly.

There is one customer in Latin America, with a gross value of US\$75.7 million, which represents approximately 5% of the total balance of trade receivables (FY22: US\$64.4 million (over 5%)). Refer to Note 31.4 for details of the concentration of risk.

The Group does not hold any collateral over its trade receivables balances. US\$617.0 million of credit insurance is held over trade receivables (FY22: US\$497.1 million).

US\$22.1 million of trade receivables are pledged as collateral against long-term interest-bearing liabilities and US\$742.5 million of trade receivables have been assigned against short-term interest-bearing liabilities (FY22: US\$19.4 million collateral against long-term interest-bearing liabilities and US\$597.6 million of trade receivables assigned against short-term interest-bearing liabilities). Refer to Note 21.1 and Note 24.

The weighted average write-off rate over recent years across all classes of trade receivables is 0.47% (FY22: 0.51%). The Group therefore has sufficient expected credit loss allowances. The weighted average write-off rate has been calculated using trade receivables write-offs as a percentage of the gross trade receivables using a simple weighting over the last three years. Please refer to "Write-off policy" in the Financial Instruments section of the accounting policies for more information on write-offs.

Management has concluded that the likelihood of material expected credit losses is low.

Notes to the Group consolidated annual financial statements

Current costs to obtain contracts	–	–
Total contract assets and contract costs	244 117	177 329
Changes during the period:		
At the beginning of the year	177 329	154 322
Amounts recognised during the year	99 849	35 523
Change in the time frame for a right to consideration to become unconditional	(9 561)	(8 473)
Impairment losses recognised	(455)	–
Translation and other movements	(23 045)	(4 043)
Total contract assets and contract costs	244 117	177 329

Amounts relating to contract assets are balances due where products have been sold and services have been performed with contractual payment terms based on performance or time-based milestones. Once these milestones have been reached, customers are invoiced and reclassified to trade receivables. The contract asset amount represents the full remaining amount due under the contract adjusted for risk of loss components.

Expected credit losses for the year was US\$0.5 million (FY22: negligible).

Stated capital is in the Rand denominated accounts of the holding company and is translated into US Dollar each year in the Group accounts in accordance with the accounting policy.

During the year ended 28 February 2023, 7 958 663 (FY22: 15 507 874) shares were issued as a scrip distribution to shareholders.

As at 28 February 2023, the Group held 3 000 000 (FY22: 549 867) shares as treasury shares. These treasury shares were set off against stated capital in FY23.

As at 28 February 2023, there were 2 263 221 shares (FY22: 2 776 908 shares) relating to the DBP and DBW (refer to Note 2). This includes 356 656 shares used for participants in the DBW in the current year (FY22: 1 332 099 shares used for the DBP) less 870 343 shares (FY22: 1 092 513) that vested in the current financial year and left the restrictions of the DBP. The DBP and DBW shares between grant and vesting (i.e. while forfeitable) are set off against stated capital.

* The amount due within 12 months is included in current portion of long-term liabilities.

The Logicalis segment previously reported in the prior period is now being reported as two management segments, Logicalis Latin America and Logicalis International (representing the Logicalis business outside of Latin America). The ultimate Logicalis holding company, Logicalis Group Limited, and its associated costs, is now included in the Corporate and Management Consulting segment. Comparative results have been re-presented.

One of the liabilities is secured by trade receivables to the value of US\$22.1 million (FY22: US\$19.4 million).

Another liability is secured by a car to the value of US\$nil (FY22: US\$0.05 million).

Logicalis International's secured loans are asset-backed loans. These loans are secured against the value of the computer equipment they relate to, which is equal to the total capital outstanding.

The carrying value of long-term liabilities approximates their fair value, therefore no fair value disclosures are provided.

The ultimate Logicalis holding company, Logicalis Group Limited, and its associated costs, is now included in the Corporate segment. Comparative results have been re-presented.

Generally, these lease contracts are entered into for fixed periods but may have extension options.

The Group's finance lease arrangements include immaterial variable lease payments.

Short-term leases (lease term of 12 months or less) and leases of low value assets are recognised as an operating expense on a straight-line basis over the term of the lease, refer to Note 3.

No residual value guarantees have been provided. The residual value risk of leased assets is not significant, because of the existence of secondary markets for these assets.

	2023 US\$'000	2022 US\$'000
23. Trade and other payables		
Trade payables	1 515 478	1 113 072
VAT/sales tax	39 458	35 959
Sundry payables and accruals*	453 577	358 198
Short-term portion of share-based payments	63 462	18 934
	2 071 975	1 526 163

* Includes accruals for products costs, commissions, customer rebates, withholding tax, payroll taxes, other taxes and a number of individually immaterial accruals and payables. The prior year has been re-presented to show aggregated comparative information.

The short-term portion of share-based payments has increased as a result of the increasing valuations of the divisions' cash-settled share-based payment plans, particularly Westcon International. US\$61.0 million of the total US\$63.5 million short-term portion of share-based payments relates to the Westcon International EAP and the Westcon International SAR scheme. The share-based payment charge in FY23 was exceptionally high and will be substantially lower in future years. Refer to Note 2.

The carrying value of trade and other payables approximates their fair value, therefore no fair value disclosures are provided. Trade accounts payable will be settled in the normal course of business.

Withholding taxes

As at 28 February 2022, Westcon International had a contingent liability in respect of a possible withholding tax obligation at its subsidiary in the Kingdom of Saudi Arabia, Westcon Saudi Company LLC ("Westcon KSA"). This relates to payments Westcon KSA has made in relation to the purchase of vendor software and maintenance services which have been resold to customers during the six years ended 31 December 2020. Westcon KSA strongly disagrees with the tax authority's assessments issued on 22 June 2021 and has submitted the necessary appeals. Following an unsuccessful attempt to utilise the alternative dispute resolution procedures, the matter is now proceeding to court. The ongoing litigation with the KSA tax authorities is likely to continue beyond the next financial year-end. A liability has been recognised for a possible liability in this regard.

As at 28 February 2023, withholding tax liabilities for the Group totalled US\$20.0 million (FY22: US\$7.3 million), which includes the liability for the Westcon KSA matter described above.

Inventory purchase financing arrangements

Logicalis International and Logicalis Latin Americas' subsidiaries have four inventory purchase financing agreements with financing companies for specified vendors' purchases which extends payment terms beyond the vendors' normal payment terms. Purchases within the normal vendor credit terms are described as unfunded and are included in trade payables:

Logicalis International[#]

- Logicalis United States: Extended payment terms begin at 60 days+ for a maximum of US\$85.0 million (FY22: US\$60.0 million). At 28 February 2023, US\$7.4 million was utilised (FY22: US\$9.3 million).
- Logicalis United States: Extended payment terms begin at 75 days+ for a maximum of US\$28.0 million (FY22: US\$48.0 million). At 28 February 2023, US\$1.3 million was utilised (FY22: US\$4.6 million).

Logicalis Latin America[#]

- Extended payment terms begin at 90 days+ for a maximum of US\$125.0 million (FY22: US\$125.0 million). At 28 February 2023, US\$13.9 million was utilised (FY22: US\$5.9 million).

Details of Westcon International's inventory purchase financing arrangements can be found in Note 15. Amounts outstanding under these arrangements are included in trade payables.

[#] The Logicalis segment previously reported in the prior period is now being reported as two management segments, Logicalis Latin America and Logicalis International (representing the Logicalis business outside of Latin America). The ultimate Logicalis holding company, Logicalis Group Limited, and its associated costs, is now included in the Corporate segment. Comparative results have been re-presented.

Unsecured loans

One of Logicalis International's subsidiaries has entered into various loans with a lender, between US\$0.3 million and US\$3.0 million, bearing interest between 3.00% and 3.70%. These liabilities are repayable between March and December 2023. At 28 February 2023, US\$3.7 million was outstanding (FY22: US\$1.9 million).

One of Logicalis International's subsidiaries has entered into various loans with various lenders for US\$1.3 million bearing interest at 3.75%. This liability is repayable in December 2023. At 28 February 2023, US\$1.3 million was outstanding (FY22: US\$nil).

One of Logicalis Latin America's subsidiaries has entered into various forfaiting arrangements with a lender, between US\$0.4 million and US\$0.5 million each, bearing interest at 6.50%. These liabilities are repayable in June 2023. At 28 February 2023, US\$2.1 million (FY22: US\$nil) was outstanding.

Secured loans

Some of Westcon International's subsidiaries have entered into various arrangements with a lender, up to a maximum of US\$414.4 million (EUR390.6 million) (FY22: US\$435.0 million (EUR390.6 million)), bearing interest at three-month EURIBOR + 0.9%, three-month US LIBOR + 0.9%, CHF SARON +0.9% and three-month GBP TSRR + 0.9%. As at 28 February 2023, there were restrictions of US\$nil (FY22: US\$23.9 million) against the gross available facilities. These are rolling facilities and at 28 February 2023, US\$269.1 million (FY22: US\$140.9 million) was outstanding. The net availability on this facility is US\$145.3 million (FY22: US\$270.2 million).

One of Westcon International's subsidiaries has entered into various arrangements with a lender of US\$120.0 million, bearing interest at 1.50% above bank base rate. The maximum facility is US\$120.0 million. As at 28 February 2023, there were restrictions of US\$8.6 million (FY22: US\$22.1 million). These are rolling facilities and at 28 February 2023, US\$81.6 million (FY22: US\$79.9 million) was outstanding. The net availability of this facility, after taking into account restrictions and the amount outstanding, was US\$29.8 million (FY22: US\$nil).

One of Westcon International's subsidiaries has entered into various arrangements with a lender of US\$120.0 million (FY22: US\$65.7 million), bearing interest at 3.25%. The maximum facility is US\$120.0 million. These are rolling facilities and at 28 February 2023, US\$nil (FY22: US\$12.9 million) was outstanding. The net availability of this facility, after taking into account restrictions and the amount outstanding, was US\$105.0 million (FY22: US\$52.8 million).

One of Logicalis Latin America's subsidiaries has entered into a funding arrangement with a lender, between US\$0.01 million and US\$0.4 million each, bearing interest between 15.00% and 16.20%. These loans are repayable between March and April 2023. At 28 February 2023, US\$1.9 million (FY22: US\$1.4 million) was outstanding. The liability is secured by invoices to the value of US\$1.9 million (FY22: US\$1.4 million).

[#] The Logicalis segment previously reported in the prior period is now being reported as two management segments, Logicalis Latin America and Logicalis International (representing the Logicalis business outside of Latin America). The ultimate Logicalis holding company, Logicalis Group Limited, and its associated costs, is now included in the Corporate segment. Comparative results have been re-presented.

25. Acquisition-related liabilities		
Long-term portion	1 061	4 056
Short-term portion	2 803	39
	3 864	4 095

Acquisition-related liabilities represent purchase considerations owing in respect of acquisitions. The purchase considerations are to be settled with the vendors in cash or shares on achievement of agreed performance criteria. The amounts owing are interest-free.

Acquisition-related liabilities are classified as financial liabilities designated at fair value through profit or loss. They are classified as level 3 financial instruments, whose fair value measurements are derived from inputs that are unobservable for the liability. Movements are presented in the statement of comprehensive income as acquisition-related fair value adjustments.

Logicalis International

On 30 June 2019, Logicalis International completed the acquisition of Mars Investment Holdings (Pty) Ltd ("Mars Technologies"), a South African IT services business. The consideration payable comprised an initial amount of ZAR4.0 million (US\$0.3 million) with a deferred consideration payable of ZAR1.2 million (US\$0.1 million) due within three years, provided certain conditions are met. These conditions were not met and the outstanding amount of R0.6 million (US\$0.04 million) has been taken to the statement of comprehensive income.

On 1 June 2021, Logicalis Networks GmbH, acquired Siticom GmbH a leading 5G integrator based in Germany, for a consideration of EUR6.2 million (US\$7.4 million). The acquisition gives Logicalis a platform to establish a pan-European centre-of-expertise in developing advanced networking integration capabilities around 5G and evolving cloud orchestrated network interoperability. There are two options for Logicalis to repurchase this minority stake for an agreed amount of up to EUR8.8 million (approximately US\$9.3 million) over two years, where after Logicalis will own 100% of Siticom. A potential maximum EUR1.0 million (approximately US\$1.1 million) earn-out liability, subject to certain performance conditions, is included in the acquisition-related liability and payable in FY24. The amount outstanding as at year-end is EUR3.6 million (US\$3.9 million).

On 1 March 2022, Logicalis acquired the remaining 30% stake in Logicalis Portugal S.A., from the non-controlling parties for a consideration of US\$4.4 million. The consideration payable was deferred and paid on 2 September 2022.

Restructuring provisions include expected costs for certain restructuring activities of the Group where the details have already been announced to affected parties. The timing of restructuring provisions is fairly certain and is expected to be settled within 12 months. There is minimal uncertainty with regards to the amounts but some provisions are subject to final agreement.

Legal claims and costs are provisions for anticipated settlements including costs for various legal matters that the Group is defending. There is uncertainty regarding the timing of legal claims as the finalisation of certain lawsuits cannot be determined. There is some uncertainty regarding the amounts but best estimates have been provided by both inhouse and external legal counsel of the Group.

VAT/Sales tax provisions relate to provisions for potential taxes in foreign jurisdictions and external tax consultants are being utilised to investigate these exposures.

Pension obligations relate to a pension scheme operated by Logicalis International and Logicalis Latin America, for which full defined benefit pension disclosure has not been disclosed due to its immaterial value. The timing of pension obligations is uncertain and is determined by external actuaries. The amounts of pension obligations are determined by external actuaries. The uncertainty relates to assumptions include discount rates, retirement ages and estimates of growth in retirement funding.

Dilapidations and asset retirement obligations relate to provisions where the Group is expected to restore certain leased property and assets to their original condition. The timing of some dilapidations/asset retirement obligations is fairly certain and based on the lease agreement end dates but there is uncertainty regarding one dilapidation obligation. There is uncertainty with regards to the amount as they are subject to the properties' conditions, the position and behaviour of the landlord and the local rates prevailing at the time.

Onerous contracts consist of projects in progress in which the costs of meeting the obligations under the contract exceed the economic benefits expected to be received. Some uncertainty exists over the timing and amount of onerous contracts. These have been determined using management's best estimate of the duration and costs to complete the relevant projects.

Other provisions include asset vendor credits, employee settlement claims and other provisions which are individually insignificant.

The ultimate Logicalis holding company, Logicalis Group Limited, and its associated costs, is now included in the Corporate segment. Comparative results have been re-presented.

29. Contingent liabilities, guarantees and litigation

Datatec and its subsidiaries have issued, in the ordinary course of business, guarantees and letters of comfort to third parties in respect of finance and trading facilities, performance commitments to customers and lease commitments.

At 28 February 2022, Logicalis Latin America reported a contingent liability in respect of a possible tax liability at its subsidiary in Brazil. This related to an April 2012 tax assessment issued by a Brazilian state tax authority stating that PromonLogicalis should have paid a higher rate of state tax on its equipment sales up to October 2010 than actually paid. During this year, a favourable administrative court ruling was obtained and the state tax authority confirmed that the tax assessment was cancelled. This decision is final, and no further action is required. This is therefore no longer considered to be a contingent liability.

Logicalis International has a contingent tax liability at its Indonesian subsidiary PT. Packet Systems Indonesia. The Indonesian Tax Authority has raised withholding tax assessments in relation to purchases of vendor software and warranties which have been resold to customers. Withholding tax notices have been issued for each month in the calendar year 2016 and the first two months of the calendar year 2018. Objections have been filed by the company in respect of these periods with the Indonesian Tax Court.

The Group has certain contingent liabilities resulting from litigation and claims. Management believes, after taking legal advice where appropriate on the probable outcome of these contingencies, that none of these contingencies will materially affect the financial position or the results of operations of the Group.

Notes to the Group consolidated annual financial statements

continued

for the year ended 28 February 2023

30. Related-party transactions

Sales and purchases between Group companies are concluded on normal commercial terms in the ordinary course of business. For the year ended 28 February 2023, the inter-group sales of goods and provision of services amounted to US\$71.1 million (FY22: US\$53.4 million), which are eliminated on consolidation. Balances and transactions between the Company and its subsidiaries, which are related parties of the Company, have been eliminated on consolidation and are not disclosed in this note.

The Group also transacted with its associate Esource Resources, LLC which was disposed of during the current year (refer to Note 12.1). During the year the Group made sales totalling US\$74.9 million (FY22: US\$49.0 million) and received management fees of US\$0.3 million (FY22: US\$0.3 million) from this entity. No amounts due to or from this entity is disclosed as it no longer meets the definition of a related party at 28 February 2023.

	2023 US\$'000	2022 US\$'000
Key management personnel compensation:		
Short-term employee benefits	8 257	8 541
Post-employment benefits	284	378
Share-based payments	14 181	451
	22 721	9 370

Key management personnel compensation comprises the compensation of 12 (FY22: 12) senior executives of the Group's divisions. The remuneration of Datatec's executive directors is included in Note 3 and in the tables on the following page. There were no other prescribed officers in the Company.

Deferred Bonus Warrants ("DBW") – FY23

Under the terms of the new DBW plan, the executive directors must defer a minimum of 20% of their bonus and may elect to defer up to 50%. Datatec shares will be purchased with the deferred bonus and the Company will co-invest the same value into SARs. The Company's co-investment in the SARs is not disclosed in the LTI element shown in the directors' remuneration table.

Jens Montanana elected to defer 24.2% of his FY22 bonus, being US\$623 798, into the DBW to purchase forfeitable shares in June 2022. The Company co-invested the same amount of forfeitable shares and the Company's co-investment is included in the FY22 LTI element shown in the directors' remuneration table.

Ivan Dittrich elected to defer 20% of his FY22 bonus, being US\$123 579 into the DBW to purchase forfeitable shares in June 2022. The Company co-invested the same amount of forfeitable shares and the Company's co-investment is included in the FY22 LTI element shown in the directors' remuneration table.

30. Related-party transactions (continued)

Westcon International Equity Appreciation Plan ("WI – EAP")

During FY19, Datatec executive directors received one-off awards of units in the Westcon International EAP as follows:

Westcon EAP	Grant date (FY19)	Number of awards	Fair value of awards on grant US\$'000	Grant fair value as a % of base pay %	Fair value of awards at 28 February 2023*		Fair value of awards at 28 February 2022 US\$'000
					Pre-cap US\$'000	Capped US\$'000	
JP Montanana	14-Mar-18	30 000	30 000	–	8 614	6 600	2 605
IP Dittrich	14-Mar-18	15 000	15 000	–	4 307	3 300	1 302

* The fair value of the EAP units as at 28 February 2023 was 287.15 US cents, however this value is capped at 224.49 US cents per unit in terms of additional restrictions imposed by the Datatec Group Remuneration Committee during FY23.

In addition to the above, in FY19 Jens Montanana received an award of 10 000 units in the WI – EAP conditional on a sale of Westcon International for in excess of US\$300 million being achieved. As no sale of Westcon International has taken place during FY23 this additional grant of 10 000 units has now lapsed.

Share Appreciation Rights Scheme ("SARS")

Directors holding office during FY23 held the following share appreciation rights under the rules of the SARS which was discontinued in 2017:

SARS	Grant date	Number of awards – movement in FY23			Fair value of awards	
		28 February 2022 US\$'000	Exercised US\$'000	28 February 2023 US\$'000	On exercise US\$'000	28 February 2022 US\$'000
JP Montanana	14-May-15	714 879	(714 879)	–	507	280

Directors' interests in shares

Directors' interests in the ordinary shares of the Company at 28 February 2023 and 28 February 2022 are shown below:

	At 28 February 2023				At 28 February 2022			
	Direct	Indirect	Associates	Total	Direct	Indirect	Associates	Total
Executive directors								
JP Montanana	500 000	31 332 429	–	31 832 429	500 000	30 141 893	–	30 641 893
IP Dittrich	969 224	–	–	969 224	822 905	–	–	822 905
Non-executive directors								
SJ Davidson	–	–	11 001	11 001	–	–	11 001	11 001
JF McCartney	–	1 278 877	–	1 278 877	–	1 278 877	–	1 278 877
	1 469 224	32 611 306	11 001	34 091 531	1 322 905	31 420 770	11 001	32 754 676

Of Mr Montanana's shareholding, 1 000 000 shares have been pledged as security for certain equity funding transactions.

Directors' interests in ordinary shares of the Company shown above are unchanged from 28 February 2023 to the date of this report. Non-executive directors not shown in the above tables did not hold any Datatec shares in either year. Shares held by executive directors in relation to the DBP and DBW (which are forfeited if they resign from the Company) are included in the above table.

31. Financial instruments

31.1 Financial risk management objectives

The management of financial risks relating to the operations of the Group is in line with the Group's decentralised business model with oversight through divisional audit, risk and compliance committee meetings. This is achieved through the use of internal risk analyses which analyse exposures by likelihood and magnitude of risks. These risks include market risk (including currency and interest rate risk), credit risk and liquidity risk.

The Group seeks to minimise the effects of these risks by matching assets and liabilities as far as possible or using derivative financial instruments to hedge these risk exposures. The use of financial derivatives is governed by the Group's internal policies applicable at subsidiary level. The Group does not enter into or trade in financial instruments, including derivative financial instruments, for speculative purposes.

When appropriate, management reports regularly to the Group's Audit, Risk and Compliance Committee.

The Group's financial assets and liabilities consist mainly of net cash resources, accounts receivable, accounts payable, borrowings and leases.

31.2 Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through optimisation of the debt and equity balance. The Group's overall strategy with respect to the debt and equity balance remains unchanged from FY22, with particular focus placed on the management of overall net debt. The capital structure of the Group consists of debt, which includes the borrowings disclosed in Notes 21 and 24, bank overdrafts (Note 28), leases disclosed in Note 22, net cash resources (Note 36) and equity attributable to equity holders of the parent, comprising issued capital (Note 20), reserves and retained earnings.

Gearing ratio

The Group's capital structure is reviewed on at least a semi-annual basis. As part of this review, the Board considers the cost of capital and the risks associated with each class of capital.

The gearing ratio at the year-end was as follows:

	2023 US\$'000	2022 US\$'000
Long-term interest-bearing liabilities	41 624	56 440
Short-term interest-bearing liabilities	380 862	266 617
Lease liabilities – long-term	45 412	61 523
Lease liabilities – short-term	27 005	32 870
Cash resources	(584 683)	(453 926)
Bank overdrafts	196 362	166 559
Net debt	106 582	130 083
Total equity attributable to the parent	472 009	563 430
Gearing ratio: debt-to-equity ratio	23%	23%
31.3 Categories of financial instruments		
Financial assets		
Financial assets at fair value through profit or loss	5 080	2 153
Financial assets at amortised cost	2 252 139	1 800 137
Financial liabilities		
Financial liabilities at fair value through profit or loss	8 802	2 052
Financial liabilities at amortised cost	2 573 353	1 920 832

There were no transfers between level 1 and level 2 during the year for recurring fair value measurements.

Notes to the Group consolidated annual financial statements

continued

for the year ended 28 February 2023

31. Financial instruments (continued)

31.4 Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluations are performed on the financial condition of accounts receivable and, where possible and appropriate, credit insurance cover is purchased. The Group does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics.

The Group defines counterparties as having similar characteristics if they are related entities.

There is one customer in Latin America, with a gross value of US\$75.7 million, which represents over 5% of the total balance of trade receivables (FY22: US\$64.4 million). There has not been any change in the credit quality of this receivable and the amount is considered recoverable. The majority of the balance receivable is current and this receivable therefore presents a low credit risk. The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with appropriate credit ratings assigned by international or recognised credit rating agencies.

Concentration risk is monitored and addressed by management on an ongoing basis.

The carrying amount of financial assets recorded in the financial statements (see Note 31.3), which is net of impairment losses, represents the Group's maximum exposure to credit risk without taking account of the value of any collateral obtained. Further information on the concentration of credit risk is detailed in the following table:

	Level	North America US\$'000	Latin America US\$'000	Europe US\$'000	Asia-Pacific US\$'000	MEA US\$'000	Total US\$'000

The carrying values of loans granted to third parties, other long-term assets due and sundry receivables balances approximates their fair value, therefore no fair value disclosures are provided.

The internal risk rating of loans granted to third parties and other long-term assets due and other receivables is “low credit risk” and these financial assets are considered to be performing.

The external credit ratings of the Group's main banks range from lower medium grade to high grade. The external credit risk ratings of bonds is B- stable. There have been no defaults by the Angolan government on bond maturity in the past and the National Bank of Angola has been settling bonds as they fall due.

When measuring expected credit losses, the Group uses publicly available, reasonable forward-looking information. Expected credit losses are based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

For trade receivables, finance lease receivables and contract assets, the Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime expected credit losses. The Group determines the expected credit losses on these items by using a provision matrix, which takes into consideration the payment profiles of these receivables over a period of 12 months in preceding financial years, the Group's historical credit loss experience, adjusted for factors that are specific to the receivables, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date. The Group considers forward-looking information such as known changes in the macroeconomic environment of customers located in a certain geography, the deterioration in the Group's relationship or discussions with a particular customer. Consideration of these factors enables an estimation of future expected credit losses to be made. Accordingly, the credit risk profile of these assets is presented based on their past due status in terms of the provision matrix. A default on a receivable occurs when the receivable fails to make contractual payments when they fall due.

Notes to the Group consolidated annual financial statements

continued

for the year ended 28 February 2023

31. Financial instruments (continued)

31.4 Credit risk management (continued)

The Group's trade receivables share similar risk characteristics by nature. The default percentages on outstanding trade receivables are determined based on the geographical regions of the trade receivables.

Management has concluded that the likelihood of material expected credit losses is low.

Expected credit losses for finance lease receivables and contract assets are negligible. Note 16 includes further details on the loss allowance for trade receivables. There has been no change in the estimation techniques or significant assumptions made during the year in assessing the credit losses for these financial assets.

US\$22.1 million of trade receivables are pledged as collateral against long-term interest-bearing liabilities and US\$742.5 million of trade receivables have been assigned against short-term interest-bearing liabilities (FY22: US\$19.4 million collateral against long-term interest-bearing liabilities and US\$597.6 million of trade receivables assigned against short-term interest-bearing liabilities). Refer to Note 21.1 and Note 24.

There has not been any deterioration or changes in the collateral policies during the year, nor are there any financial instruments for which a loss allowance has not been recognised because of the collateral. The Group does not hold any collateral over its trade receivables balances.

All significant customers are vetted by an external credit agency where possible. In certain instances, customers with low credit ratings are investigated further and requests for collateral are made. Credit guarantees are sought for receivables over a certain credit limit. The Group makes use of credit insurance in many of its geographies. US\$617.0 million of credit insurance is held over trade receivables (FY22: US\$497.1 million).

No material expected credit losses have been recognised for any financial assets, other than trade receivables. The Group does not consider there to be any significant credit risk, which has not been adequately provided for at the reporting date.

Furthermore, there has been no material change to the Group's exposure to credit risks or the manner in which it manages and measures the risk.

31.5 Liquidity risk management

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. Ultimate responsibility for liquidity risk management rests with the Board, which has built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and borrowing facilities and by continuously monitoring forecast and actual cash flows.

The Group is dependent on its bank overdrafts and trade finance facilities to operate. These facilities generally consist of either a fixed term or fixed period and may be repayable on demand and are secured against the assets of the company to which the facility is made available. These facilities contain certain covenants including financial covenants such as minimum liquidity, maximum leverage and pre-tax earnings coverage. In certain circumstances, if these covenants are violated and a waiver is not obtained for such violation, this may, among other things, mean that the facility may be repayable on demand. Included in Note 28 is a listing of additional undrawn facilities that the Group has at its disposal to further reduce liquidity risk.

Logicalis International is supported by a corporate facility of US\$135.0 million, covering all its operations comprising an acquisition facility and a rolling credit facility to fund working capital requirements. Logicalis, Inc. a subsidiary operating in the United States, has a receivables purchase agreement. This agreement qualifies as a transfer of risks and rewards to the buyer and therefore permits the company to derecognise the relating accounts receivable. There is a finance cost to this company which is based on the individual customer's credit score and credit term of the customer invoices selected for sale. There is an agreed list of customers, each with an individual credit limit which, when combined totals US\$200 million. As at 28 February 2023, US\$10.5 million had been utilised.

Logicalis Latin America is supported separately via a number of uncommitted overdraft facilities and short-term lending arrangements and is predominantly sourced via Tier 1 banks in Brazil as it is the largest territory in the region.

Westcon International has an invoice assignment facility of EUR390.6 million for its European subsidiaries, as well as an extended payables facility of US\$105.0 million. Westcon International has a securitisation facility of US\$120.0 million for its Asia-Pacific facilities. In addition, Westcon International utilises accounts receivable facilities in the Middle East (US\$15.0 million) and Indonesia (US\$11.0 million) as well as overdraft facilities in Europe (EUR4.0 million) and Africa Asia-Pacific facilities. In addition, Westcon International utilises accounts receivable facilities in the Middle East (US\$1.0 million), a securitisation facility in South Africa (ZAR250.0 million) and a line of credit in Singapore (US\$1.2 million) to finance the business.

The Group continues to monitor the funding needs of its individual operations and works closely with various financial institutions to ensure adequate liquidity.

All externally imposed covenants have been complied with during the financial year. The Group has performed covenant projections for the next 12 months to confirm that banking covenants are expected to be met.

31. Financial instruments (continued)

31.5 Liquidity risk management (continued)

The following tables detail the Group's remaining contractual maturity for its non-derivative and derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.

	Level US\$'000	0 – 1 year US\$'000	1 – 2 years US\$'000	2 – 5 years US\$'000	After 5 years US\$'000	Total US\$'000

* Other payables per Note 23 of US\$556.5 million (FY22: US\$413.1 million) less VAT/sales tax of US\$39.5 million (FY22: US\$36.0 million), short-term portion of share-based payments of US\$63.5 million (FY22: US\$18.9 million), sundry accruals and payables which are not financial liabilities of US\$147.0 million (FY22: US\$132.4 million), and derivative financial liabilities which are disclosed separately of US\$8.8 million (FY22: US\$2.0 million).

The Group continues to actively monitor its exposure to liquidity risks and the manner in which it manages and measures the risk, particularly the inherent counterparty risk which may arise through the Group's dealings with financial institutions.

Notes to the Group consolidated annual financial statements

continued

for the year ended 28 February 2023

31. Financial instruments (continued)

31.6 Market risk management

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates (see Note 31.7) and interest rates (see Note 31.8). The Group enters into a variety of derivative financial instruments to manage its exposure to foreign currency and interest rate risk, including:

- forward foreign exchange contracts ("FECs") to hedge the exchange rate risk arising on transactions denominated in foreign currency;
- a zero cost collar which offers protection against adverse currency moves beyond a certain level; and
- interest rate swaps to mitigate the risk of rising interest rates.

There has been no material change to the Group's exposure to market risks or the manner in which it manages and measures the risk.

31.7 Foreign exchange risk management

The Group operates in the global business environment and undertakes many transactions denominated in foreign currencies which exposes it to the risk of fluctuating exchange rates. The day-to-day management of foreign currency exchange risk is performed on a decentralised basis, within approved policy parameters and through the use of derivative instruments. These instruments primarily comprise FECs and zero cost collars. FECs require a future purchase or sale of foreign currency at a specified price. The Group does not trade in FECs for speculative purposes.

Fluctuations in exchange rates also affect the translation of the profits of subsidiaries whose functional currency is not the US Dollar. The most significant other currencies in which the Group trades are the Pound Sterling, the Euro, the Brazilian Real, the Australian Dollar and the South African Rand.

31.7.1 Foreign currency exposure analysis

The Group's operating companies operate in the global business environment and undertakes many transactions denominated in foreign currencies. Westcon International is exposed to the risk of fluctuating exchange rates and seeks to actively manage this exposure, within approved policy parameters and through the use of derivative instruments. These instruments primarily comprise forward exchange contracts. Forward exchange contracts require a future purchase or sale of foreign currency at a specified price.

The Group's operating companies have financial assets and liabilities that are denominated in multiple currencies, in many instances currencies other than their functional currencies. Differences arising from the translation of these foreign currency denominated financial assets and liabilities are recognised in the statement of comprehensive income as foreign exchange gains and/or losses.

To determine the exposures and movements referenced below, financial assets and liabilities are split between items denominated in functional currency and items not denominated in functional currency across the different entities and regions across the Group. The net balance of items that are not denominated in functional currency and that are not hedged represents the net foreign exchange exposure in each division. The applicable change that represents management's assessment of the reasonably possible change in foreign exchange rates, is 10%. Foreign exchange rates in the Group vary due to the large number of geographic locations and fluctuate more in certain regions due to economic uncertainty, particularly in emerging markets. Therefore, 10% has been chosen for the sensitivity analyses as it represents a reasonable average year-on-year movement in the exchange rates across the various regions in the Group.

Westcon International

Datatec management has performed a review of foreign currency exposures of the financial assets and liabilities of Westcon International. In addition, the foreign exchange gains and losses in the statement of comprehensive income were reviewed to identify the regions with potential exposures. Where no natural hedges occur, Westcon International is adequately hedged in most regions. The total exposure is US\$54.5 million (FY22: US\$7.8 million). A 10% movement will result in a US\$5.5 million (FY22: US\$0.8 million) movement in the statement of comprehensive income. Westcon International's most significant exposures are to the US Dollar, British Pound and Euro.

Logicalis International

Datatec management has performed a review of foreign currency exposures of the financial assets and liabilities of Logicalis. In addition the foreign exchange gains and losses in the statement of comprehensive income were reviewed to identify the regions with potential exposures. The total exposure is US\$36.1 million (FY22: US\$27.4 million). A 10% movement will result in a US\$3.6 million movement (FY22: US\$2.7 million) in the statement of comprehensive income. Logicalis International's largest exposures are to the US Dollar and Euro.

31. Financial instruments (continued)

31.7 Foreign exchange risk management (continued)

31.7.1 Foreign currency exposure analysis (continued)

Logicalis Latin America

Datatec management has performed a review of foreign currency exposures of the financial assets and liabilities of Logicalis. In addition the foreign exchange gains and losses in the statement of comprehensive income were reviewed to identify the regions with potential exposures. The total exposure is US\$56.1 million (FY22: US\$41.1 million). A 10% movement will result in a US\$5.6 million movement (FY22: US\$4.1 million) in the statement of comprehensive income. Logicalis Latin America's largest exposures are to the US Dollar and Brazilian Real.

Corporate and Management Consulting

Datatec management has performed a review of foreign currency exposures of the financial assets and liabilities of the Corporate and Management Consulting segment. The total exposure, mostly to the US Dollar and British Pound, is US\$18.5 million (FY22: US\$24.7 million). A 10% movement will result in a US\$1.9 million movement (FY22: US\$2.5 million) in the statement of comprehensive income.

31.7.2 Forward foreign exchange contracts

It is the policy of the Group to enter into FECs to cover certain specific foreign currency payments and receipts based on the known exposure generated. The Group also enters into FECs to manage the risk associated with anticipated sales and purchase transactions, with FECs ranging up to approximately six months and with cover up to 100% of the anticipated exposure generated. Obligations under open FEC contracts are detailed in Notes 31.4 and 31.5, as derivative financial assets and derivative financial liabilities respectively.

31.8 Interest rate risk management

The Group is exposed to interest rate risk as entities in the Group borrow funds at both fixed and floating interest rates. The risk is managed by the Group maintaining an appropriate mix between fixed and floating rate borrowings. The interest rate characteristics of new borrowings and the refinancing of existing borrowings are positioned according to expected movements in interest rates and defined risk appetite (see Note 31.5).

Interest rate sensitivity analyses

The analyses below sets out the sensitivity of the Group's variable rate financial assets and liabilities to movements in the applicable interest rates based on an average outstanding asset or liability exposed to variable interest rates calculated for the year across the various entities and regions across the Group. The applicable increase or decrease that represents management's assessment of the reasonably possible change in interest rates, is a 10% increase in the applicable variable interest rates. Interest rates in the Group vary due to the large number of geographic locations. Interest rates fluctuate more in certain regions due to economic uncertainty, particularly in emerging markets. Therefore, 10% has therefore been chosen for the sensitivity analyses as it represents a reasonable average expected change in interest rates across the various regions in the Group.

Datatec Group

- profit for the year ended 28 February 2023 would decrease by a net amount of US\$2.73 million (FY22: US\$1.40 million decrease)

Westcon International

- profit for the year ended 28 February 2023 would decrease by a net amount of US\$1.72 million (FY22: US\$0.87 million decrease)

Logicalis International

- profit for the year ended 28 February 2023 would decrease by a net amount of US\$0.72 million (FY22: US\$0.24 million decrease)

Logicalis Latin America

- profit for the year ended 28 February 2023 would decrease by a net amount of US\$0.34 million (FY22: US\$0.28 million decrease)

Corporate and Management Consulting

- profit for the year ended 28 February 2023 would increase by a net amount of US\$0.05 million (FY22: US\$0.01 decrease)

Total bank overdrafts	28	(196 362)	(166 559)

37. Segmental report

For management's internal purposes, the Group is currently organised into four operating divisions which are the basis on which the Group reports its primary segmental information.

Principal activities are as follows:

- Westcon International: Value-added technology distributor of industry-leading solutions. Provides class-leading cyber security, network infrastructure, unified collaboration products, data centre solutions, channel support services and financing/leasing solutions for ICT customers;
- Logicalis International and Logicalis Latin America: International solutions providers of digital services; and
- Corporate and Management Consulting: Management Consulting provides strategic, trusted advisory, modelling and market intelligence services to the TMT industries. Analysys Mason was disposed of during the year and its results are disclosed as discontinued operations. Corporate includes Group head office companies and Group consolidation adjustments.

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors that make strategic decisions.

The segmental report has been updated in the current and prior year to reflect significant expenses identified in EBITDA. The regional analysis of EBITDA is no longer presented. Following the change to management reporting segments, EBITDA is now only reviewed per operating division by the chief operating decision maker.

During FY23 and FY22, there were no customers that individually accounted for over 10% of the Group's revenue. There is one customer in Logicalis Latin America which accounts for over 10% of Logicalis Latin America's revenue (US\$180.7 million).

* Includes software as a service revenues.

The Logicalis segment previously reported in the prior period is now being reported as two management segments, Logicalis Latin America and Logicalis International (representing the Logicalis business outside of Latin America). The ultimate Logicalis holding company, Logicalis Group Limited, and its associated costs, is now included in the Corporate segment. Comparative results have been re-presented.

Vendor resold services in Logicalis is included in revenue from annuity services as the revenue stream is directly related to the generation of recurring revenue.

The Logicalis segment previously reported in the prior period is now being reported as two management segments, Logicalis Latin America and Logicalis International (representing the Logicalis business outside of Latin America). The ultimate Logicalis holding company, Logicalis Group Limited, and its associated costs, is now included in the Corporate segment. Comparative results have been re-presented.

* Includes both permanent employees and contractors.

The above acquisitions represent the subsidiaries acquired during the year.

38. Acquisitions of subsidiaries (continued)

Management Consulting (discontinued operations)

On 3 May 2022, Access Markets International (AMI) Partners, Inc. a 100% owned subsidiary of Analysys Mason Limited acquired 100% of the membership interests in Northern Sky Research, LLC ("NSR"), for a consideration of US\$10.9 million. NSR is based in the US and specialises in research and consulting services to the space and satellite sector.

NSR was disposed of as part of the sale of Analysys Mason Limited in September 2022.

Logicalis International

On 4 August 2022, Logicalis International acquired 100% shareholding of Q Associates Limited ("Q Associates"), for a consideration of US\$6.7 million. Q Associates is a leading provider of IT consultancy and advisory services around data management, data protection, compliance and information security.

The acquisition adds complementary capabilities to Logicalis UK and Ireland's core expertise in digital infrastructure, networking and cloud, enabling a broader portfolio of best-in-class solutions and services for customers operating in the digital-enabled world. Q Associates provides technology solutions to UK universities and research councils, government security services and home office departments and commercial clients across major industry sectors, including finance, legal, transportation and energy. Q Associates holds advanced technical accreditations with many of the world's leading technology vendors, including Microsoft, NetApp, Oracle, IBM and Rubrik.

As a result of these acquisitions, goodwill and other intangible assets increased provisionally by US\$18.7 million and US\$3.5 million respectively.

The revenue and EBITDA loss from continuing operations included from these acquisitions in FY23 were US\$12.6 million and US\$0.8 million, respectively. Loss after tax included from these acquisitions was US\$1.3 million.

The revenue and EBITDA from discontinued operations included from these acquisitions in FY23 were US\$1.6 million and US\$0.4 million, respectively. Profit after tax included from these acquisitions was US\$0.4 million.

Had the acquisition dates been 1 March 2022, the revenue and EBITDA loss from continuing operations would have been approximately US\$21.6 million and US\$1.3 million, respectively. Loss after tax would have been approximately US\$2.2 million.

Had the acquisition dates been 1 March 2022, the revenue and EBITDA from discontinued operations would have been approximately US\$2.3 million and US\$0.6 million, respectively. Profit after tax would have been approximately US\$0.6 million.

The initial amounts of acquisition accounting for all of the acquisitions have been finalised at the date of the finalisation of these consolidated financial statements.

None of the goodwill raised on the aforementioned acquisitions will be deductible for tax purposes.

All trade receivables acquired are measured at amortised cost. The carrying value of trade receivables balances approximates its fair value, therefore no fair value disclosures are provided.

All identifiable intangible assets have been recognised and accounted for at fair value.

Non-controlling interests in the acquiree are initially measured at the non-controlling shareholders' proportion of the net identifiable assets acquired and liabilities and contingent liabilities assumed.

Acquisition-related costs, included in operating costs, for the year amounted to US\$0.1 million (FY22: US\$0.9 million).

Acquisition-related costs, included in discontinued operations, for the year amounted to US\$0.1 million (FY22: US\$nil million).

There are no other material non-controlling interests within the Group.

40. Discontinued operations

A disposal group qualifies as a discontinued operation if it is a component of the Group that either has been disposed of, or is classified as held for sale, and:

- represents a separate major line of business or geographical area of operations; or
- is part of a single coordinated plan to dispose of a separate major line of business or geographical area of operations.

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss from discontinued operations in the statement of profit or loss. The prior period is also re-presented for all operations that have been discontinued by the end of the reporting period.

40.1 Contribution of discontinued operations

On 27 September 2022, Datatec completed the sale of its management consultancy division, Analysys Mason with the disposal of its effective 71.2% shareholding. The sale is in terms of a process initiated by the Board pursuant to its Strategic Review in order to unlock shareholder value. During the year, Analysys Mason was classified as a disposal group in terms of IFRS 5.

The contribution of discontinued operations included in the Group's results until disposal is as follows:

	2023 US\$'000	2022 US\$'000
Revenue	51 751	90 384
Cost of sales	(30 060)	(49 756)

Notes to the Group consolidated annual financial statements

continued

for the year ended 28 February 2023

41. Subsequent events

Increased shareholding in subsidiaries

Effective 3 March 2023, Logicalis Spain, S.L., a wholly owned subsidiary of Logicalis International Limited, increased its shareholding in Audea Seguridad de la Informacion, S.L. by 2.3% to 72.3%. Effective 21 April 2023, Logicalis Spain, S.L. increased its shareholding in Audea Seguridad de la Informacion, S.L. by 13.85% to 86.15%.

Dividend declared

On 23 May 2023, the Board declared a final dividend for FY23 of 195 ZAR cents per share, equivalent to 10 US cents per share or in total US\$22.5 million, with the customary form of a cash dividend with a scrip distribution alternative.

Management incentive plan – Logicalis International

Logicalis International implemented the Logicalis International Long Term Incentive Plan ("LILTIP") in March 2023 following a corporate restructuring.

A fixed return instrument was issued to Datatec PLC in addition to its ordinary equity. The Logicalis International Executive Leadership team, being 18 individuals, invested 5.4% of the ordinary equity in the new structure with the same rights as Datatec's ordinary shares in Logicalis International. A further 0.9% of the ordinary equity is available for purchase by management to allow for changes to the management team up to a total limit of 6.3%.

42. Going concern

The Board has satisfied itself that the Group has adequate resources to continue in operation for the foreseeable future. The Group's financial statements have accordingly been prepared on a going concern basis.

The Group currently has no need to undertake a capital restructuring and key executive management is in place. The Board is not aware of any material non-compliance with statutory or regulatory requirements and there are no pending legal proceedings other than in the normal course of business.

Solvency

The Board determined that the Group is solvent, as at 28 February 2023, with net assets of US\$472.0 million (FY22: US\$563.4 million) and tangible net assets of US\$178.8 million (FY22: US\$243.3 million). The Group is expected to remain solvent over the next 12 months.

Liquidity

Financing facilities entered into in recent years, as well as the strong operating cash flow generated during FY23, significantly enhanced the Group's liquidity position.

The Group performed covenant projections to confirm that banking covenants are unlikely to be breached for the next 12 months. Trade receivables and inventory are of a sound quality and adequate provisions have been recorded.

The Group's forecasts and projections of its current and expected financial performance show that the Group is expected to operate within the levels of its banking facilities for at least 12 months from the authorisation date of these annual financial statements.

The Group's projections show that the Group has sufficient capital and liquidity to continue to meet its short-term obligations and, as a result, it is appropriate to prepare these annual financial statements on a going concern basis.

43. Interest rate benchmark reform

The Financial Stability Board has initiated a fundamental review and reform of the major interest rate benchmarks used globally by financial market participants. This review seeks to replace existing interbank offered rates ("IBORs") with alternative risk-free rates ("ARRs") to improve market efficiency and mitigate systemic risk across financial markets.

During the 2021 financial year, the LIBOR's administrator, the Intercontinental Exchange Benchmark Administration Limited, announced it would no longer publish EUR-, CHF-, JPY- and GBP-related LIBOR rates for all tenors after 31 December 2021. The ICE Benchmark Administration Limited ("IBA") has adopted a two-stage approach for the cessation of the US\$LIBOR rates with the 1-week and 2-month US\$LIBOR rates no longer being published after 31 December 2021 and the remaining being the overnight, 1-month, 3-month, 6-month and 12-month rates no longer being published after 30 June 2023.

The South African Reserve Bank ("SARB") has indicated its intention to move away from JIBAR and to create an alternative reference rate for South Africa; however, there is currently no indication of when the designated successor rate will be made available. SARB noted that JIBAR did not comply with the IOSCO Principles for Benchmarks. The SARB Market Practitioners Group ("MPG"), a joint public-private body has been mandated to facilitate decisions on the choice of alternative reference rates for financial contracts that should replace JIBAR. Given that the LIBOR rates and ARRs are calculated on a different basis, adjustments may be made to contracts that are transitioned from LIBOR to ARRs, to ensure economic equivalence.

Interest Rate Benchmark Reform ("IBOR") – Phase 2 (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16) – effective date 1 January 2021: The Group's facilities have various linked rates including US LIBOR (three months), EIBOR and JIBAR, the facilities have various maturity dates. At present, no material impact is anticipated on the Group's financial results when the remaining facilities' transition to alternative benchmark rates take place.

The main risks to which the Group is exposed as a result of IBOR reform are operational as detailed below:

Legal risk – risk of being non-compliant to the agreements previously agreed with facility providers. The Group discussed and agreed upon with all relevant parties any rate changes and the effects thereof with the relevant parties, prior to changes to the rates. This has therefore mitigated the risk to an acceptable level for the Group. The Group engaged in a proactive approach and leveraged off of the good standing relationship with all parties involved in the rate change to ensure a smooth transition.

Operational risk – risk of the Group's systems not being able to accommodate for the changes to the interest rates as agreed with the relevant parties. The Group has experienced personnel working on these and the systems have been designed to adapt to changes and have the necessary controls in place to ensure that this is implemented and approved at all relevant levels. These factors have mitigated the risk to an acceptable level.

Financial instruments impacted by the reform which have transitioned to an alternative benchmark rate as at the end of the year under review (reporting period):

During the year there were no financial instruments impacted by the reform which transitioned to alternative benchmark rates. There were, however, financial instruments previously linked to US\$LIBOR (six months) and SIBOR (six-month) that matured.

Financial instruments impacted by the reform which are yet to transition to an alternative benchmark rate as at the end of the year under review (reporting period):

	US\$LIBOR (three-month) US\$'000	EIBOR (three-month) US\$'000	ZAR JIBAR US\$'000	TOTAL US\$'000
Total liabilities subject to IBOR reform	99 622	5 388	12 218	117 228
Long-term liabilities interest-bearing liabilities*	–	–	12 218	12 218
Short-term interest-bearing liabilities*	99 622	–	–	99 622
Bank overdraft*	–	5 388	–	5 388

* The remaining IBOR that are yet to transition will be replaced with risk-free rates (RFRs). The two most common that are likely to be adopted will be SOFR (US\$) and SONIA (GBP)/TSSR.

No comparative information is required.

The Group's systems are equipped to cater for any new rates for the above financial instruments. Regular updates are being provided to management and staff on the transition process as Logicalis International, Logicalis Latin America and Westcon International have experienced management teams involved with the process.

The majority of Group's IBOR exposures are in US\$LIBOR and JIBAR which are expected to either mature before or near the expected cessation date for US\$LIBOR (three-month), which has an effective date of 30 June 2023 and as per SARB respectively. This largely further reduces the risks identified above although not entirely.

44. Subsidiaries and equity-accounted investments (continued)

Subsidiary companies

The subsidiary companies listing above illustrates the effective percentage shareholding of the Datatec Group in its trading subsidiaries. There are subsidiaries within the Group that have non-controlling interests and a number of these subsidiaries hold further investments that also have non-controlling interests. These entities are controlled by the Group and consolidated.

Note 1

Datatec Limited (the ultimate holding company) owns 90% of Westcon Emerging Markets Group Proprietary Limited ("WEMG") and WEMG holds 59.995% of the shares of Westcon Southern Africa Holdings Proprietary Limited and 100% of the shares in Westcon Group Shared Services Proprietary Limited. WEMG controls Westcon Southern Africa Holdings Proprietary Limited.

WEMG, a subsidiary of the Datatec Group, made a capital investment in Ascension Fund No 5 LLP ("the fund"), the BBBEE partner of Westcon Southern Africa Holdings Proprietary Limited (South Africa). WEMG has control over the fund. This fund is consolidated in the Datatec Group financial statements.

Westcon Southern Africa Holdings Proprietary Limited holds 81.5% of the shares in WestconGroup SA Proprietary Limited and 100% of the shares in Westcon Namibia Distribution Proprietary Limited and also controls both these entities.

WEMG, Westcon Southern Africa Holdings Proprietary Limited and WestconGroup SA Proprietary Limited are consolidated in the Group's annual financial statements based on control as defined in terms of IFRS 10.

Note 2

Westcon International was 90% owned by Datatec following the sale of Westcon Americas to SYNEX Corporation ("SYNEX") together with 10% of Westcon International in FY18. Effective 19 June 2020, Datatec Public Limited Company (an intermediate holding company) increased its shareholding in Westcon International to 92.1% as a result of a capitalisation transaction, resulting in a reduction of the minority interest of SYNEX from 10% to 7.9%. As a result, the 100%-owned subsidiaries of Westcon International now have a 92.1% effective holding by the Datatec Group.

Note 3

In FY21, Logicalis International Limited disposed of 40% of its investment in Mars Investment Holdings Proprietary Limited as part of a BBBEE deal. Mars Investment Holdings Proprietary Limited owns 100% of Mars Technologies Proprietary Limited and Mars Network and Risk Services Proprietary Limited. In FY23, Logicalis International Limited disposed of 30% of its shareholding in Logicalis South Africa as part of a BBBEE deal.

Note 4

During the year the Group disposed of its Management Consulting division, refer to Note 38.

Note 5

Logicalis International Limited owns 100% of the issued share capital of Logicalis Portugal S.A. ("Logicalis Portugal"). Logicalis Portugal owns 75% of the issued share capital of DX Net Limitada and Virtualization Limitada.

Logicalis International Limited consolidates Logicalis Portugal and its investments in DX Net Limitada and Virtualization Limitada as Logicalis Portugal has control over both these entities in terms of the requirements of IFRS 10.

Logicalis Networks GmbH business owns 51% of the shares in ITUMA GmbH and it is consolidated in the Group's annual financial statements based on control as defined in terms of IFRS 10.

Note 6

Datatec PLC, a 100%-owned subsidiary of Datatec Limited, owns 100% of the issued share capital of Logicalis Group Limited which has a 65% interest in Logicalis Latin America Holdings S.A., that owns 100% of Promon Logicalis Latin America Limited ("PLLAL"). PLLAL further owns a number of entities across Latin America that are controlled and consolidated by PLLAL.

Notes to the Group consolidated annual financial statements

continued

for the year ended 28 February 2023

44. Subsidiaries and equity-accounted investments (continued)

Subsidiary companies (continued)

Note 7

Westcon Doha and Westcon Kuwait are 100% consolidated as the minority shareholders have no rights to obtain a share of profits. Westcon has full management control in terms of their shareholder agreements of these entities.

Westcon Middle East Equipments Trading LLC, Westcon Saudi Company LLC and Westcon Middle East Bahrain WLL are 100% consolidated as Westcon has full control over these entities in terms of the shareholder agreements. Westcon increased its shareholding in Westcon Middle East Bahrain WLL to 99% in FY22.

Note 8

In FY21 Logicalis' Singapore business purchased 65% of the shares of iZeno Private Limited ("iZeno"). iZeno in turn owns 99% of the shares in PT iZeno Teknologi Indonesia and 100% of the shares in iZeno Sdn Bhd. iZeno's results are consolidated in the Datatec Group results based on control as defined in terms of IFRS 10.

Note 9: Acquisitions, disposals and newly incorporated entities

LGLP (Pty) was newly incorporated during the year under review, the Group owns 100% shareholding of the entity.

Logicalis International Group Holding Limited was newly incorporated during the year under review, the Group owns 100% shareholding of the entity. The investment in Logicalis International is held in this entity.

iZeno Pte Limited acquired 99.99991% of iZeno (Thailand) Company Limited and 99.99903% of iZeno Incorporated in May 2022 and February 2022 respectively.

During the year Logicalis UK Limited, a 100%-owned subsidiary of Logicalis International, acquired 100% of Q Associates Limited and its subsidiary Two Ten Degrees Limited. Refer to Note 38 for further details.

During the year Access Markets International (AMI) Partners, Inc. a 100%-owned subsidiary of Analysys Mason Limited acquired 100% of Northern Sky Research, LLC, refer to Note 38 for further details.

Comstor Middle East Limited and Westcon Middle East Limited were dissolved during the year.

The results of these acquisitions are consolidated in the Datatec Group results based on control as defined in terms of IFRS 10.

Note 10: Equity-accounted associates and joint ventures

During the year Fortum Fibre AS was disposed of by the Management Consulting division. The Group disposed of its investment in Esource Resources, LLC for no consideration. Datatec PLC's shareholding in Mason Advisory Limited was decreased to 42.50% (FY22: 44.74%) due to additional shares being issued to an existing external shareholder.

During the year Logicalis Group Limited acquired 27.23% shareholding (FY22: nil) of Cirrus Participações S.A.C. in Brazil ("Cirrus"). PLLAL decreased its holding to 37.05% (FY22: 50.1%) of Cirrus. Cirrus owns 65% of Saleslogics Serviços em Inteligência de Negócios Empresariais e Informática Limitada and 100% (FY22: 99.994%) of Kumulus Serviços em Cloud Computing e Database Limitada respectively. Cirrus is equity-accounted for in Datatec Group's annual financial statements.

Refer to Note 12 for material equity-accounted investments and joint ventures.

Notice of Annual General Meeting

Datatec Limited

(Incorporated in the Republic of South Africa)

Registration number: 1994/005004/06

Share code: DTC

ISIN: ZAE000017745

("Datatec" or "the Company" or "the Group")

Notice is hereby given that the annual general meeting ("Meeting") of shareholders of Datatec will be held at 14:00 on Thursday, 27 July 2023. This Meeting will be conducted entirely by electronic communication with shareholder participation and voting expected to be online through the use of a virtual meeting platform (the "Virtual Meeting Platform") provided by The Meeting Specialists Proprietary Limited ("TMS" or the "Scrutineers").

The Board of directors ("the Board"), in accordance with section 63(2)(a) of the Companies Act, No 71 of 2008, as amended ("Companies Act") and the Company's Memorandum of Incorporation ("Mol"), have resolved to convene the Meeting entirely by electronic communication. Please see below for further details regarding the electronic participation instructions and guidelines, and should you have any further questions, please send an email to ir@datatec.com.

The Meeting will be held for the purpose of: (i) considering the following business to be transacted and voting on the resolutions, with or without modification, in the manner required by the Companies Act, as read with the Listings Requirements of the JSE Limited ("JSE") ("Listings Requirements"), and (ii) deal with such other business as may lawfully be dealt with at the Meeting:

1. Presentation of annual financial statements

"To present Datatec's audited annual financial statements for the year ended 28 February 2023, including the directors' report, the Audit, Risk and Compliance Committee report, and Group audited annual financial statements for the year ended 28 February 2023; all of which are contained from pages 59 to 184 of the Annual Report."

2. The Social and Ethics Committee report

"Please refer to page 6 for the Social and Ethics Committee report. The Chair of the Social and Ethics Committee is available to report to the shareholders at the Meeting."

3. Re-election of director

Ordinary resolution number 1

"Resolved that Mr JP Montanana, who retires in terms of the Mol and who offers himself for re-election, be and is hereby re-elected as a director of the Company."

Please refer to page 2 for Mr Montanana's brief *curriculum vitae*. On behalf of the Board, the Chair confirms that, on the basis of the annual evaluation of the Board and of the performance of individual directors, the performance and commitment of Mr Montanana throughout his period of office was highly satisfactory.

In order for this resolution to be adopted, the support of more than 50% (fifty percent) of votes cast by shareholders present or represented by proxy at the Meeting is required.

4. Re-election of director

Ordinary resolution number 2

"Resolved that Mr SJ Davidson, who retires in terms of the Mol and who offers himself for re-election, be and is hereby re-elected as a director of the Company for a term of one year from the date of the Meeting."

The Company is seeking a final reappointment for Mr Davidson for one year until his retirement from the Board at the 2024 Annual General Meeting of the Company.

Please refer to page 2 for Mr Davidson's brief *curriculum vitae*. On behalf of the Board, the Chair confirms that, on the basis of the annual evaluation of the Board and of the performance of individual directors, the performance and commitment of Mr Davidson throughout his period of office was highly satisfactory.

In order for this resolution to be adopted, the support of more than 50% (fifty percent) of votes cast by shareholders present or represented by proxy at the Meeting is required.

Notice of Annual General Meeting continued

5. Election of director

Ordinary resolution number 3

"Resolved that Mr LC Rapparini, who has been appointed by the Board on 1 September 2022, be and is hereby elected as a director of the Company."

On behalf of the Board, the Chair confirms that Mr Rapparini's extensive experience and expertise in finance and internal audit will make a significant contribution to Datatec.

Please refer to page 3 for Mr Rapparini's brief *curriculum vitae*. On behalf of the Board, the Chair confirms that the performance and commitment of Mr Rapparini throughout his period of office was highly satisfactory.

In order for this resolution to be adopted, the support of more than 50% (fifty percent) of votes cast by shareholders present or represented by proxy at the Meeting is required.

6. Reappointment of independent auditors

Ordinary resolution number 4

"Resolved that PricewaterhouseCoopers Incorporated, and Mr Deon Storm as the designated auditor, as recommended by the current Audit, Risk and Compliance Committee of the Company, be reappointed, as auditors of the Company from the conclusion of this Meeting until the conclusion of the next Meeting."

In order for this resolution to be adopted, the support of more than 50% (fifty percent) of votes cast by shareholders present or represented by proxy at the Meeting is required.

7. Election of Audit, Risk and Compliance Committee members

Ordinary resolution number 5

"Resolved that the members of the Audit, Risk and Compliance Committee be elected to serve with effect from the conclusion of this Meeting to the commencement of the next Meeting to be held in 2024 by separate election to the committee of the following independent non-executive directors:

- 5.1 Mr MJN Njeke;
- 5.2 Ms DS Sita;
- 5.3 Mr CRK Medlock."

Please refer to page 3 for Mr Njeke's, Ms Sita's and Mr Medlock's brief *curricula vitae*. On behalf of the Board, the Chair confirms that each candidate for election to the Audit, Risk and Compliance Committee has the relevant knowledge and experience to discharge their role effectively and that the performance of each candidate in the service of the Audit, Risk and Compliance Committee to the date of this notice has been highly satisfactory.

In order for each of the above resolutions to be adopted, the support of more than 50% (fifty percent) of votes cast by shareholders present or represented by proxy at the Meeting is required.

8. Non-binding advisory votes on Remuneration Policy and Remuneration Implementation

Ordinary resolution number 6

"Resolved that the Remuneration Policy of the Company as reflected on pages 19 to 26, be and is hereby endorsed through a non-binding advisory vote as recommended by the Report on Corporate Governance for South Africa, 2016 ('King IV')."

Ordinary resolution number 7

"Resolved that the Remuneration Implementation Report of the Company as reflected on pages 27 to 36, be and is hereby endorsed through a non-binding advisory vote as recommended by King IV."

Explanatory note on ordinary resolutions number 6 and 7

In terms of principle 14 of King IV, the Company's remuneration policy and remuneration implementation report should be tabled to shareholders for separate non-binding advisory votes at the Meeting. These votes enable shareholders to express their views on the remuneration policies adopted by the Company and on the implementation thereof. Shareholders are requested to endorse the Company's remuneration policy set out in the Annual Report.

9. Approval of amendments to the rules of the Datatec Conditional Share Plan 2017 ("CSP")

Ordinary resolution number 8

"Resolved that the Company approves the amendments made to the Conditional Share Plan 2017 to ensure compliance with Schedule 14 of the JSE Listings Requirements, which can be summarised as follows:

1. Clause 2.1.39 has been inserted to define 'Special Dividends';
2. The fixed number of Shares settled to any single Participant, as disclosed in clause 4.2.1 of the CSP rules, be amended to not exceed 6,000,000 Shares. This number equates to approximately 2.67% of the Company's issued share capital as at 28 February 2023;
3. Inclusion of the definition 'Special Dividends' in clause 4.4.2 of the CSP rules to comply with 14.3(b) of the JSE Listings Requirements to provide that in the event of a special dividend by the Company, the Board shall, without requiring the approval of shareholders of the Company in a general meeting, adjust the maximum number of Shares which a Participant may receive in terms of the CSP so as to ensure that Participants are given entitlement to the same proportion of the equity capital of the Company as that to which he was previously entitled prior to the occurrence of the relevant event."

Reason for ordinary resolution number 8

When the Company pays a special dividend, significant value is transferred to ordinary shareholders but not to CSP unit holders whose future interest in Datatec shares is conditional upon meeting performance conditions. In order to preserve the economic value of the CSP units, a modification is made to increase the number of granted but non-yet vested awards at the time the special dividend is paid. The reason for and the effect of this resolution is to apply the same logic to the limit contained in the CSP Rules on the fixed number of Shares which may be settled to any single Participant over the lifetime of the CSP.

Adopting the amendments to the CSP rules will allow the CSP to continue to provide Participants with incentive to advance the Company's interests and promote the alignment of interests between such employees and the shareholders of the Company.

The JSE has provided formal approval of the amendments to the CSP rules.

Copies of the CSP rules are available for inspection from the date of this notice of annual general meeting until the conclusion of this Meeting convened in terms thereof at the registered office of the Company.

In terms of the JSE Listings Requirements, the approval of a 75% majority of the votes cast by shareholders present or represented by proxy and entitled to vote at this Meeting, is required for this ordinary resolution number 8 to become effective, but excluding the votes attaching to all Shares subject to the CSP Rules.

Notice of Annual General Meeting continued

10. Approval of non-executive directors' fees

Special resolution number 1

"Resolved that the Board and committee fees for non-executive directors for the financial year ending 29 February 2024, as recommended by the Remuneration Committee and set out in the note below, be and are hereby authorised, in accordance with the provisions of the Companies Act, and that the Company may continue to pay directors' fees at the annual rates specified in the note below for the period from 28 February 2023 until the Company's 2024 Meeting.

Directors' fees:

- Chair of the Board: US\$224 338 (total fee inclusive of all committee and subsidiary board work);
- Non-executive director's fee: US\$70 872;
- Chair of the Audit, Risk and Compliance Committee: US\$35 425;
- Member of the Audit, Risk and Compliance Committee: US\$17 713;
- Chair of the Social and Ethics Committee: US\$11 808;
- Member of the Social and Ethics Committee: US\$5 904;
- Chair of the Remuneration Committee: US\$17 713;
- Member of the Remuneration Committee: US\$8 862;
- Member of the Nominations Committee: US\$5 904; and
- Chair of Trustees of the Datatec Educational and Technology Foundation: US\$13 356."

Reason for special resolution number 1

The Companies Act requires shareholder approval of non-executive directors' fees prior to payment of such fees. The fees have been increased 6% from the levels approved at the previous Meeting having remained at their previous level for two years.

In terms of the Companies Act, 75% (seventy-five percent) of the votes cast by shareholders present or represented by proxy at this Meeting must be cast in favour of this resolution for it to be adopted.

11. Authority to provide financial assistance to any group company

Special resolution number 2

"Resolved that, to the extent required by sections 44 and/or 45 of the Companies Act, the Board may, subject to the provisions of the Companies Act, the Company's MoI and the Listings Requirements, authorise the Company to provide direct or indirect financial assistance to any related or inter-related (as defined in the Companies Act) company or corporation of the Company, on terms and conditions which the directors may determine, commencing on the date of passing of this resolution and ending at the next Meeting."

Reason for special resolution number 2

In terms of the Companies Act, the Board may authorise the Company to provide any financial assistance in terms of sections 44 and/or 45 of the Companies Act to any related or inter-related company or corporation of the Company, subject to certain requirements set out in the Companies Act, including the Company meeting the solvency and liquidity test. This general authority would greatly assist the Company inter alia with making inter-company loans to Group companies as well as granting letters of support and guarantees in appropriate circumstances. The existence of a general shareholder authority would avoid the need to refer each instance to members for approval which might impede the negotiations and add time and expense. If approved, this general authority will expire at the next Meeting.

Notification

Written notice in terms of section 45(5) of the Companies Act of any such resolution by the Board shall be given to all shareholders of the Company and any trade union representing its employees:

- within 10 business days after the Board adopts the resolution, if the total value of the financial assistance contemplated in that resolution, together with any previous such resolution during the financial year, exceeds one-tenth of 1% (one percent) of the Company's net worth at the time of the resolution; or
- within 30 business days after the end of the financial year, in any other case.

Subject to the approval of this special resolution, the Board will pass a similar financial assistance resolution on or after the date of this Meeting.

In terms of the Companies Act, 75% (seventy-five percent) of the votes cast by shareholders present or represented by proxy at the Meeting must be cast in favour of this resolution for it to be adopted.

12. General authority to repurchase shares

Special resolution number 3

"Resolved that the Board be authorised by way of a general authority given as a renewable mandate, to facilitate the acquisition by the Company and/or a subsidiary of the Company of the issued ordinary shares of the Company, upon such terms and conditions and in such amounts as the directors of the Company may from time to time determine, but subject to the Mol, the provisions of the Companies Act and the Listings Requirements, when applicable and provided that:

- a. an announcement giving such details as may be required in terms of the Listings Requirements be released on the Stock Exchange News Service when the Company or its subsidiaries have cumulatively repurchased 3% (three percent) of the initial number of the shares of the Company in issue as at the time the general authority was granted and for each 3% (three percent) in aggregate of the initial number of shares acquired thereafter;
- b. the authorisation granted above shall remain in force from the date of passing of this special resolution for a period of 15 (fifteen) months or until the next Meeting, whichever period is shorter;
- c. at any point in time, the Company will only appoint one agent to effect any repurchase(s) on its behalf;
- d. the Company or its subsidiary shall not repurchase securities during a prohibited period as defined in paragraph 3.67 of the Listings Requirements unless the repurchase is done in accordance with the provisions of the Listings Requirements, including, but not limited to, a repurchase programme being in place, where dates and quantities of shares to be traded during the prohibited period are fixed (not subject to any variation) and full details of the programme being disclosed to the JSE in writing prior to the commencement of the prohibited period, as required and the Company having instructed an independent third party, which makes its investment decisions in relation to the Company's securities independently of, and uninfluenced by, the Company, prior to the commencement of the prohibited period to execute the repurchase programme submitted to the JSE;
- e. the repurchase of securities will be effected through the order book operated by the JSE trading system and done without any prior understanding or arrangement between the Company and the counterparty (reported trades are prohibited);
- f. the repurchase by the Company of its own securities above may not exceed 20% (twenty percent) of the Company's issued ordinary share capital in the aggregate in any one financial year, as at the beginning of the financial year, or in the case of acquisition by any of the Company's subsidiaries, 10% (ten percent) of such issued ordinary share capital in the aggregate if such shares are to be held as treasury shares;
- g. any such general repurchase will be subject to the applicable provisions of the Companies Act (including sections 114 and 115 to the extent that section 48(8) is applicable in relation to that particular repurchase);
- h. any such repurchases are subject to exchange control approval at that point in time;
- i. in determining the price at which the Company's ordinary shares are acquired by the Company in terms of this general authority, the maximum premium at which such ordinary shares may be acquired will be 10% (ten percent) of the weighted average of the market price at which such ordinary shares are traded on the JSE, as determined over the 5 (five) trading days immediately preceding the date of the repurchase of such ordinary shares by the Company or a subsidiary of the Company; and
- j. a resolution has been passed by the Board confirming that the Board has authorised the general repurchase, that the Company has passed the solvency and liquidity test as required by the Companies Act and since the test was done there have been no material changes to the financial position of the Group."

At least 75% (seventy-five percent) of the votes cast by shareholders present or represented by proxy at the Meeting must be cast in favour of this resolution in terms of the Listings Requirements in order for it to be adopted.

Notice of Annual General Meeting continued

Additional disclosure

For purposes of considering Special Resolution Number 3 and in terms of the Listings Requirements, the information below has been included in the Annual Report, in which this notice of Meeting is included, at the places indicated:

- Major shareholders (refer page 195); and
- Share capital of the Company (refer page 127).

The Company will not commence a general repurchase of shares as contemplated above unless the following can be met:

- the Company and the Group will be able to repay its debts in the ordinary course of business for a period of 12 (twelve) months following the date of the general repurchase;
- the Company and the Group's assets will be in excess of the liabilities of the Company and the Group for a period of 12 (twelve) months after the date of the general repurchase. For this purpose, the assets and liabilities will be recognised and measured in accordance with the accounting policies used in the latest audited consolidated annual financial statements which comply with the Companies Act;
- the share capital and reserves of the Company and the Group will be adequate for ordinary business purposes for a period of 12 (twelve) months after the date of the general repurchase; and
- the working capital of the Company and the Group will be adequate for ordinary business purposes for a period of 12 (twelve) months following the date of the repurchase.

Any decision by the Board involving a repurchase by the Company of more than 5% (five percent) of the issued shares of any class will be subject to the requirements of sections 48, 114 and 115 of the Companies Act, including the distribution of a circular to the shareholders of the Company in compliance with the Companies Act and the Listings Requirements, seeking the approval of the shareholders for such repurchase.

Reason and effect

The reason and effect for Special Resolution Number 3 is to authorise the Company and/or its subsidiary company by way of a general authority to acquire its own issued shares on such terms, conditions and in such amounts as determined from time to time by the directors of the Company subject to the limitations set out above.

Statement of Board's intention

The Board has no current plans to repurchase shares but would like the flexibility to use the shareholder authority which this resolution would provide to undertake a repurchase if circumstances arise in future which would render such a repurchase beneficial to the Company having regard to prevailing circumstances, market conditions as well as the Company's liquidity requirements.

Directors' responsibility statement

The directors, whose names are given on page 197, collectively and individually accept full responsibility for the accuracy of the information pertaining to Special Resolution Number 3 and certify that to the best of their knowledge and belief there are no facts that have been omitted which would make any statement false or misleading, and that all reasonable enquiries to ascertain such facts have been made and that this special resolution contains all information required by the Listings Requirements.

Material changes

There have been no material changes in the affairs or financial position of the Company and/or the Group since the date of signature of the audit report up to the date of this notice.

13. Authority to sign all documents required

Ordinary resolution number 9

"Any director of the Company or the Company Secretary shall be and is hereby authorised to sign all documents and perform all acts which may be required to give effect to such Ordinary Resolutions Number 1 to 8 and Special Resolutions Number 1 to 3 passed at the Meeting."

In order for this resolution to be adopted, the support of more than 50% (fifty percent) of votes cast by shareholders present or represented by proxy at the Meeting is required.

14. To transact such other business as may be transacted at an annual general meeting

The record date on which shareholders must be recorded as such in the register maintained by the transfer secretaries of the Company for the purposes of being entitled to receive this notice of the Meeting is Thursday, 15 June 2023.

Voting and proxies

Record date and proxies

The record date on which shareholders must be recorded as such in the register maintained by the transfer secretaries of the Company for the purposes of being entitled to attend and vote at the Meeting is Friday, 14 July 2023. Accordingly, the last day to trade for the purposes of being entitled to attend and vote at the Meeting is Tuesday, 11 July 2023.

Shareholders who have not dematerialised their shares or who have dematerialised their shares with "own name" registration are entitled to attend and vote at the Meeting (in each case via the Virtual Meeting Platform) and are entitled to appoint a proxy or proxies to attend, speak and vote in their stead. The person so appointed need not be a shareholder of the Company. Proxy forms must be forwarded to reach the registered office of the Company or The Meeting Specialists Proprietary Limited, JSE Building, One Exchange Square, Gwen Lane, Sandown, 2196 or posted to The Meeting Specialists Proprietary Limited at PO Box 62043, Marshalltown, 2107, South Africa or emailed to proxy@tmsmeetings.co.za, so as to be received by them, for administrative purposes, by no later than 14:00, on Tuesday, 25 July 2023. Any forms of proxy not lodged by this time may be emailed to proxy@tmsmeetings.co.za prior to the commencement of the Meeting.

Proxy forms must only be completed by shareholders who have dematerialised their shares with "own name" registration or who have not dematerialised their shares.

Every member attending the Meeting personally or by proxy and entitled to vote at the Meeting of the Company shall have one vote only irrespective of the number of shares such member holds. In the event of a poll, every member shall be entitled to that proportion of the total votes in the Company which the aggregate amount of the nominal value of the shares held by such member bears to the aggregate amount of the nominal value of all the shares issued by the Company.

Shareholders who have dematerialised their shares, other than those shareholders who have dematerialised their shares with "own name" registration, who are unable to attend the Meeting but wish to be represented thereat, should contact their Central Securities Depository Participant ("CSDP") or broker (as the case may be) in the manner and time stipulated in their agreement entered into by such shareholder and the CSDP or broker (as the case may be) to furnish the CSDP or broker (as the case may be) with their voting instructions and in the event that such shareholders wish to attend the Meeting, to obtain the necessary authority to do so. Such shareholders who wish to attend the meeting in person (via the Virtual Meeting Platform) must obtain the necessary letter of representation from their CSDP or broker.

Shares held by a share trust or scheme will not have their votes at meetings taken into account for the purposes of resolutions proposed in terms of the Listings Requirements.

Notice of Annual General Meeting continued

Electronic participation in the 2023 meeting

All shareholders who wish to attend the meeting are required to participate in the Meeting by way of electronic participation, and are required to send a notice in writing (including details on how the shareholder or representative (including proxy) can be contacted) to the Scrutineers, at The Meeting Specialists Proprietary Limited, JSE Building, One Exchange Square, Gwen Lane, Sandown, 2196 or post to The Meeting Specialists Proprietary Limited at PO Box 62043, Marshalltown, 2107, South Africa or email **proxy@tmsmeetings.co.za**. The written notification must be received by the Scrutineers at least 48 hours prior to the Meeting (being Tuesday, 25 July 2023) for the Scrutineers to arrange for the shareholder (or representative or proxy) to provide reasonably satisfactory identification to the transfer secretaries for the purposes of section 63(1) of the Companies Act and for the Scrutineers to provide the shareholder (or representative or proxy) with details on how to access the Meeting by means of electronic participation. The written notification should contain the following:

- a certified copy of the shareholder's identification document or passport if the shareholder is an individual;
- a certified copy of a resolution of letter of representation given by the holder if the shareholder is a company or juristic person, and certified copies of identity document or passports of the persons who passed the resolution; and
- a valid email address and/or telephone number.

Participants who have complied with the notice requirement above, will be contacted between Wednesday, 26 July 2023 and Thursday, 27 July 2023, and provided the relevant connection details as well as the passcodes through which they or their proxy/ies can participate via electronic communication and of the process for participation via a unique link to the email/cellphone number provided in the notification.

It is recommended that shareholders log into the online platform at least 15 minutes prior to the scheduled start time for the Meeting. Should shareholders require assistance with accessing the online platform, they can call the following helpline: +2781 711 4255.

Shareholders will be able to view a live webcast of the Meeting, ask directors questions online in written format or orally and submit your votes in real time if the shareholder has not already voted through their CSDP or broker.

The cost of accessing any means of electronic participation provided by the Company will be borne by the Company.

12.	S3	General authority to repurchase shares			
13.	O9	Authority to sign all documents required			

O = Ordinary S = Special

Notes to the form of proxy

1. A member entitled to attend and vote at the Annual General Meeting is entitled to appoint one or more proxies to attend, speak and vote in his/her stead. A proxy need not be a registered member of the Company.
2. Every member attending the Annual General Meeting personally or by proxy and entitled to vote at the Annual General Meeting of the Company shall have one vote only irrespective of the number of shares such member holds. In the event of a poll, every member shall be entitled to that proportion of the total votes in the Company which the aggregate amount of the nominal value of the shares held by such member bears to the aggregate amount of the nominal value of all the shares issued by the Company.
3. Members registered in their own name are members who elected not to participate in the Issuer-Sponsored Nominee Programme and who appointed Computershare Investor Services Proprietary Limited as their Central Securities Depository Participant ("CSDP") with the express instruction that their uncertificated shares are to be registered in the electronic sub-register of members in their own names.

Instructions on signing and lodging the form of proxy

1. A member may insert the name of a proxy or the names of two alternative proxies of the member's choice in the space/s provided overleaf, with or without deleting "the chair of the Annual General Meeting", but any such deletion must be initialled by the member. Should this space be left blank, the proxy will be exercised by the chair of the Annual General Meeting. The person whose name appears first on the form of proxy and who is present at the Annual General Meeting will be entitled to act as proxy to the exclusion of those whose names follow.
2. A member's voting instructions to the proxy must be indicated by the insertion of an "X", or the number of votes exercisable by that member, in the appropriate spaces provided overleaf. Failure to do so will be deemed to authorise the proxy to vote or to abstain from voting at the Annual General Meeting as he/she thinks fit in respect of all the member's exercisable votes. A member or his/her proxy is not obliged to use all the votes exercisable by him/her or by his/her proxy but the total number of votes cast, or those in respect of which abstention is recorded, may not exceed the total number of votes exercisable by the member or by his/her proxy.
3. To be valid, the completed forms of proxy must be lodged with The Meeting Specialists Proprietary Limited, JSE Building, One Exchange Square, Gwen Lane, Sandown, 2196 or posted to The Meeting Specialists Proprietary Limited at PO Box 62043, Marshalltown, 2107, South Africa or emailed to proxy@tmsmeetings.co.za, or call The Meeting Specialists on +27 11 520 7952/0/1, so as to be received by them, for administrative purposes, by no later than 14:00, on Tuesday, 25 July 2023. Any forms of proxy not lodged by this time must be received by the chair of the Annual General Meeting in a timely manner.
4. Documentary evidence establishing the authority of a person signing this form of proxy in a representative capacity must be attached to this form of proxy unless previously recorded by the chair of the Annual General Meeting.
5. The completion and lodging of this form of proxy will not preclude the relevant member from attending the Annual General Meeting and speaking and voting in person thereat to the exclusion of any proxy appointed in terms hereof, should such member wish to do so.

The completion of any blank spaces overleaf need not be initialled. Any alterations or corrections to this form of proxy must be initialled by the signatory/ies.

The chair of the Annual General Meeting may accept any form of proxy which is completed other than in accordance with these instructions provided that he is satisfied as to the manner in which a member wishes to vote.

Members who have dematerialised their shares must inform their CSDP or broker of their intention to attend the Annual General Meeting and request their CSDP or broker to issue them with the necessary authorisation to attend or provide their CSDP or broker with their voting instructions should they not wish to attend the Annual General Meeting in person.

In terms of section 58 of the Companies Act, 2008 ("the Companies Act"):

- a shareholder may, at any time and in accordance with the provisions of section 58 of the Companies Act, appoint any individual (including an individual who is not a shareholder) as a proxy to participate in, and speak and vote at, a shareholders' meeting on behalf of such shareholder;
- a proxy may delegate his authority to act on behalf of a shareholder to another person, subject to any restriction set out in the instrument appointing such proxy;
- irrespective of the form of instrument used to appoint a proxy, the appointment of a proxy is suspended at any time and to the extent that the relevant shareholder chooses to act directly and in person in the exercise of any of such shareholder's rights as a shareholder;
- any appointment by a shareholder of a proxy is revocable, unless the form of instrument used to appoint such proxy states otherwise;
- if an appointment of a proxy is revocable, a shareholder may revoke the proxy appointment by:
 - (a) cancelling it in writing, or making a later inconsistent appointment of a proxy; and
 - (b) delivering a copy of the revocation instrument to the proxy and to the Company; and
- a proxy appointed by a shareholder is entitled to exercise, or abstain from exercising, any voting right of such shareholder without direction, except to the extent that the Memorandum of Incorporation of the Company, or the instrument appointing the proxy, provides otherwise.
